RE: Project No. 56455 – Aegle Power, LLC’s Notice of Intent (NOI) to Apply for the In-ERCOT Texas Energy Fund Loan Program (NOI ID No. APP-00000162)

To Whom It May Concern:

Aegle Power, LLC (“Aegle”) submits this letter to notify the Public Utility Commission of Texas, pursuant to 16 Tex. Admin. Code § 25.510(d)(2), that Aegle has submitted a notice of intent via the secure online portal to apply for the in-ERCOT Texas Energy Fund loan program. The requested loan amount will finance the combined cycle generating facility known as the Aegle Power Generation Station located in Harlingen, Texas with an anticipated nameplate capacity of 1260 MW.

Aegle stands ready to commence construction immediately upon award of the TEF financing. The Aegle Power Energy Center is well situated to provide reliable and efficient dispatchable power to promote ERCOT’s ability to serve the forecasted growing demand for power in south Texas and along Texas’s Gulf Coast.

Aegle looks forward to submitting its complete application and working with the PUCT to expeditiously conclude the loan agreements to ensure prompt construction of the Project. Please do not hesitate to contact the undersigned if any additional information would be useful to the PUCT as you consider our application.

Sincerely,

Aegle Power, LLC
