Company Summary

Eversource Energy, earlier known as Northeast Utilities, engaged in the utility business. It was founded in 1927. It transmits and delivers electricity and natural gas to residential and commercial customers in Connecticut, New Hampshire and Massachusetts. The company's ticker symbol is "ES" instead of "NU". The company's headquarters are located in Springfield, Massachusetts.

Eversource's revenues from the sale of electricity and natural gas are primarily derived from long-term contracts and are not dependent on any single customer. The company's operating income is primarily derived from the sale of electricity and natural gas. [Read Full Company Summary for ES here](#)

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +24.20% per year. These returns cover a period from January 1, 1988 through April 1, 2024. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Rank stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations. Zacks may license the Zacks Mutual Fund rating provided herein to third parties, including but not limited to the issuer.

Company Summary

Sempra Energy is a southern California-based energy services holding company involved in the sale, distribution, storage and transportation of electricity and natural gas. Formed in 1998, Sempra Energy also invests in, develops and operates energy infrastructure. Outside North America, the company boasts a strong and growing presence in Mexico, through a diverse portfolio of energy infrastructure projects and assets serving Mexico's growing energy need. In the fourth quarter of 2023, the company realigned its reportable segments and now has three segments.

Sempra California: This segment consists of the company's former segments- San ...

Company Summary

Columbus, OH-based American Electric Power Company, Inc. is a public utility holding company, which, through directly and indirectly owned subsidiaries, generates, transmits and distributes electricity, natural gas and other commodities. The company was incorporated in 1906 and reorganized in 1925. It is one of the largest integrated utilities in the United States, serving nearly 5.6 million customers in 11 states. It has roughly 23,300 megawatts (MW) of generating capacity, of which almost 42% were coal-fired as of Dec 31, 2023, and nearly 40,000 miles of

electricity transmission system network. Its service area covers Arkansas, Indiana, Kentucky, Louisiana, Michigan, Ohio, Oklahoma, Tennessee, Texas, Virginia and West ...

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +24.20% per year. These returns cover a period from January 1, 1988 through April 1, 2024. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Ranks stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations. Zacks may license the Zacks Mutual Fund rating provided herein to third parties, including but not limited to the issuer.

Company Summary

Charlotte, NC-based Duke Energy Corporation, incorporated in April 1904, is a diversified energy company with a wide portfolio of domestic and international, natural gas and electric and regulated and unregulated businesses which supply, deliver and process energy in North America and selected international markets. Earlier, Duke Energy operated three business segments, namely Regulated Utilities, International Energy and Commercial Portfolio.

Currently the company primarily operates through three business segments – Electric Utilities and Infrastructure, Gas Utilities and Infrastructure, and Other.

The Electric Utilities and Infrastructure segment provides retail electric service through the generation, ...

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +24.20% per year. These returns cover a period from January 1, 1988 through April 1, 2024. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Rank stocks can, and Zacks Rank stocks for which no month-end price was available, pricing information have been excluded from these return calculations. Zacks may license the Zacks Rank system to other issuers, including but not limited to the issuer.
