5. If you do not have possession, custody, or control of an original requested document, please produce copies of the document, however made, in your possession, custody, or control. If any requested document is not in your possession, custody, or control, please explain why the document is not in your possession, custody, or control and provide the current location and custodian of the requested document or any copy, summary, or other form of the requested document thereof.
6. If there is any confusion about a question, please contact the undersigned counsel for clarification.

10. Please provide individual responses to questions as each response becomes available, rather than waiting to provide all of the responses to the questions at the same time.
11. These questions are continuing in nature. If there is a change in circumstances or facts or if you receive or generate additional information that changes your answer to a question between the time of your original response and the time of the hearing, then you should submit, under oath, a supplemental response to your earlier answer to the question.
12. If you consider any question to be unduly burdensome, or if the response would require the production of a voluminous amount of material, please contact the undersigned counsel, as soon as possible, to discuss the situation and try to resolve the issue. Furthermore, if you object to any question on the grounds that the question seeks confidential information, or on any other grounds, please contact the undersigned counsel, as soon as possible, to discuss the situation and try to resolve the issue.
13. If the response to any question is voluminous, please make available all of the voluminous material at a designated location in Austin. Please provide a detailed index for the voluminous material with your response to the question to enable efficient review of the material. The index should include information sufficient to locate each individual document by page, file, and box number, date of each document, title of each document, description of each document if no document title exists, name of the preparer of each document, and length of each document.
14. Claim of Privilege

If any document is withheld under any claim of privilege, please provide a list that identifies each document for which a privilege is being claimed, including the date, sender, recipient(s) of the privileged document, recipient(s) of copies of the privileged document, subject matter of the privileged document, and the basis upon which a privilege is being claimed by the Company.
