RATEPAYER Comment/Requests to Intervene

PUC Docket 56665

We are protesting the rate increase to be effective in July 2024. I am not a party to this case; my comments are not considered evidence in this case; and I have no further obligation to participate in the proceeding.

Most of the people that live in Cedar Creek lake are retired, almost retired or live paycheck to paycheck. The Henderson county area does not pay well enough for most of the people living here to pay their bills as it is. Everything is increasing except our wages – there's no way to keep up with inflation. Texas Water Utilities continues to increase our rates with no consideration of these issues. The water continues to taste poor and for us, we use a water filter that I hope helps filter out most of the impurities.

We will be retiring within the next year and can't afford for everything to continue to increase, especially without something to show for it.
