## Request to Intervene in PUC Docket No. 57115

The following information must be submitted by the person requesting to intervene in this proceeding. This completed form will be provided to all parties in this docket. **If you DO NOT want to be an intervenor, but still want to file comments, please complete the "Comments" page.**

Mail this completed form and 10 copies to:

Public Utility Commission of Texas  
Central Records  
Attn: Filing Clerk  
1701 N. Congress Ave.  
P.O. Box 13326  
Austin, TX 78711-3326

First Name: mitch Last Name: meyer

Phone Number: 210 867-4652 mbl Fax Number: \_\_\_\_\_

Address, City, State: 9 Penny Lane, San Antonio, TX 78209

Email Address: mmeyer2loop1td.com

I am requesting to intervene in this proceeding. As an INTERVENOR, I understand the following:

- I am a party to the case;
- I am required to respond to all discovery requests from other parties in the case;
- If I file testimony, I may be cross-examined in the hearing;
- If I file any documents in the case, I will have to provide a copy of that document to every other party in the case; and
- I acknowledge that I am bound by the Procedural Rules of the Public Utility Commission of Texas (PUC) and the State Office of Administrative Hearings (SOAH).

Please check one of the following:

☒ I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.

☒ One or more of the utility's proposed routes would cross my property.

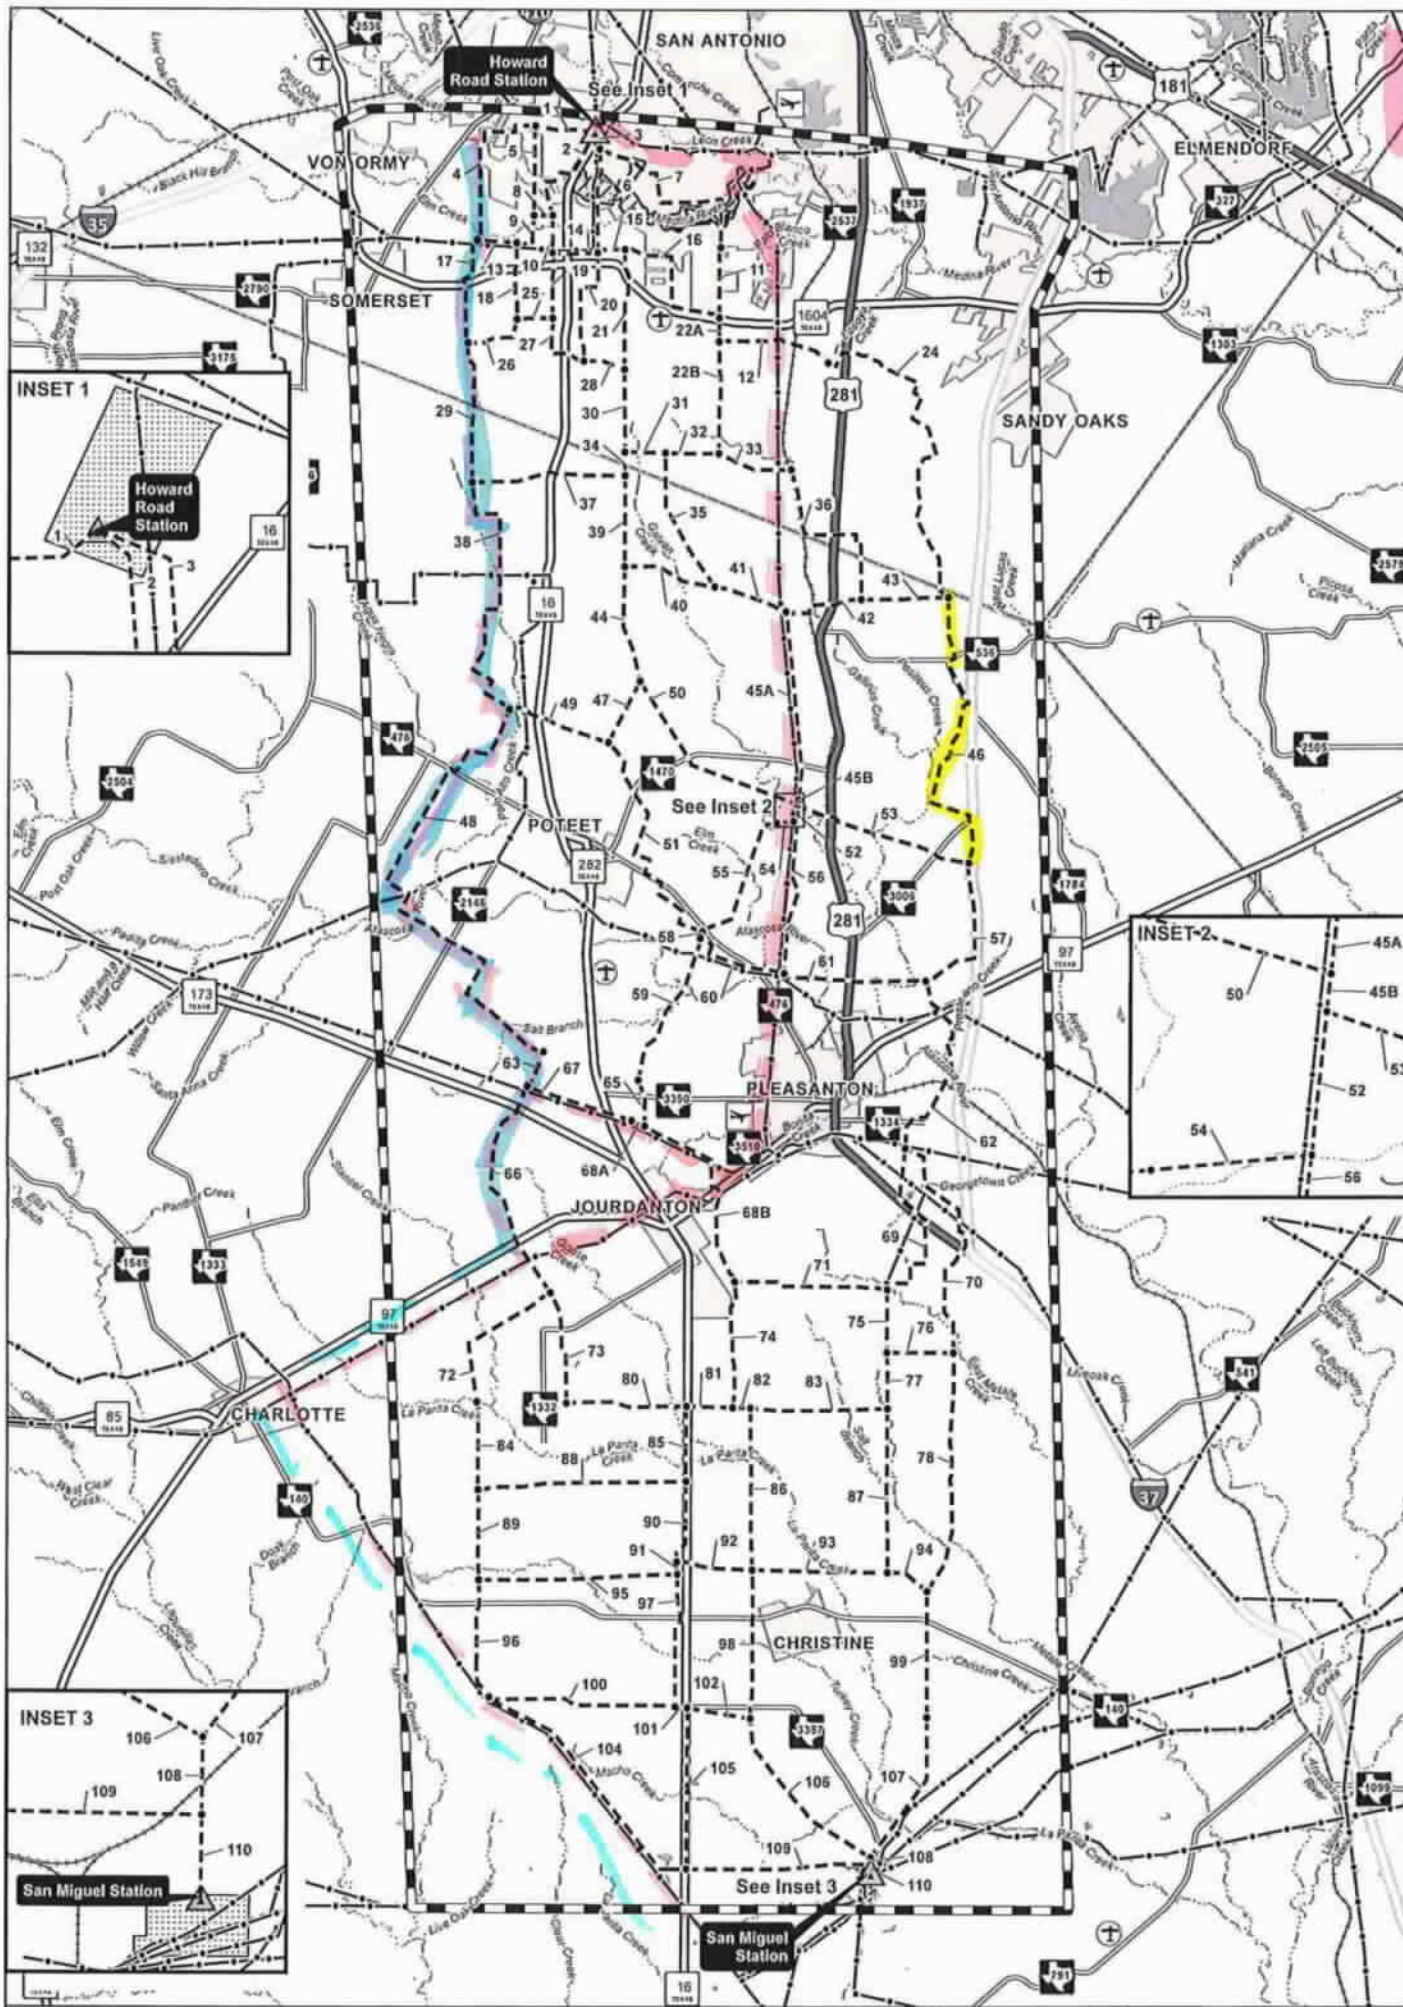

☒ Other. Please describe and provide comments. You may attach a separate page, if necessary.

\_\_\_\_\_ This property is a very sensitive and ecologically balanced wildlife refuge. We provide water and natural habitat for over eighty-two documented birds, some of which are rare. This proposed line would go right through that habitat and destroy it. This is not to mention the unsightliness of this power line which ruin the view from our house, making it worthless. This is before even considering the electro-magnetic harm of this line. Additionally, the proposed route through my property is not a direct connection and illogical. Not only are there better and direct routes, but these other routes already have existing easements that would make it much cheaper up front and more efficient for ongoing and future maintenance of these lines. Extinction is forever.

Signature of person requesting intervention:

Date: 10-14-2024

- my property  
 - most obvious, direct route that has existing easements  
 - alternate direct route w/ some existing easements
