

Filing Receipt

Filing Date - 2024-10-14 09:24:27 AM

Control Number - 55204

Item Number - 12

1. Reference the meter sizes and bills for the proposed commercial rates included in WP Rate Design in the Application in Docket No. 50197.1 Please explain why the 1½" meter connections are not included in the compliance filing for rate case expenses.

Response: Some of the meters provided in Docket 50197 rate application were incorrect. One of the 2 Stripes 1½" meters should be 2" the other meter for irrigation should remain as 1½". The Express Oil meter should be 1" rather than 1½" as assumed in Docket 50197. Thus, the Stripes irrigation meter should receive a credit reflecting a 1½" rather than 2" meter as charged. The Express Oil meter size is correct.

<u>Original Docket 50197</u>			<u>Comments</u>
Valero	2"	1	Correct
Haven	2"	2	Correct
Stripes	1 1/2"	2	One is 2" and one is 1 1/2
Express Oil	1 1/2"	1	Should be 1"
Total		<u>6</u>	

<u>Compliance Docket 55204</u>			
Valero	2"	1	No Change
Haven	2"	2	No Change
Stripes	2"	1	Correction
Stripes	1 1/2"	1	No Change
Express Oil	1"	1	Correction
Total		<u>6</u>	

Stripes will be issued a credit of \$215.80 for 13 months ending October 2024 on its November 2024 bill calculated as follows: Original charge for 2" meter \$44.30 minus correct charge for 1½" meter \$27.70 equals a difference of \$16.60 multiplied by 13 months equals \$215.80.

See attached Excel file "Rate Case Expense Status Update Through October 2024" tab "Response to Order" which shows the credit applied to Stripes and the calculation of the last month's recovery charge for approved rate case expenses in Docket 50197.

2. Please explain why some 2"-meter connections were charged \$44.30, instead of the correct calculation of \$44.32.

Response: We believe it was oversight due to rounding. Future charges will be updated to reflect the additional 2 cents. The Company agrees to forfeit the additional past 2 cent charge deficiencies.
