MONETARY POLICY REPORT

March 1, 2024

Board of Governors of the Federal Reserve System

PART 3

SUMMARY OF ECONOMIC PROJECTIONS

The following material was released after the conclusion of the December 12–13, 2023, meeting of the Federal Open Market Committee.

In conjunction with the Federal Open Market Committee (FOMC) meeting held on December 12–13, 2023, meeting participants submitted their projections of the most likely outcomes for real gross domestic product (GDP) growth, the unemployment rate, and inflation for each year from 2023 to 2026 and over the longer run. Each participant's projections were based on information available at the time of the meeting, together with her or his assessment of appropriate monetary policy—including a path for the federal funds rate and its longer-run value—and assumptions about other factors likely

to affect economic outcomes. The longer-run projections represent each participant's assessment of the value to which each variable would be expected to converge, over time, under appropriate monetary policy and in the absence of further shocks to the economy. "Appropriate monetary policy" is defined as the future path of policy that each participant deems most likely to foster outcomes for economic activity and inflation that best satisfy his or her individual interpretation of the statutory mandate to promote maximum employment and price stability.

Table 1. Economic projections of Federal Reserve Board members and Federal Reserve Bank presidents, under their individual assumptions of projected appropriate monetary policy, December 2023

Percent

Variable	Median ¹					Central tendency ²					Range ³

Notes: Projections of change in real gross domestic product (GDP) and projections for both measures of inflation are percent changes from the fourth quarter of the previous year to the fourth quarter of the year indicated. PCE inflation and core PCE inflation are the percentage rates of change in, respectively, the price index for personal consumption expenditures (PCE) and the price index for PCE excluding food and energy. Projections for the unemployment rate are for the average civilian unemployment rate in the fourth quarter of the year indicated. Each participant's projections are based on his or her assessment of appropriate monetary policy. Longer-run projections represent each participant's assessment of the rate to which each variable would be expected to converge under appropriate monetary policy and in the absence of further shocks to the economy. The projections for the federal funds rate are the value of the midpoint of the projected appropriate target range for the federal funds rate or the projected appropriate target level for the federal funds rate at the end of the specified calendar year or over the longer run. The September projections were made in conjunction with the meeting of the Federal Open Market Committee on September 19–20, 2023. One participant did not submit longer-run projections for the change in real GDP, the unemployment rate, or the federal funds rate in conjunction with the September 19–20, 2023, meeting, and one participant did not submit such projections in conjunction with the December 12–13, 2023, meeting.

1. For each period, the median is the middle projection when the projections are arranged from lowest to highest. When the number of projections is even, the median is the average of the two middle projections.

2. The central tendency excludes the three highest and three lowest projections for each variable in each year.

3. The range for a variable in a given year includes all participants' projections, from lowest to highest, for that variable in that year.

4. Longer-run projections for core PCE inflation are not collected.

This combined Form 10-K is filed separately by three registrants: CenterPoint Energy, Inc., CenterPoint Energy Houston Electric, LLC and CenterPoint Energy Resources Corp. Information contained herein relating to any individual registrant is filed by such registrant solely on its own behalf. Each registrant makes no representation as to information relating exclusively to the other registrants or the subsidiaries of CenterPoint Energy other than itself or its subsidiaries. Except as discussed in Note 13 to the consolidated financial statements, no registrant has an obligation in respect of any other registrant's debt securities, and holders of such debt securities should not consider the financial resources or results of operations of any registrant other than the obligor in making a decision with respect to such securities.

The discussion of CenterPoint Energy's consolidated financial information includes the financial results of Houston Electric and CERC, which, along with CenterPoint Energy, are collectively referred to as the Registrants. Where appropriate, information relating to a specific registrant has been segregated and labeled as such. Unless the context indicates otherwise, specific references to Houston Electric and CERC also pertain to CenterPoint Energy. In this Form 10-K, the terms "our," "we" and "us" are used as abbreviated references to CenterPoint Energy, Inc. together with its consolidated subsidiaries.

OUR BUSINESS

Overview

CenterPoint Energy is a public utility holding company. CenterPoint Energy's operating subsidiaries own and operate electric transmission, distribution and generation facilities and natural gas distribution facilities.

As of December 31, 2023, CenterPoint Energy's indirect, wholly-owned subsidiaries include:

- Houston Electric, which provides electric transmission service to transmission service customers in the ERCOT region and distribution service to REPs serving the Texas gulf coast area that includes the city of Houston. Bond Companies are wholly-owned, bankruptcy remote entities formed solely for the purpose of purchasing and owning transition or system restoration property through the issuance of Securitization Bonds.
- CERC Corp., which (i) directly owns and operates natural gas distribution systems in Louisiana, Minnesota, Mississippi and Texas, (ii) indirectly, through Indiana Gas and VEDO, owns and operates natural gas distribution systems in Indiana and Ohio, respectively, and (iii) owns and operates permanent pipeline connections through interconnects with various interstate and intrastate pipeline companies through CEIP.
- SIGECO, which provides energy delivery services to electric and natural gas customers located in and near Evansville in southwestern Indiana and owns and operates electric generation assets to serve its electric customers and optimizes those assets in the wholesale power market.

As of December 31, 2023, CenterPoint Energy's reportable segments were Electric, Natural Gas and Corporate and Other. Houston Electric and CERC each consist of one reportable segment. For a description of CenterPoint Energy's reportable segments, see Note 17. For a discussion of net income by segment, see "Management's Discussion and Analysis of Financial Condition and Results of Operations — Results of Operations by Reportable Segment" in Item 7 of Part II of this report.

Discontinued Operations. From time to time, we consider the acquisition or the disposition of assets or businesses. For a discussion of discontinued operations and divestitures, see Note 4 to the consolidated financial statements.

Subsequent Events. On February 19, 2024, CenterPoint Energy, through its subsidiary CERC Corp., entered into the LAMS Asset Purchase Agreement to sell its Louisiana and Mississippi natural gas local distribution company businesses. The transaction is expected to close in the first quarter of 2025. For further information, see Note 21 to the consolidated financial statements.

The Registrants' principal executive offices are located at 1111 Louisiana, Houston, Texas 77002 (telephone number: 713-207-1111).

We make available free of charge on our Internet website our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the

Securities Exchange Act of 1934, as amended, as soon as reasonably practicable after we electronically file such reports with, or furnish them to, the SEC. The SEC maintains an Internet website that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC at <http://www.sec.gov>. Additionally, we make available free of charge on our Internet website:

- our Code of Ethics for our Chief Executive Officer and Senior Financial Officers;
- our Ethics and Compliance Code;
- our Supplier Code of Conduct;
- our Corporate Governance Guidelines; and
- the charters of the audit, compensation, and governance, environmental and sustainability committees of our Board of Directors.

Any shareholder who so requests may obtain a printed copy of any of these documents from us. Changes in or waivers of our Code of Ethics for our Chief Executive Officer and Senior Financial Officers and waivers of our Ethics and Compliance Code for directors or executive officers will be posted on our Internet website within five business days of such change or waiver and maintained for at least 12 months or timely reported on Item 5.05 of Form 8-K.

Our website address is www.centerpointenergy.com. Investors should also note that we announce material financial information in SEC filings, press releases and public conference calls. Based on guidance from the SEC, we may use the investor relations section of our website to communicate with our investors. It is possible that the financial and other information posted there could be deemed to be material information. Except to the extent explicitly stated herein, documents and information on our website are not incorporated by reference herein.

Electric (CenterPoint Energy)

The Electric reportable segment is comprised of Houston Electric and Indiana Electric.

For information regarding the properties of the Electric reportable segment, please read "Properties — Electric (CenterPoint Energy and Houston Electric)" in Item 2 of this report, which information is incorporated herein by reference.

Houston Electric (CenterPoint Energy and Houston Electric)

Houston Electric is a transmission and distribution electric utility that operates wholly within the state of Texas. Houston Electric does not make direct retail or wholesale sales of electric energy or own or operate any power generation generating facilities other than TEEEF.

Electric Transmission

On behalf of REPs, Houston Electric delivers electricity from power plants to substations, from one substation to another and to retail electric customers taking power at or above 69 kV in locations throughout Houston Electric's certificated service territory. Houston Electric constructs and maintains transmission facilities and provides transmission services under tariffs approved by the PUCT.

Electric Distribution

Houston Electric's distribution network receives electricity from the transmission grid through power distribution substations and delivers electricity for REPs in its certificated service area by carrying lower-voltage power from the substation to the retail electric customer through distribution feeders. Houston Electric's operations include construction and maintenance of distribution facilities, metering services, outage response services and call center operations. Houston Electric provides distribution services under tariffs approved by the PUCT. PUCT rules and market protocols govern the commercial operations of distribution companies and other market participants. Rates for these services are established pursuant to rate proceedings conducted before municipalities that have original jurisdiction and the PUCT.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of
CenterPoint Energy, Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of CenterPoint Energy, Inc. and subsidiaries (the "Company") as of December 31, 2023 and 2022, the related statements of consolidated income, comprehensive income, changes in equity, and cash flows, for each of the three years in the period ended December 31, 2023, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2023, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2023, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 20, 2024, expressed an unqualified opinion on the Company's internal control over financial reporting.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current-period audit of the financial statements that was communicated or required to be communicated to the audit committee and that (1) relates to accounts or disclosures that are material to the financial statements and (2) involved especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Impact of Rate Regulation on the Financial Statements — Refer to Note 7 to the financial statements

Critical Audit Matter Description

The Company is subject to rate regulation by regulators and commissions in various jurisdictions (collectively, the "Commissions") that have jurisdiction with respect to the rates of electric and gas transmission and distribution companies in those jurisdictions. Management has determined its regulated operations meet the requirements under accounting principles generally accepted in the United States of America to prepare its financial statements applying the specialized rules to account for the effects of cost-based rate regulation. The impacts of accounting for the economics of rate regulation are pervasive to the financial statements and disclosures.

The Company's rates are subject to regulatory rate-setting processes by the Commissions. Rates are determined and approved in regulatory proceedings based on an analysis of the Company's costs to provide utility service and a return on, and recovery of, the Company's investment in the utility business. Regulatory decisions can have an impact on the recovery of costs, the rate of return earned on investment, and the timing and amount of assets to be recovered in rates. The Commissions' regulation of rates is premised on the full recovery of prudently incurred costs and a reasonable rate of return on invested capital. Decisions to be made by the Commissions in the future will impact the accounting for regulated operations, including decisions about the amount of allowable costs and return on invested capital included in rates and any refunds that may be required. While the Company has indicated it expects to recover costs from customers through regulated rates, there is a risk that the Commissions will not approve: (1) full recovery of the costs of providing utility service, or (2) full recovery of all amounts invested in the utility business and a reasonable return on that investment.

We identified rate regulation as a critical audit matter due to the significant judgments made by management to support its assertions about certain affected account balances and disclosures and the high degree of subjectivity involved in assessing the impact of regulatory actions on the financial statements. Management's judgments include assessing the likelihood of (1) recovery in future rates of incurred costs, (2) a disallowance of capital investments made by the Company and (3) refunds to customers. Given that certain of management's accounting judgments are based on assumptions about the outcome of decisions by the Commissions, auditing these judgments required specialized knowledge of accounting for rate regulation and the rate setting process.

How the Critical Audit Matter Was Addressed in the Audit

Our audit procedures related to the potential uncertainty of decisions by the Commissions included the following, among others:

- We evaluated the Company's disclosures related to the effects of rate regulation by testing certain recorded balances and evaluating regulatory developments.
- We read relevant regulatory orders issued by the Commissions, regulatory statutes, filings made by the Company and intervenors, and other external information. We evaluated relevant external information and compared it to certain recorded regulatory asset and liability balances for completeness.
- For certain regulatory matters, we inspected the Company's filings with the Commissions and the filings with the Commissions by intervenors to assess the likelihood of recovery in future rates or of a future reduction in rates based on precedents of the Commissions' treatment of similar costs under similar circumstances.

/s/ DELOITTE & TOUCHE LLP

Houston, Texas
February 20, 2024

We have served as the Company's auditor since 1932.

DOCKET NO. 34077

JOINT REPORT AND	§	PUBLIC UTILITY COMMISSION
APPLICATION OF ONCOR	§	
ELECTRIC DELIVERY COMPANY	§	OF TEXAS
AND TEXAS ENERGY FUTURE	§	
HOLDINGS LIMITED	§	
PARTNERSHIP PURSUANT TO	§	
PURA § 14.101	§	

ORDER ON REHEARING

This Order addresses the Joint Report and Application filed by Texas Energy Future Holdings Limited Partnership (TEF) and Oncor Electric Delivery Company pursuant to PURA¹ § 14.101 regarding the merger of TEF with Oncor's parent, TXU Corp. As described in the findings of fact and conclusions of law set forth below, the Commission approves TEF and Oncor's application as modified by the non-unanimous stipulation and agreement filed on October 24, 2007, as modified by an amendment to the stipulation filed on December 12, 2007.

AARP, Chapparral Steel Co., and Nucor Steel – Texas are the only parties opposed to the Stipulation. Testimony regarding opposition to the Stipulation was presented by AARP and Nucor – Steel at the Commission's hearing on this proceeding.

Initially, Alliance for Retail Markets (ARM) and Reliant Energy Retail Services, LLC (RERS) opposed only paragraph 35 of the stipulation, which provided for a one-time \$72 million credit to retail electric providers (REPs) to be refunded to residential customers. However, paragraph 35 was amended by the signatories to address issues raised by RERS and ARM, and by letters filed in this docket and through statements made on the record during the Commission's hearing on the merits, ARM and RERS withdrew their opposition to paragraph 35 of the stipulation. Although RERS and the members of ARM have agreed to pass through the REP credit and no longer oppose paragraph 35, RERS and ARM maintain that the Commission does not have the authority

000197
743

Commission in Oncor's rates. This commitment will approximately double the level of spending on DSM currently included in Oncor's rates. Oncor will not seek to recover in rates any of the \$200 million in incremental DSM expenditures. This commitment is supplemented by findings of fact 83 and 84.

50. Service and Safety Commitment. Oncor will support the inclusion of negotiated commitments with appropriate stakeholders regarding reliability, customer service and employee safety in any final order regarding the merger issued pursuant to PURA § 14.101. Those negotiated commitments are reflected in findings of fact 88, 89, and 90.
51. Rate Case Commitment. If, for any reason, the Commission has not initiated a general rate proceeding for Oncor or its predecessor prior to July 1, 2008, Oncor will not later than that date file a general rate case consistent with its currently effective settlement agreement with certain municipalities.
52. Continued Ownership Commitment. TEF will hold a majority of its ownership interest in Oncor, in the current regulatory system, for a period of more than five years after the closing date of the merger.
53. Holding Company Commitment. A new holding company, Oncor Electric Delivery Holdings, will be formed between TXU Corp. and Oncor.
54. Independent Board Commitment. Both Oncor Electric Delivery Holdings and Oncor will each have a board of directors comprised of at least nine persons. A majority of Oncor Electric Delivery Holdings' board members and Oncor's board members will qualify as "independent" in all material respects in accordance with the rules and regulations of the New York Stock Exchange (NYSE) (which are set forth in Section 303A of the NYSE Listed Company Manual and in Exhibit ONCOR/TEF 4 at FMG-2), from TXU Corp. and its subsidiaries (including TXU Energy Retail and Luminant), Texas Pacific Group (TPG), and Kohlberg Kravis Roberts & Co (KKR). Consistent with TEF's commitments, the directors of Oncor and Oncor Electric Delivery Holdings will also not include any members

from the boards of directors of TXU Energy Retail or Luminant. This commitment is supplemented by finding of fact 74.

55. Affiliate Asset Transfer Commitment. Neither Oncor Electric Delivery Holdings nor Oncor will transfer any material assets or facilities to any affiliates (other than Oncor Electric Delivery Holdings, Oncor, and their subsidiaries, which are hereinafter referred to as the “ring-fenced entities”), other than a transfer that is on an arm’s length basis consistent with the Commission’s affiliate standards applicable to Oncor, regardless of whether such affiliate standards would apply to the particular transaction.
56. Arm’s Length Relationship Commitment. Each of the ring-fenced entities will maintain an arm’s length relationship with the TXU Group consistent with the Commission’s affiliate standards applicable to Oncor. This provision is supplemented by finding of fact 85.
57. Separate Books and Records Commitment. Each of the ring-fenced entities will maintain accurate, appropriate, and detailed books, financial records and accounts, including checking and other bank accounts, and custodial and other securities safekeeping accounts that are separate and distinct from those of any other entity.
58. Oncor Board’s Right to Determine Dividends Commitment. The Oncor Board, comprised of a majority of independent directors, will have the sole right to determine dividends. This commitment is supplemented by findings of fact 65 and 76.
59. Capital Expenditures Within Oncor Service Territory Commitment. The \$3 billion minimum commitment for Oncor capital expenditures over the five years following the merger will be spent within the traditional Oncor system, and that amount does not include any transmission projects to be constructed by Oncor as a result of the Commission’s decision in its *Commission Staff’s Petition for Designation of Competitive Renewable Energy Zones*, Docket No. 33672 (pending). This commitment is modified by findings of fact 86 and 87.
