PROJECT NO. 56822

**INVESTIGATION OF EMERGENCY § PUBLIC UTILITY COMMISSION
PREPAREDNESS AND RESPONSE BY §
UTILITIES IN HOUSTON AND § OF TEXAS
SURROUNDING COMMUNITIES §**

**CHEROKEE COUNTY ELECTRIC COOPERATIVE, INC.'S RESPONSE TO
COMMISSION STAFF'S FIRST REQUEST FOR INFORMATION
TO TARGETED ELECTRIC CO-OPS
QUESTION NOS. STAFF 1-1 THROUGH 1-120**

TO: John Lajzer, Public Utility Commission of Texas, 1701 N. Congress Ave., Austin, Texas
78711

RESPONSES

Cherokee County Electric Cooperative, Inc., a Texas nonprofit electric cooperative company (“*CCFECA*” or “*the Cooperative*”)¹ files these responses to Commission Staff’s First Request for Information to Targeted Electric Co-ops, Question Nos. Staff 1-1 through 1-120 (“*Staff’s First RFIs to Co-ops*” or “*RFIs*”). Commission Staff directed that responses to Staff’s First RFIs to Co-ops be filed by August 30, 2024, thus these responses are timely filed. The Cooperative stipulates that its responses may be treated by Commission Staff or any person that may become a party in this matter as if they were filed under oath. The Cooperative reserves the right to object to the use of the information produced in any contested proceedings or at the time of any hearing as to the admissibility of the information produced.

BACKGROUND / CONTEXT

The Cooperative notes for the historical record that it is responding in good faith to the RFIs, even though it is the Cooperative’s understanding that the Cooperative is not the primary subject of the investigation in the docket. Furthermore, the Cooperative would respectfully request that Commission Staff recognize that policy makers and legislators in recent legislative hearings

¹ Note, as a member-owned, nonprofit electric cooperative, where its members are the customers and owners, the Cooperative will refer to its “members” in its responses to Staff’s RFIs regarding “customers” going forward in these responses.

have praised the response of electric cooperatives to the applicable weather events that prompted this investigation.

The Cooperative would also respectfully note that the original deadline for responding to these RFIs only provided eighteen (18) days for the Cooperative to prepare its responses.² Responding to this extensive set of RFIs under such a timeline, despite the positive feedback concerning the response of electric cooperatives to these weather events, has placed a significant burden on the Cooperative and its members when one considers the size of its staff and resources at its disposal. However, the Cooperative has still made a good faith effort in responding to these RFIs to assist Commission Staff with its investigation and to provide information that may aid the Commission in identifying best practices that will serve the public during future major outage events.

Dated: August 30, 2024

STAFF 1-1

Provide the following information concerning the last hurricane or major storm drill conducted in 2024:

- a. The date the drill was conducted;
- b. The category of hurricane drilled and any conditions (e.g., where the hurricane made landfall, date hurricane made landfall, status of infrastructure and vegetation management activities in affected area, aid received vs aid requested from mutual assistance programs, total number of customers in anticipated affected area) used in the drill;
- c. A description as to how the drill conducted in 2024 differed materially from the previous annual drill;
- d. The identity of all third-party vendors that assisted in either conducting or preparations for the 2024 hurricane drill;
- e. The identity of all other electric, water, sewer, or telecommunication utilities that were invited to participate in your 2024 hurricane drill and a description of their participation;
- f. The identity of all local government, trade associations, medical and eldercare facilities, community organizations, PGCs, and REPs that were invited to participate in your 2024 hurricane drill and a description of their participation;
- g. How performance during the 2024 hurricane drill was measured; and
- h. Any feed-back whether internally or externally from a third-party vendor or party invited to participate in the 2024 hurricane drill.

RESPONSE:

- a. CCECA has not yet conducted a hurricane or major storm drill in 2024. However, the Cooperative experienced actual storm events that was in many ways equivalent to a hurricane beginning April 28, 2024 through June 1, 2024 with repeated storm systems with high wind gusts, record rainfalls and flooding.
- b. The April 28, 2024 through June 1, 2024 events had wind gusts over 60 mph and there was damage across the Cooperative's entire system at various times.
- c. Each storm presents unique challenges, including those recent storms.
- d. Not applicable, but CCECA did utilize mutual aid as necessary in recent storms.
- e. N/A
- f. N/A
- g. N/A
- h. N/A

SPONSOR:

Bart Bauer

STAFF 1-2 Do you ever seek participation of your customers during a hurricane drill? If yes, please provide a description of their level of involvement.

RESPONSE:

CCECA does not seek participation from our members during hurricane drills but we do regularly listen to any member feedback.

SPONSOR:

Bart Bauer

STAFF 1-3 Are actual events and conditions experienced during a previous hurricane or storm used in the next year's hurricane or major storm drill? If yes:

- a. How long would an actual storm be used to set the conditions for future hurricane drills?
- b. What hurricanes and major storms were used to set the conditions for the 2024 hurricane drill?

RESPONSE:

- a. It would depend if the hurricane or major storm was more extensive than storms in the past but we regularly seek to learn and improve for the next event.
- b. CCECA has not hosted a hurricane drill this year as of today's date, but in many ways the 2024 Spring Storms response from April 28, 2024 through June 1, 2024 was actual basis for hurricane preparedness.

SPONSOR:

Bart Bauer

Project No. 56822 CCECA's Response to Staff's First Set of RFIs to Targeted Electric CO-OPs

STAFF 1-4 Please identify any electric, water, sewer, or telecommunication utilities that invited you to participate in their 2024 hurricane or major storm drill.

RESPONSE:

CCECA has not been contacted to participate in other utilities' hurricane or major storm drills in 2024.

SPONSOR:

Bart Bauer

Project No. 56822 CCECA's Response to Staff's First Set of RFIs to Targeted Electric CO-OPs

STAFF 1-5 Please identify all resources, internal or external, used for weather or storm tracking purposes before July 8, 2024.

RESPONSE:

CCECA uses local news stations and TDEM for storm tracking.

SPONSOR:

Bart Bauer

STAFF 1-6 How many days before projected landfall do you start tracking storms that could affect or disrupt operations within your service area?

RESPONSE:

We start tracking storms when we receive updates from TDEM, which often occurs seven to ten days ahead of a major storm.

SPONSOR:

Bart Bauer

STAFF 1-7 How many days before projected landfall did you start tracking the storm eventually named Hurricane Beryl?

RESPONSE:

CCECA tracked Hurricane Beryl from the time TDEM sent notifications to us, about ten days ahead of its landfall.

SPONSOR:

Bart Bauer

STAFF 1-8 Do you check the functionality or performance of your outage tracker as part of your regular storm preparation procedures?

RESPONSE:

Yes, CCECA consistently monitors and uses TDEM and local news stations.

SPONSOR:

Bart Bauer

STAFF 1-9 How far in advance of landfall did you initiate requests for mutual assistance?

RESPONSE:

CCECA did not request mutual assistance before, during, or after landfall.

SPONSOR:

Bart Bauer

STAFF 1-10 Provide information as to how restoration efforts are prioritized, and resources are allocated following a hurricane or major storm. For purposes of this question, please provide how these prioritizations and allocation guidelines were used in practice during your response to Hurricane Beryl.

RESPONSE:

CCECA starts restoring power by first establishing the substation or feeder with the most members that need power restored. The next step CCECA starts at the substation level if required, then works to the feeder level. After feeder-level devices are restored CCECA works three-phase line devices. Next crews will work single-phase lines and finally, they will work individual outages.

SPONSOR:

Bart Bauer

STAFF 1-11 Describe the procedures during an emergency for handling complaints and for communicating with the public; the media; customers; the commission; the Office of Public Utility Counsel (OPUC); local and state governmental entities, officials, and emergency operations centers, the reliability coordinator for your Company's power region; and critical load customers directly served by the entity.

RESPONSE:

Complaints are brought to upper management. They will determine what needs to be done or who needs to address the complaint. CCECA will make phone calls to the entity that made the complaint. CCECA also regularly uses social media to communicate to its members and the public.

SPONSOR:

Bart Bauer

STAFF 1-12 Does your company use an operating condition system? If yes, define each level of the operating condition system and actions taken at each level. Please include citations to the relevant section(s) of your EOP filed with the PUCT when answering this question.

RESPONSE:

CCECA does not use an operating condition system.

SPONSOR:

Bart Bauer

STAFF 1-13 Explain the system and tools used to manage all emergency response assignments. Your response should include management of mutual assistance and contract personnel and consider needed food and lodging facilities.

RESPONSE:

CCECA management staff meets and divides emergency response assignments among our staff. Each staff member will work to complete each assignment after the meeting. The Cooperative staff relies on its knowledge and experience in handling past events ranging from hurricanes, wildfires, tornadoes, extreme storms with high wind, flooding, ice storms and snowstorms.

SPONSOR:

Bart Bauer

STAFF 1-14 How far in advance of the May 2024 Derecho and Hurricane Beryl did you initiate emergency preparations? Describe the timeframes for the preparation work in anticipation of emergency operations plan activation. Please include citations to the relevant section(s) of your EOP filed with the PUCT when answering this question.

RESPONSE:

CCECA alerted staff and employees of the possibility of outages, including being consistent with the Cooperative's communications plans outlined in pages 5-14 of its EOP.

SPONSOR:

Bart Bauer

STAFF 1-15 Please provide a timeline of your Company's response to the May 2024 Derecho and Hurricane Beryl.

RESPONSE:

Hurricane Beryl started Monday July 8th and by the end of day on Tuesday July 9th all outages were restored.

May 2024 Derecho – CCECA had weekly storms in May and all outages were restored in 48 hours.

SPONSOR:

Bart Bauer

STAFF 1-16 Please detail the extent and duration of outages experienced by your customers during and in the aftermath of the May 2024 Derecho and Hurricane Beryl. Include the total number of customers affected; minimum, maximum, and average hours of service interruptions; and maximum and average time to service restoration in your response.

RESPONSE:

See Attachment A – 2024 Beryl OMS Report – Staff 1-16

See Attachment B – 2024 Derecho OMS Report – Staff 1-16
