RE: Project No. 56233 - *Application of Great Kiskadee Storage, LLC for a Power Generation Company Registration*

RECOMMENDATION

On February 16, 2024, Great Kiskadee Storage, LLC (Great Kiskadee or the Company) filed an application to register as a new power generation (PGC) company pursuant to 16 Texas Administrative Code (TAC) § 25.109. The facility being registered is a 100 MW energy storage (BESS) facility.

After a review of Great Kiskadee's registration request, I have concluded that the applicant has satisfactorily completed the registration requirements under 16 TAC § 25.109(c) by providing contact information of the registrant and the registrant's primary and secondary emergency contacts; contact information of the current regulatory contact; information about each generating facility operated by the registrant; a description of the types of services provided by the registrant that relate to the generation of electricity; an oath or affirmation signed by a representative, official, officer or other authorized person was included with the application. Additionally, the registrant provided all the information required for PGC registration by 16 TAC § 25.109(d) by providing a signed affidavit: the name of the registrant's corporate parent, a list of the registrant's affiliates, the applicable control number and item number of the registrant's emergency operations plan, and a copy of its EWG filing with FERC.

Therefore, I recommend that, Great Kiskadee Storage, LLC's registration request be granted, and Commission records be revised to reflect the registration.
