PROJECT NO. 56822

INVESTIGATION OF EMERGENCY § PUBLIC UTILITY COMMISSION  
PREPAREDNESS AND RESPONSE BY §  
UTILITIES IN HOUSTON AND § OF TEXAS  
SURROUNDING COMMUNITIES §

COMMISSION STAFF'S FIRST REQUEST FOR INFORMATION  
TO TARGETED ELECTRIC MOUS  
QUESTION NOS. STAFF 1-1 THROUGH 1-120

RESPONSE FROM CITY OF LIBERTY, TX 08-27-2024

Electric Utilities – Emergency Planning and Event Response

**Staff 1-1a,b,c,d,e,f,g,h.**

The City of Liberty does not conduct hurricane or major storm drills.

**Staff 1-2,3,4**

The City does not seek participation of customers or departments for any hurricane drills.

**Staff 1-5,6,7**

The Public Works Director utilized the NOAA website, Accuweather website, Texas Emergency Management System, and the local Emergency Management System to track Hurricane Beryl. Tracking typically begins approximately 5-7 days before landfall and is the case for Hurricane Beryl.

**Staff 1-8**

The City has no outage tracking system.

**Staff 1-9**

The City did not need to request any mutual assistance.

**Staff 1-10**

Restoration efforts are organized based on the following order of priorities:

1. Hospitals and eldercare facilities
2. Emergency Services (police & fire department)
3. Grocery stores, Pharmacies, and Service stations
4. Water and Sewer Treatment facilities
5. Banks and key businesses
6. Residences

Electric power service was confirmed for all Hospitals and Eldercare facilities first. Water and sewer facilities did not experience power outages. Restoration of most facilities followed as outlined above. Emergency Services, Water Treatment facilities and Sewer Treatment facilities have backup generators that were utilized during Hurricane Beryl.

**Staff 1-11**

Generally, all complaints are handled over the phone when someone calls in to City Hall, whether during an emergency or not. The City communicates with the public through a web site (and now Facebook) as well as by phone. The City communicates with the commission; the Office of Public Utility Counsel (OPUC); local and state governmental entities, officials, and emergency operations centers, the media and critical load customers through direct communication via phone, text or personal contact.

**Staff 1-12,13**

The City does not use any operating condition system.

**Staff 1-14**

Annually, in the month of May, the City Electric Utility Contractor, Texas Elite, reviews material inventory in preparation of storm repairs and ensures any necessary items are ordered prior to hurricane season. Tasks and Actions are referenced in the EOP Section IX and Exhibit D.

**Staff 1-15**

The City was not affected by the May 2024 Derecho event. On July 8, 2024 Hurricane Beryl made landfall. By 9:30 am damage was reported for the City's service area. The local Contractor, Texas Elite, was dispatched to assess the damage. Texas Elite crews began working Monday afternoon to identify damaged feeders. Transmission service from Entergy was out for 2.5 hours from Tuesday, July 9<sup>th</sup> at 10:30 am through 3:00 pm. By Monday at midnight, all main feeders were restored. Only single-phase taps and services were out for the following days from Tuesday to Thursday. By Thursday at noon, all services were restored with the exception of damaged meters or damaged homes that could not be restored with power.

**Staff 1-16**

After Hurricane Beryl, Liberty Feeders 2 and 4 were de-energized due to the lightning and wind. Beaumont Ave Feeders 3, 4, and 5 were out due to fallen trees and limbs. There were approximately 2,500 metered customers who were out of power. Repairs and replacement began Monday Evening, July 8<sup>th</sup>. On Tuesday, several taps still required repairs to the area North at Hillside Dr, Valley Dr, and Ridgewood St with approximately 250 customers out of power until Wednesday evening, July 10<sup>th</sup>. Taps serving Loblolly Ln and Linda Ln with approximately 30 customers were out of power until July 10<sup>th</sup>. There were 5 customers with damaged meter loops/services that required customer repairs prior to re-energization.

**Staff 1-17a.**

The City of Liberty was not affected by May 2024 Derecho.

**Staff 1-17b,c.**

Geographic areas are shown by the attached feeder maps. All neighborhoods are located in the City of Liberty, Texas, 77575, Liberty County. The factors that contributed to the damage to utilities were from trees and limbs. The entire City experienced a power outage due to loss of transmission service from Entergy for 2.5 hours on July 9<sup>th</sup> from 12:30 pm until 3:00 pm. The City has no control over transmission lines outside of the City of Liberty and has to rely on a third party for repairs to incoming transmission lines.

Valley Dr (Feeder Dwg 11) experienced the most damage with approximately 1 pole broken due to trees. Hillside Dr, Valley Dr, and Ridgewood St to the north experienced the longest outage time at a maximum 60 hours.

**Staff 1-18**

No major challenges were encountered in restoring operations.

**Staff 1-19,20**

No after-action reports are available.

**Electric Utilities Communication and Coordination**

**Staff 1-21a,b,c**

The City of Liberty coordinates its response with its Contractor, Texas Elite. The City generally will assess the impact or potential impact of a major storm and will consider increasing the staff assigned to emergency duties as needed and also contact TPPA for Mutual Assistance if necessary. The City ensures that there is a dispatch employee at the police department available after hours in a hurricane or major storm event. The electric utility Contractor communicates restoration activities and progress to City Hall. Officials and employees at City Hall coordinate with each utility for any labor and repairs that need to be done. The City manager and Public Works Director contact each utility department head to assess the needs of each department. No additional staff are assigned to the call centers or help desks. The help desk employees provide information on Facebook and the City website concerning updates for restoration. The City does not serve any retail electric providers.

**Staff 1-22**

Communication includes updates for Facebook, the City of Liberty website, and the local radio station. The City also communicates with its customers using Nixle Alert system.

**Staff 1-23,24,25**

The social media website was created to aid in communication and updates to all customers. The City of Liberty did not collect data regarding customer feedback that was received in response to our service restoration efforts during and in the aftermath of Hurricane Beryl. No additional steps are being taken at this time. The City of Liberty is a small community, and we already optimize coordination and communication with other local governments, medical and eldercare facilities and all other relevant organizations through direct communication between the individuals responsible for the individual entities. We further rely on the local Emergency Management Team to assist in such communication and coordination.

**Staff 1-26a,b,c,d,e,f**

City Hall employs 5 full-time employees with 3 additional full-time employees as needed after hours for its help desk. No additional employees, contract labor, or temporary workers were needed. The target wait time is as soon as possible and resolution time for communicating restoration a schedule is prioritized by the level of emergency. In-house supervisory training with additional online FEMA training is provided for help desk operators. The maximum call volume for Hurricane Beryl was approximately 250 calls.

**Staff 1-27**

The calls that came into City Hall were logged. However, a certain percentage of those calls went through dispatch. We can provide the following numbers for the City Hall portion of the call volume. In addition, we have call logs from the Contractor, Texas Elite. On July 8, 2024 City Hall and Texas Elite answered 85 calls for repairs, on July 9, 2024 City Hall and Texas Elite answered 30 calls, on July 10, 2024, City Hall and Texas Elite answered 8 calls, on July 11, 2024 City Hall and Texas Elite answered 43 calls. By the end of July 10<sup>th</sup> 99% of the customers had restored power.

**Staff 1-28**

Communication includes updates for Facebook, the City of Liberty website, and the local radio station. The City also communicates with its customers using Nixle Alert system.

**Staff 1-29,30**

City Hall logs incoming calls and has a retention time of 10 years. City Hall then creates work orders for restoration and contacts Texas Elite. The City Police Department receives calls after hours and contacts Texas Elite.

**Staff 1-31**

There were no pre-recorded messages related to either the May 2024 Derecho or Hurricane Beryl used by our help desk, nor were there any used by our dispatch.

**Staff 1-32a,b,c,d,e,f,g,h,i,j; 1-33; 1-34; 1-35; 1-36**

The City of Liberty does not utilize an outage tracker.

**Staff 1-37**

Smart meters are located in the City of Liberty and used for all customers. Reports show loss of power for 2,566 meters.

**Staff 1-38**

No other local governments were contacted.

**Staff 1-39**

The City Manager contacts departments such as fire and police, contractors and suppliers to prepare for response as outlined in the EOP Section IX.

**Staff 1-40,41,42**

Communications were sent out using Nixle Alert System to all customers 24 hours prior to the landfall of Hurricane Beryl and every 24 hours from July 8<sup>th</sup> through July 12<sup>th</sup>. All of the medical and eldercare facilities, as well as all critical infrastructure as defined by this question, were contacted by phone early on June 8, 2024, as soon as it became clear that Hurricane Beryl (downgraded by then to Tropical Storm Beryl) would actually pass nearby. The City communicates regularly with critical care customers by phone and/or in person, and the city ensures that at-risk customers are contacted either by phone or in-person regarding the emergency. The City is not an ERCOT-located utility.

## **Electric Utilities – Customer Restoration Workflow**

### **Staff 1-43,44**

A service restoration plan includes a priority list for outage restoration. See EOP Section XI. The feeder designations are listed in the order of priority according to the type of customers served as shown below. The priority restoration is summarized as the following:

1. Hospitals and eldercare facilities
2. Emergency Services (police & fire department)
3. Grocery stores, Pharmacies, and Service stations
4. Water and Sewer Treatment facilities
5. Banks and key businesses
6. Residences

### **Staff 1-45,46,47**

No changes have been made to the restoration plan. All of the City of Liberty is within Liberty County. 100% of our customers did not have service due to outages caused by Hurricane Beryl on July 9, 2024 for 2.5 hours. Approximately 35% of our customers did not have service on July 9th and throughout a part of July 10, 2024. By the end of July 10, 2024, over 95% of the City's customers had service restored.

### **Staff 1-48**

City Hall receives calls for outages. Work orders are created and communicated to Texas Elite. The Contractor assesses the damage and repair crews are contacted for work.

### **Staff 1-49**

Records of materials and labor are created to provide information to FEMA. No other coordination is required.

### **Staff 1-50,51,52,53**

No major challenges were experienced during restoration after Hurricane Beryl. No Incident Management System is utilized by the City.

## **Distribution Infrastructure**

### **Staff 1-54a,b,c**

Poles are inspected on a 4-year basis by sounding and prodding each pole. When a decision is made to replace a pole, the pole is tagged for replacement and a work order is created for the electric utility to begin work.

### **Staff 1-55**

The minimum right-of-way is 20' for distribution lines.

### **Staff 1-56a**

There are approximately 5,000 wood distribution poles, 50 steel distribution poles, and 15 fiberglass transmission poles, 50 wood transmission poles and 4 steel transmission poles installed in the system.

**Staff 1-56b,c,d,e,f,g**

There was 1 wood distribution pole damaged due to Hurricane Beryl. The primary cause of pole break failure was trees. There were also 14 broken crossarms due to trees and limbs. The NESC construction is built to Grade C.

**Staff 1-57a,b,c**

There are no distribution poles taller than 60'.

**Staff 1-58,59,60,61**

Distribution pole embedment is installed according to RUS standards of 10% pole length + 2'. These standards have not changed in the last 10 years. Standard pole sizes are as follows: Single phase – 40'CL4; Three phase – 45'CL2. Construction strength is NESC Grade C. NESC Grade B is used for major US Highway crossings and railroad crossings for increased strength and reliability.

**Staff 1-62a,b,c,d,e**

The impacted area that did not lose power was designed as NESC Grade C, wood poles located in 20' ROW widths. These lines were not designed to the latest NESC overload factors. Some falling limbs damaged lines and crossarms while the poles remained standing.

**Staff 1-63,64**

The City of Liberty was not affected by the May 2024 Derecho.

**Staff 1-65,66**

A total of 1 distribution pole was broken by trees during Hurricane Beryl. There are no reports available from the previous pole inspections.

**Staff 1-67**

The NESC provides national minimum standards that should be followed for equipment and lines in hurricane prone areas.

**Transmission Infrastructure**

**Staff 1-68,69,70,71,72**

The City of Liberty does not have a process for evaluating the hardening of transmission lines since it only owns and operates a small amount of transmission lines that interconnect its own substations on a radial feed. No transmission structures have been affected by hurricanes since installation in 1995. The designed wind loading is 140 mph for the transmission structures.

**Vegetation Management**

**Staff 1-73a,b,c,d,e**

For the past 5 years, the City has used Independent Contractors on an annual basis. The service area is divided into four quadrants, and one is designated to be trimmed each year. The City does not use in house vegetation management staff and does not have any data for cost difference. The City does not retain an arborist.

**Staff 1-74,75,76,77**

Clearance from vegetation is 20' for transmission lines and 10' for distribution lines. The ROW contractor works during the fall to provide clearance from vegetation for distribution and transmission lines. There are no inspection logs or field reports on hand for the past five years.

**Staff 1-78a,b,c,d,e**

The 13.8kV feeders that experienced outages during Hurricane Beryl are as follows:

1. Beaumont Sub Feeder 2 - 60 hours beginning July 8th
2. Beaumont Sub Feeder 3 - 60 hours beginning July 8th
3. Beaumont Sub Feeder 4 - 48 hours beginning July 8th
4. Beaumont Sub Feeder 5 - 48 hours beginning July 8<sup>th</sup>
5. Liberty Sub Feeder 2 - 12 hours beginning July 8<sup>th</sup>
6. Liberty Sub Feeder 3 - 12 hours beginning July 8<sup>th</sup>

The 138 kV Transmission was out for the 2.5-hour time period beginning July 9<sup>th</sup> from 12:30 pm until 3:00 pm which affected all distribution feeders. All outages were due to Fall-In or Blow-In trees.

**Staff 1-79**

Vegetation management records are not available.

**Staff 1-80, 81, 82,83**

The percentage of forced interruptions related to vegetation (trees) for Hurricane Beryl was 100%. Trees in the hardest hit area were affected by high winds during Hurricane Beryl and have been cleared. 100% of the trees that contributed to the outages were outside of the easement or ROW.

**Staff 1-84,85**

Property owners love their trees and refuse to work with the utility to clear any potentially hazardous trees.

**Staffing and Mutual Assistance****Staff 1-86,87,88,89,90**

The City of Liberty is a participant in the Mutual Aid membership of TPPA. The City did not require any mutual assistance for Hurricane Beryl. The City Electric Utility Warehouse gathered materials needed for repairs and provided them to the Texas Elite repair crews.

**Staff 1-91a,b,c,d,92,93,94,95,96,97**

The City of Liberty did not receive mutual assistance.

**Mobile Generation****Staff 1-98 through 1-120**

The City of Liberty did not operate, utilize, or loan any mobile generation during or following Hurricane Beryl.

COMMISSION STAFF'S FIRST REQUEST FOR INFORMATION  
TO TARGETED ELECTRIC MOUS  
QUESTION NOS. STAFF 1-1 THROUGH 1-120

RESPONSE FROM CITY OF LIBERTY, TX 08-30-2024

TO: John Lajzer, Public Utility Commission of Texas, 1701 N. Congress Ave., Austin,  
Texas  
78711

City of Liberty files these responses to Commission Staff's First Request for Information to Targeted Electric MOUS, Question Nos Staff 1-1 through 1-120 ("Staffs First RFIs to MOUs"). Commission Staff directed that those responses to Staff's First RFIs to MOUs be filed by August 30,2024, thus these responses are timely filed. The City of Liberty stipulates that its responses may be treated by all parties as if they were filed under oath.

Dated: August 30,2024,

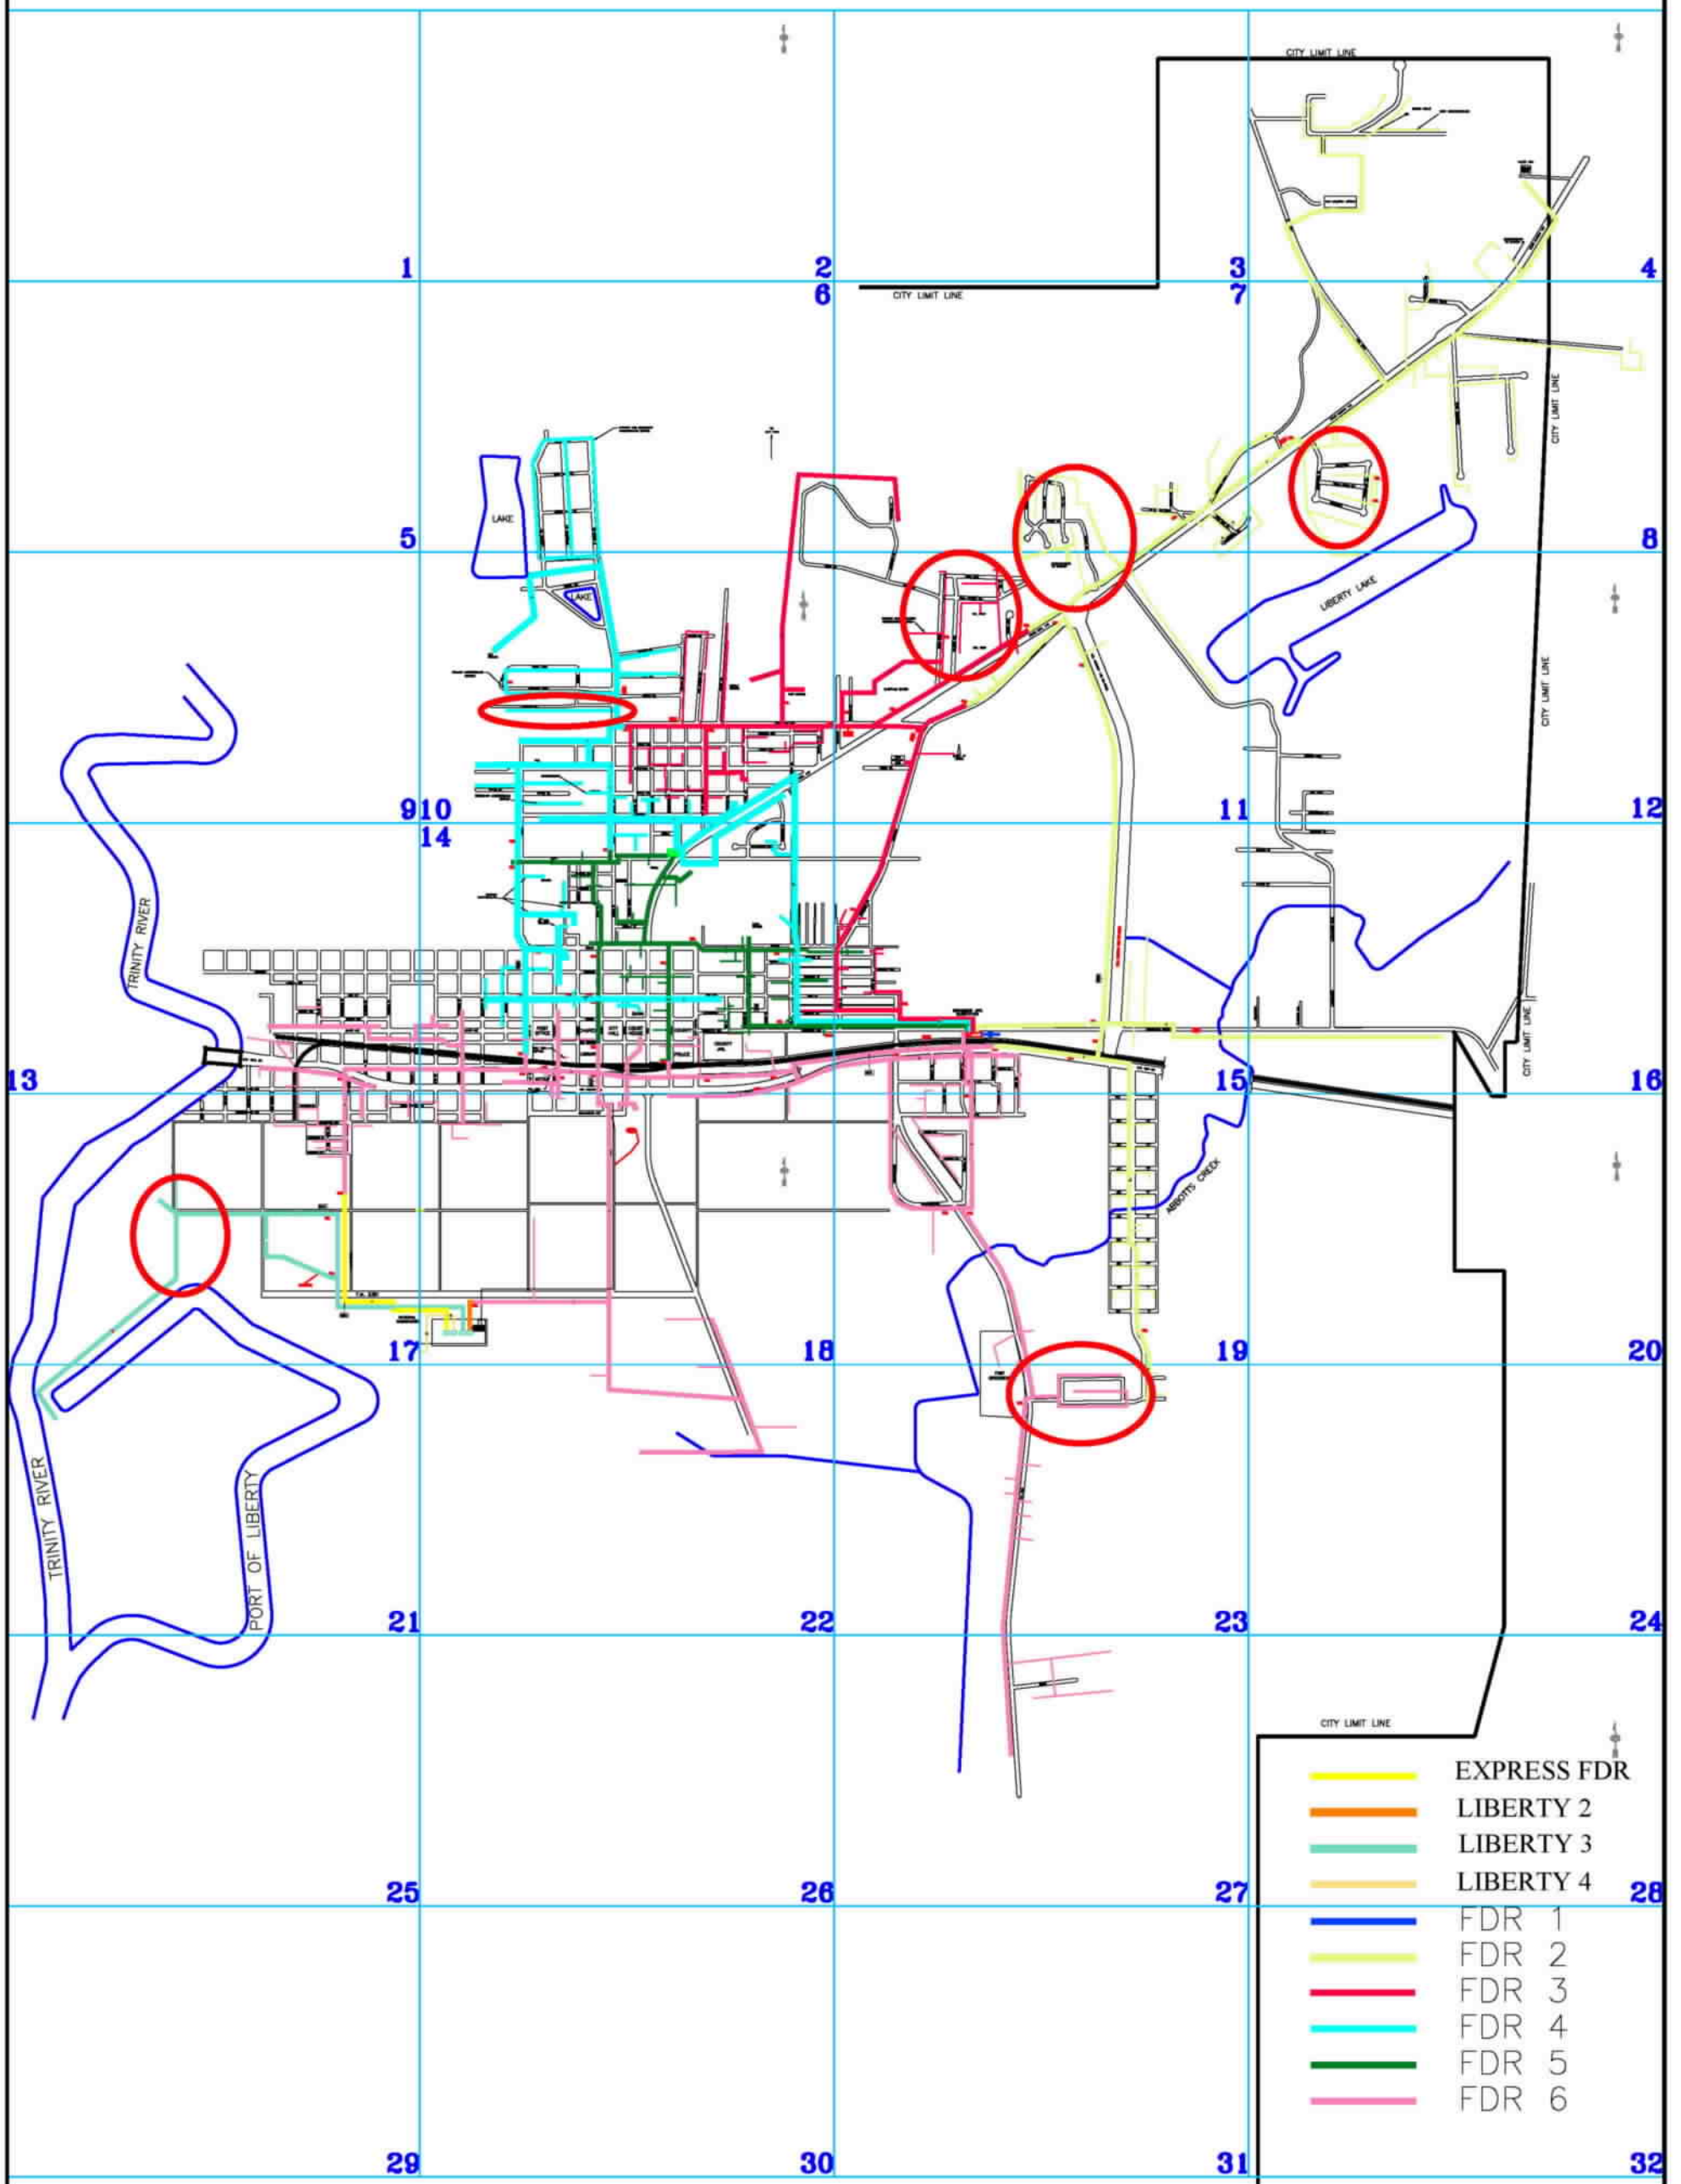

Respectfully Submitted,

Tom Warner, City Manager  
City of Liberty, TX  
1829 Sam Houston St  
Liberty, TX 77575  
Phone #: (936) 336-3684  
Fax#: (936) 336-9846
