RE: Docket No. 55373– Request for Time Extension of Order No. 8

The McLennan County Water Control and Improvement District No. 2 (the “District”), through the City’s engineer, TRC Engineers, Inc., files this Request for Time Extension in response to the administrative law judge’s (“ALJ”) Order No. 8, filed May 31, 2024, related to Docket No. 55373. Order No. 8 established a deadline of February 3, 2025, for the Applicants to supplement the application to cure deficiencies as described in the January 2, 2025, memoranda of Garrett Sharp in Item Number 8, therefore this request is timely filed.

TRC has had discussions with the City of Waco Staff and the District regarding the deficiencies. The District has been corresponding with the City of Waco about the CCN agreement. More time is required to obtain the written letter from the City of Waco that has been asked by the PUC Staff.

The Applicants respectfully requests that the deadline to file a response to Order No. 8 be extended from February 3, 2025, to April 7, 2025.

The Commission has no standardized application form for the relief sought in this petition; thus, Applicants are relying on information from similar proceedings filed with the Commission for the contents of this petition. Please contact this office if you need additional information.

Sincerely,  

Tim Wallace, P.E.  
TRC Engineers, Inc.

cc: Rhonda Taylor, Office Manager, McLennan County Water Control and Improvement District No. 2
