RE: Project No. 56455 – NRG Greens Bayou 6 LLC’s Notice of Intent (NOI) to Apply for the In-ERCOT Texas Energy Fund Loan Program (NOI ID No. APP-00000018)

To Whom It May Concern:

Pursuant to 16 Tex. Admin. Code § 25.510(d)(2), NRG Energy, Inc. (“NRG”) submits this letter to notify the Public Utility Commission of Texas that its indirect, wholly-owned subsidiary NRG Greens Bayou 6 LLC has submitted a notice of intent via the secure online portal to apply for the in-ERCOT Texas Energy Fund loan program. The requested loan amount will finance the peaking generating facility of the same name and associated with ERCOT interconnection request 24INR0410 located in Houston, Texas with an anticipated nameplate capacity of 455 MW.

NRG appreciates the opportunity to add new dispatchable generation to the ERCOT market enabled by the Texas Energy Fund Loan Program. We note the Greens Bayou 6 project is shovel-ready as NRG has the necessary ERCOT interconnection studies, environmental permits and water rights to commence construction immediately. This plant will improve power grid reliability and provide an advantage for prospective businesses considering expansions or relocations in Texas.

NRG encourages the Commission to process the loan application, once filed, as soon as possible so NRG can proceed with construction for timely completion of this project.

Sincerely,

A handwritten signature in black ink that reads "Matthew J. Pistner". The signature is written in a cursive, flowing style.

Matthew J. Pistner
