PROJECT NO. 57375

APPLICATION OF BLEVINS SOLAR,	§	PUBLIC UTILITY COMMISSION
LLC FOR A RENEWABLE ENERGY	§	
CREDIT GENERATOR	§	OF TEXAS
REGISTRATION	§	

**ORDER NO. 1
REQUIRING CLARIFICATION**

The administrative law judge seeks clarification from applicant Blevins Solar, LLC regarding its application filed on December 9, 2024.

The applicant appears to list two facilities in response to Item 1. In the addendum “List of Generating Units at Facility”, it appears to list those same entities as two units of the same facility. In response to Item 13, the applicant appears to respond by combining information from the two units.

Under 16 Texas Administrative Code § 25.173(d)(1), each application must pertain to a single facility. The facility name must be listed in Item 1. The facility can have multiple units. If so, Item 13 must be completed separately for each unit. Alternatively, the applicant can enter “See attached list” in the first three blanks of Item 13 and complete the addendum “List of Generating Units at Facility”.

If these are two separate facilities, Blevins Solar must move to either sever this application or to withdraw this application and file two separate applications.

If these are two units of the same facility, Blevins needs to amend the application to (i) list the facility name under Item 1, and (ii) provide responsive information for each unit separately in Item 13 or enter “See attached list” in the first three blanks of Item 13 and complete the addendum “List of Generating Units at Facility”.

An amended application or other response must be filed by December 30, 2024.

Signed at Austin, Texas the 16th day of December 2024.

PUBLIC UTILITY COMMISSION OF TEXAS

AARON HAAS
ADMINISTRATIVE LAW JUDGE
