The contact person for the media concerning the outage is _____
(Name)

and he/she can be reached at _____
(Phone Number)

OFFICIAL USE ONLY:

Received by: _____

Date/Time Received: _____

Information Distribution: _____

Sample News Media Communication

SUBJECT: News Media Communications

DATE:

PURPOSE: To establish proper procedures for communicating with representatives of the news media and designate personnel with media contact authority.

GENERAL: Periodically, situations arise that require the Cooperative to respond to inquiries and/or make statements of position to representatives of the news media. Such inquiries can follow unusual outages or other emergency situations, legislative actions on a local, state or national basis, rate or billing changes, and a variety of other matters that tend to invite attention from news and other media. Such inquiries can come from local television stations, newspapers in the service area and industry or farm related periodicals. This directive is intended to establish guidelines for properly initiating news or press releases and for properly responding to such inquiries when made to the Cooperative.

PROCEDURE:

NEWS OR PRESS RELEASES: The Communications Representative is authorized and directed to approve any such news releases. All personnel should be alert to inform the Communications Representative of any newsworthy information about an employee or director or an event in which the Cooperative is involved when such would enhance the member and public relations of the Cooperative or its image in the service area. The Communications Representative is responsible for recommending such information to the General Manager for release to the media. Releases should be made to media representatives in the service area or any applicable local area within the service area for which the information would be pertinent.

NEWS MEDIA INQUIRIES: The Communications Representative is authorized and directed to be the official spokesman for the Cooperative when inquiries are received by the news media or when it is necessary for the Cooperative to make a statement of position or explanation. The General Manager will determine when such statements should be made. In the absence of the Communications Representative and the General Manager, the Assistant General Manager, or designee filling this position, is authorized to respond to media inquiries concerning electric system operations and the Accounting Representative is authorized to respond to inquiries concerning rate or billing matters.

Sample Communications Policy

SUBJECT: General Communications With Members Of The Cooperative

DATE:

PURPOSE: To establish the proper procedure for providing various communications articles, documents, letters, etc. to the general membership of the Cooperative or a major portion thereof.

GENERAL: Communications to the membership of the Cooperative are vitally important and must be handled with extreme care. Inaccurate or confusing information or instructions to members almost always results in damaged member relations and the proper image that we want to leave with both the membership and the general public. This directive is intended to establish the proper procedures for ensuring good communications with members.

PROCEDURE:

PUBLICATIONS: The General Manager must approve the text of all communications in Texas Co-op Power, bill stuffers, general mailings, etc. that are mailed to all members of the Cooperative. The Member Services representative will approve same prior to approval by the General Manager.

SPECIAL LETTERS: Occasionally, it is necessary to send special communications to members following an outage, a billing problem, or to notify a class of consumers of a certain situation (such as special letters to irrigators or load management participants). These must be first approved by the appropriate department manager and then forwarded to the General Manager for final approval prior to mailing.

REGULAR NOTICES: All "form" type letters, notices and like communications to members must be approved by the appropriate department manager prior to forwarding to the General Manager for final approval. The same is required before any changes are made in existing documents. Such "form" type communications will be reviewed at least annually for content and accuracy.

RESPONSIBILITY: General Manager

Approved: _____ Date _____ Revised: _____

TEC Sample Notification Form

UTILITY |NAME: _____

CONTACT: _____

Name and telephone number of person to contact regarding report.

LOCATION: _____

Area affected by outage. Also enclose a location map
(see example with sample letter.)

OUTAGE TIME: _____

Indicate as closely as possible, the time the outage occurred.

IMPACT: _____

Indicate the type and number of customers impacted by the outage.

CAUSE: _____

Describe the cause of the outage, if known.

RESTORATION TIME: _____

Indicate, as closely as possible, the time power was restored.

COMMENTS:

Letters to Co-op Members Regarding Extended Outages due to Disasters**Sample #1**

Dear Member,

XYZ Cooperative has experienced severe ice damage to our electric facilities in your area. We have determined that we have over 1,000 poles that have been broken and numerous miles of line ripped down. Our original pole estimate was at 250, but we received field reports that additional poles and lines fell, bringing our broken pole total to over 1,000.

The purpose of this letter is to inform you that it may be over two weeks before we can have all meters back in service. This does not mean all meters will be off for two weeks. We have begun our repairs at the distribution substations and are working out from there. We will energize line as it is built and isolated from other damage.

XYZ Cooperative has brought in (# here) extra construction crews to work alongside our own crews. We have also hired heavy equipment operators to help move our trucks through the mud and debris as needed. Temperature variations and muddy or flooded roads are hampering work conditions, but all repair crews are doing their best.

This disaster has wrought by far the worst damage that your Cooperative has experienced in its history. For XYZ Cooperative, this damage is even worse than previous tornadoes or floods – the same disasters that many of you have also experienced. We understand that being without electricity is a hardship, but we hope you'll understand that your Co-op is working diligently to restore your power. For repair updates in your area, please call our Storm Damage Update Line at 555-5555.

Sample #2

Dear Member,

We are sending this letter to once again update you on the ice storm damage and the progress XYZ Cooperative has made. We are aware that there are several rumors circulating and we want to clarify our situation to you.

The damage is beyond what we could imagine. Even after we sent you the previous letter, the damage continued to grow. As of today, the Cooperative has lost approximately 2,300 poles. We are also reconstructing over 100 miles of line.

At this point, our outage total is approximately 1,250 services. This number is down from an estimated 2,000 earlier this week, so progress is being made in restoring electric service.

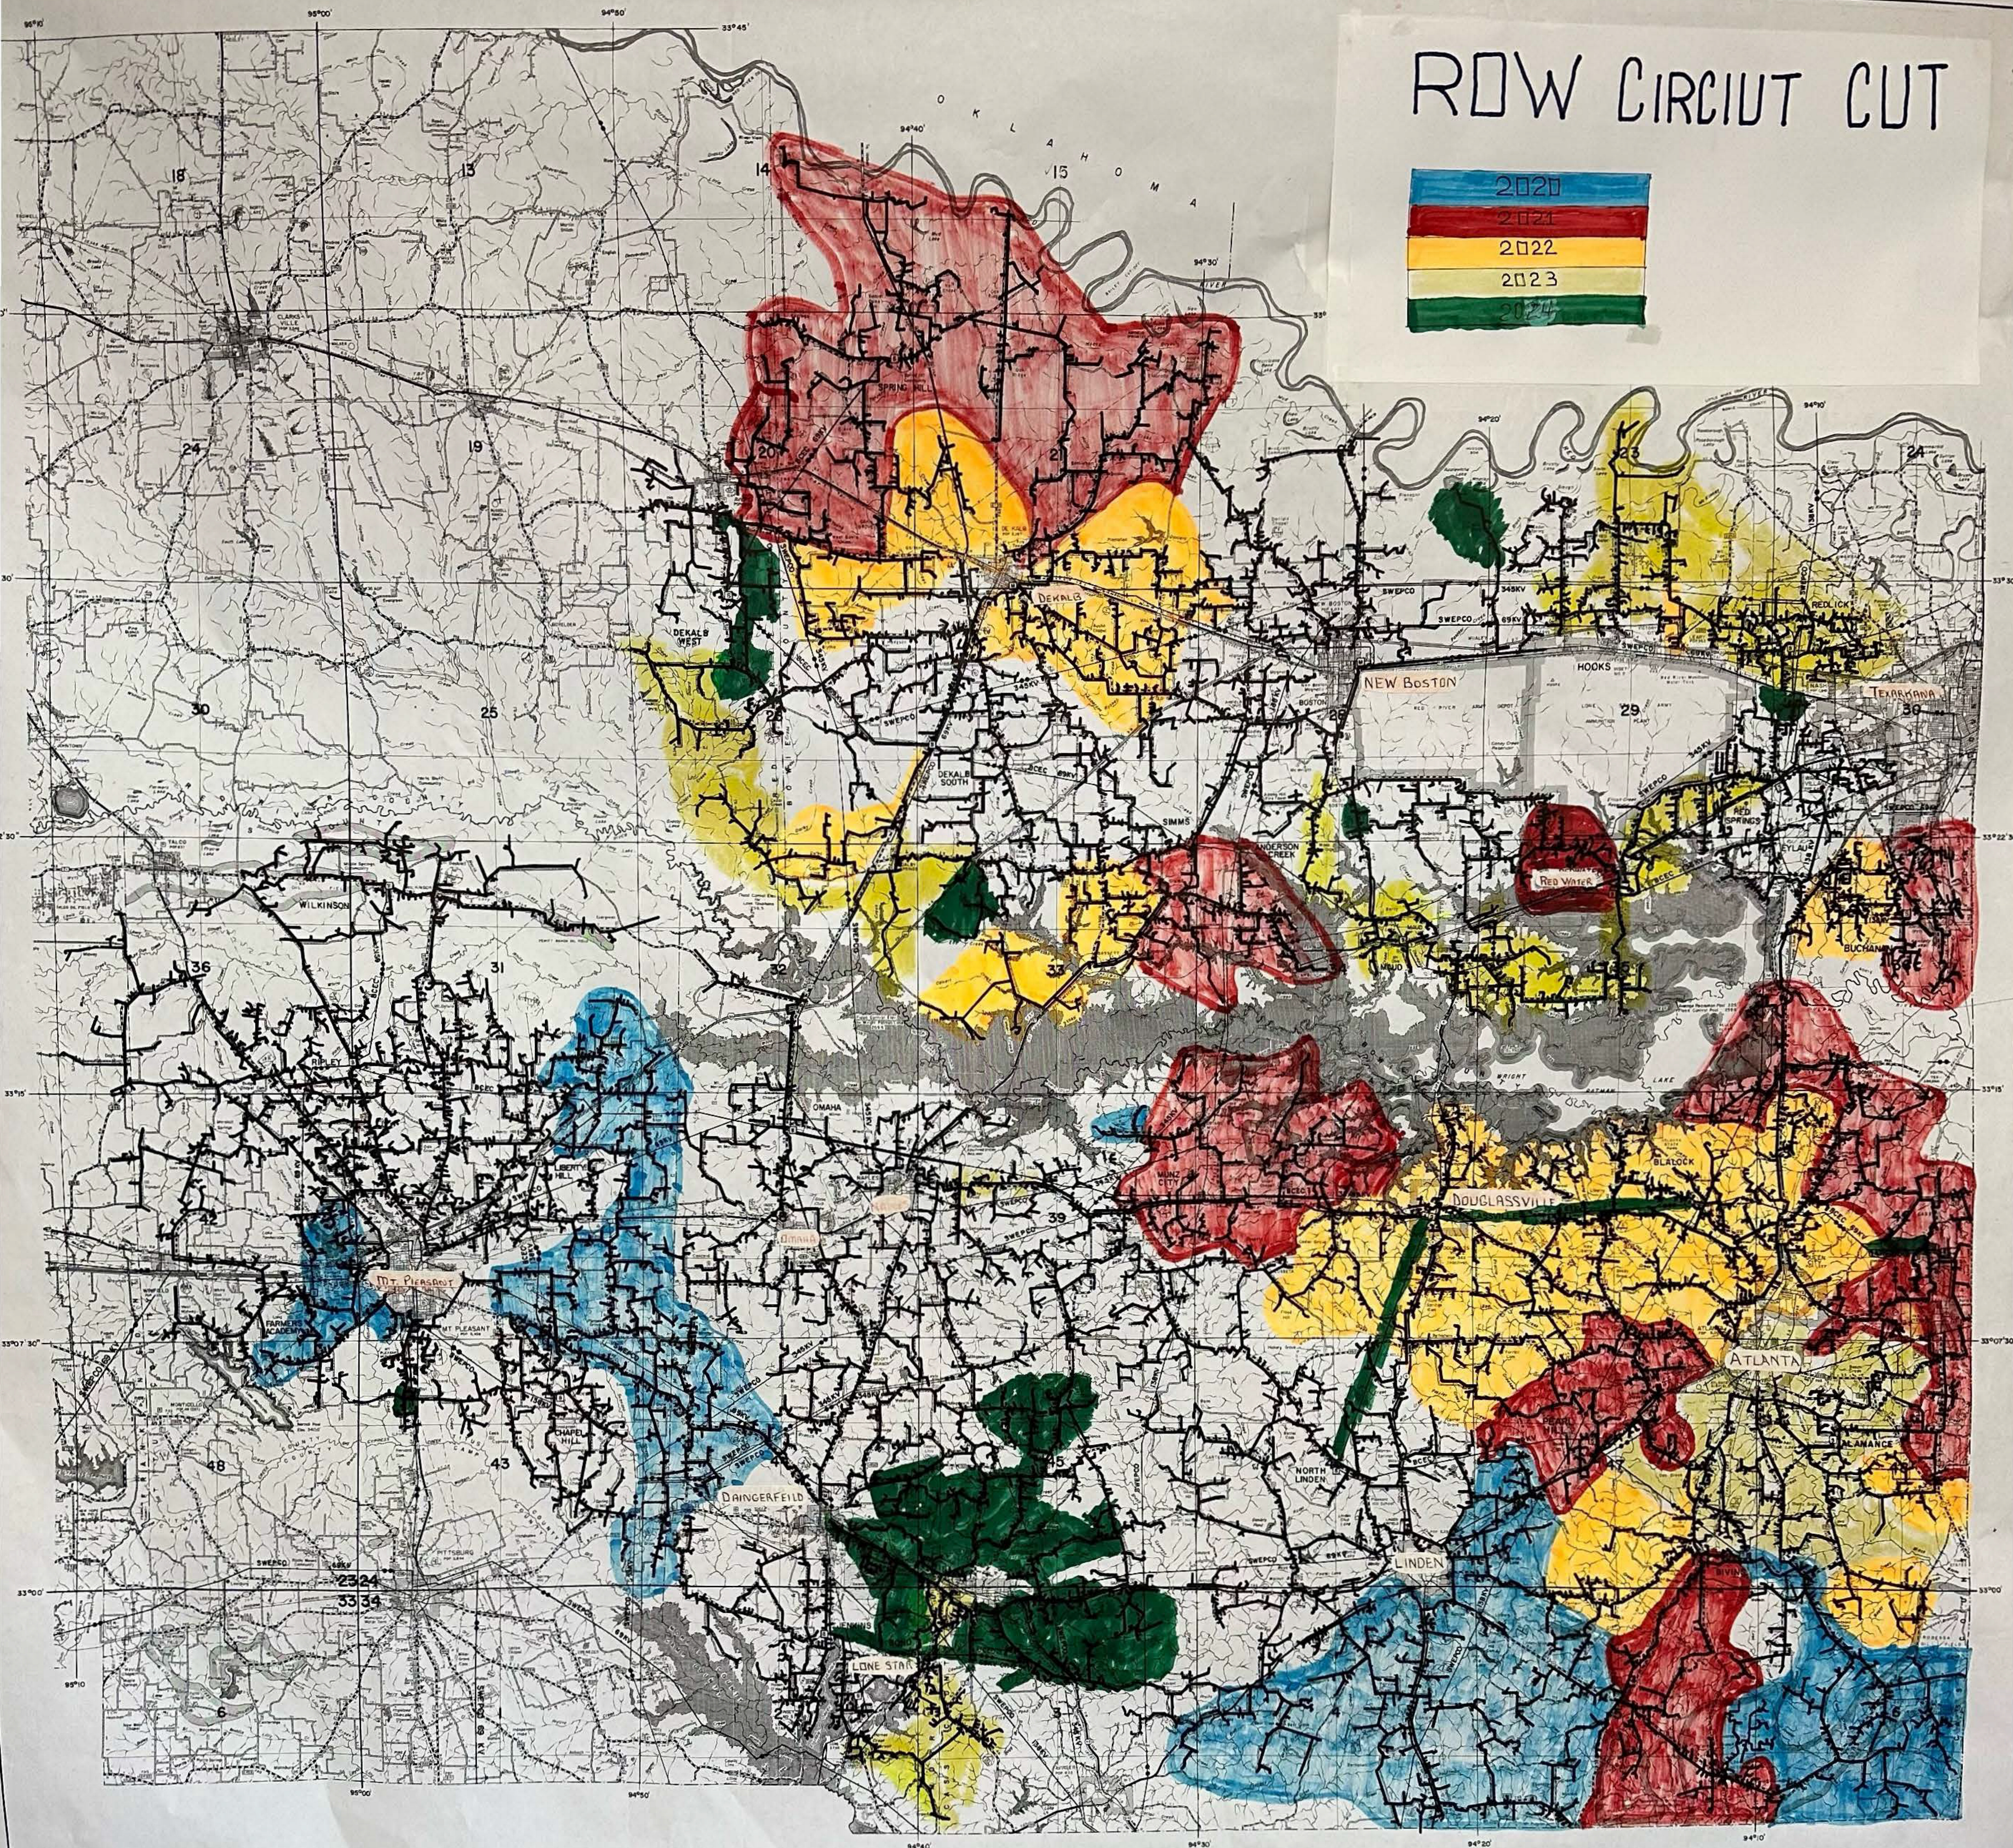

XYZ Co-op now has the aid of 19 additional power line contractors. Even with this number of workers, rebuilding the system takes time. It could be another two or two and a half weeks before all service in your area is operational. This does not mean all meters will be off for that long. We have begun repairs at the distribution substations and are working out from there. We will energize segments of line as it is safe to do so. Obtaining labor, equipment and materials has not been a problem for your Cooperative so far, although due to the statewide damage, shortages could become an issue later.

Again, thank you for your patience. It is our greatest desire to restore your power as safely and quickly as is possible. We hope you understand. For repair update in your area, call the Update Line at 555-5555.

MUTUAL AID AGREEMENT

In consideration of the mutual commitments given herein, each of the Signatories to this Mutual Aid Agreement agrees to render aid to any of the Signatories as follows:

1. Request for aid. The Requesting Signatory agrees to make its request in writing to the Aiding Signatory within a reasonable time after aid is needed and with reasonable specificity. The Requesting Signatory agrees to compensate the Aiding Signatory as specified in this Agreement and in other agreements that may be in effect between the Requesting and Aiding Signatories.
2. Discretionary rendering of aid. Rendering of aid is entirely at the discretion of the Aiding signatory. The agreement to render aid is expressly not contingent upon a declaration of a major disaster or emergency by the federal government or upon receiving federal funds.
3. Invoice to the Requesting Signatory. Within 90 days of the return to the home work station of all labor and equipment of the Aiding Signatory, the Aiding Signatory shall submit to the Requesting Signatory an invoice of all charges related to the aid provided pursuant to this Agreement. The invoice shall contain only charges related to the aid provided pursuant to this Agreement.
4. Charges to the Requesting Signatory. Charges to the Requesting Signatory from the Aiding Signatory shall be as follows:
 - a) Labor force. Charges for labor force shall be in accordance with the Aiding Signatory's standard practices.
 - b) Equipment. Charges for equipment, such as bucket trucks, digger derricks, and other special equipment used by the aiding Signatory, shall be at the reasonable and customary rates for such equipment in the Aiding Signatory's locations.
 - c) Transportation. The Aiding Signatory shall transport needed personnel and equipment by reasonable and customary means and shall charge reasonable and customary rates for such transportation.
 - d) Meals, lodging and other related expenses. Charges for meals, lodging and other expenses related to the provision of aid pursuant to this Agreement shall be the reasonable and actual costs incurred by the Aiding Signatory.
5. Counterparts. The Signatories may execute this Mutual Aid Agreement in one or more counterparts, with each counterpart being deemed an original Agreement, but with all counterparts being considered one Agreement.
6. Execution. Each party hereto has read, agreed to and executed this Mutual Aid Agreement on the date indicated.
