RE: Project 57308 – Greenville Electric Utility System (GEUS) Texas Energy Fund Completion Bonus Grant program Application Submission Statement – APP-00000312

To Whom It May Concern:

Please accept this letter from GEUS, a separate and distinct instrumentality or agency of the City of Greenville, a municipally owned utility, to notify the Public Utility Commission of Texas that GEUS submitted a Texas Energy Fund (TEF) Completion Bonus Grant Program application for review by the Commission via the TEF Online Portal on Friday, February 7, 2025, under Application number APP-00000312.

The requested funding through the Texas Energy Fund Loan Program will assist with financing a dispatchable generating facility to be located in Greenville, Texas with a nameplate capacity of 105 MW.

GEUS is the first municipally owned electric utility (MOU) formed in Texas, and is a community owned electric utility that has proudly served Greenville with reliable power since 1891. Producing energy for more than 130 years provides a firm legacy of experience that we plan to continue. GEUS is honored to serve our community and adding this new generating facility to our portfolio will be another way we can contribute to reliability for our community, the ERCOT Grid and the great state of Texas.

We sincerely appreciate the opportunity to submit the application and are here to answer any questions.

Respectfully submitted,

Alicia Hooks
GEUS General Manager
