Re: REQUEST BY GIDEON WATER LLC FOR TARIFF REVISIONS
TARIFF CONTROL NO. 56864

Dear Public Utility Commission of Texas:

In response to Order No. 2, dated August 27, 2024, requiring response by September 9, 2024 please accept the following:

Gideon Water LLC (Gideon) does not think that notice, in this matter, is necessary as no increase in currently charged rates will occur. When the CCN was originally approved on July 31, 2023, it was assumed by Gideon that the tariff included in that approval was the one that was part of the approved consent form agreed to in December 2022 (which did not include 10,000 gallons in the base rate). Gideon began charging customers based on that assumption and has never included 10,000 gallons in the base rate. It was not until sometime later that it was discovered that the tariff included in the final approval was erroneous. Subsequent conversations with staff regarding the error revealed that Staff thought the tariff could be corrected administratively, so Gideon continued to charge as it always had. The process to correct the tariff has gone through several iterations back and forth with Staff, the ALJ, the Commissioners and Gideon, and Gideon has continued to charge as it always has. Therefore, since no change in charges is anticipated, Gideon believes no notice is required.

Please feel free to contact me should you have any questions.

Sincerely,
WATERENGINEERS, INC.
