PETITION OF CIVITAS	§	BEFORE THE PUBLIC UTILITY
CYPRESSWOOD OWNER I, LLC	§	
APPEALING THE DECISION OF	§	COMMISSION OF TEXAS
HARRIS COUNTY WATER CONTROL	§	
AND IMPROVEMENT DISTRICT	§	
NO. 99 TO CHANGE RATES	§	

**HARRIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 99'S
REPLY TO CIVITAS CYPRESSWOOD OWNER I, LLC AND COMMISSION STAFF'S
RESPONSES TO MOTION TO DISMISS**

COMES NOW, Harris County Water Control and Improvement District No. 99 (Harris County WCID No. 99, District, or Respondent) and files its Reply to Civitas Cypresswood Owner I, LLC (Civitas, Petitioner, or Applicant) and Commission Staff (Staff)'s Responses to the District's Motion to Dismiss. In support, the District respectfully shows as follows.

I. INTRODUCTION

On December 13, 2024, Civitas filed its Petition appealing a Harris County WCID No. 99 rate change decision (Rate Order) under Texas Water Code (TWC) § 13.043(b)(4) and 16 Texas Administrative Code (TAC) § 24.101(c)(4) (Petition or Appeal).¹ On January 16, 2025, as part of its response, the District filed a motion to dismiss the Appeal (Motion) based on: (1) timeliness; (2) standing; and (3) other jurisdictional concerns.² Civitas and Staff both filed responses.³ The

¹ Petition (Dec. 13, 2024).

² Harris County Water Control and Improvement District No. 99's Response to Original Petition of Civitas Cypresswood Owner I, LLC Pursuant to Texas Water Code § 13.043 for Review of Decision to Change Rates, Response to Petitioner's Request for Establishment of Interim Rates, and Motion to Dismiss for Lack of Jurisdiction (Jan. 16, 2025) (Motion).

³ Civitas Cypresswood Owner, I, LLC's Response to Harris County Water Control and Improvement District No. 99's Motion to Dismiss (Feb. 5, 2025) (Civitas' Response); Commission Staff's Response to Harris County WCID No. 99's Motion to Dismiss (Feb. 5, 2025) (Staff's Response).

District has reviewed those responses, stands by its Motion, and this reply is timely filed.⁴ The Commission should dismiss the Appeal for lack of jurisdiction.⁵

II. REPLY ARGUMENTS IN SUPPORT OF DISMISSAL

Civitas and Staff both contend that the effective date of the subject rate change was September 17, 2024, which is incorrect because the effective date was August 20, 2024.⁶ Civitas and Staff's contentions regarding Civitas' standing are also misguided.⁷ Additionally, both Civitas and Staff inexplicably contend the Commission has authority to interpret Constitutional and Texas Tax Code issues and that is wrong.⁸ Dismissal would not violate Civitas' due process concerns.⁹ Finally, the presiding ALJ's administrative completeness determination does not render the District's asserted issues related to standing and jurisdiction moot.¹⁰ For all these reasons, the Commission should dismiss the Petition and deny the Appeal.

A. Civitas' Petition was untimely filed.

Neither Civitas nor Staff dispute that the TWC and Commission rules provide that appeals under TWC § 13.043(b)(4) and 16 TAC § 24.101(c)(4) "must be initiated . . . within 90 days of after the effective date of the rate change."¹¹ All Staff and Civitas contentions that the effective date of the appealed rates was September 17, 2024, and not August 20, 2024, are wrong.

Both Civitas and Staff inappropriately focus on the date the minutes for the August 20, 2024 vote (Minutes) were passed and approved and the date the certificate of order document that included the new rates (Certificate of Order) became effective.¹² But, in fact, both the Minutes

and the Certificate of Order expressly indicate the new rates complained of became effective on August 20, 2024, the date the District's Board of Directors (Board) voted for them to become effective immediately following that vote.¹³ After stating, "The Board convened in a regular session, open to the public, on Tuesday, August 20, 2024," the Certificate of Order states,

Whereupon other business, the following was transacted at such Meeting: A written **ORDER AMENDING CONSOLIDATING ORDER REGARDING WATER AND SEWER CONNECTIONS, RATES, AND USE** was duly introduced for the consideration of the Board. It was then duly moved and seconded that such Order be adopted; and after full discussion, such motion, carrying with it the adoption of such Order prevailed, carried, and *became effective by the following vote . . .* (emphasis added).¹⁴

The Board directors present at the August 20, 2024 Board meeting voted unanimously to amend the District's rates on August 20, 2024, *not* September 17, 2024.¹⁵ But that Board decision also plainly specified that the new rate changes would become effective on the same date as the Board vote approving them.¹⁶ In fact, the Civitas bill, attached hereto,¹⁷ shows that the complained of "Tax-Exempt Serv[ice] Fee" rate was in effect for the billing period of "8/18/2024 to 9/18/2024," the first billing period after that fee took effect.¹⁸ That is also the period during which Civitas closed the transaction that made it subject to that fee.¹⁹

Further, unlike rate appeals from certain other types of retail public utilities which TWC § 13.043(c) and 16 TAC § 24.101(b) specify are to be filed within 90 days of a "final decision," which might be reflected in a final rate order with a date different from the effective date of the rates, appeals of district rates "must be initiated . . . within 90 days of after the effective date of the

rate change.”²⁰ As discussed previously, the subject rate change became effective by the Board’s vote, which occurred on August 20, 2024.²¹ Moreover, the TWC specifies that a “majority of the membership of the board constitutes a quorum for any meeting, and a concurrence of a majority of the entire membership of the board is sufficient for transacting any business of the district.”²² The District Board’s vote to approve the rate order effective the same date as the meeting was a District business action properly transacted as is the District’s general practice of considering matters voted on by the Board effective immediately, unless an alternate effective date is specified.²³

Notably, the TWC provides districts with broad ratemaking decision authority,²⁴ and the Commission does not have authority to change the effective date of a District’s rates. Conversely, the Commission has discretion whether to establish the same or a different effective date for rates the Commission may establish on appeal.²⁵ But Civitas and Staff are suggesting the Commission alter *the District’s effective date* for the complained of rates *now*. The Commission cannot do that. Neither Civitas nor Staff cite any authority to the contrary. Nor do Civitas or Staff offer sworn testimony to support their contention.²⁶ Rather, Civitas and Staff would have the Commission declare the effective date of the rate change as September 17, 2024, with no support.

Plainly, Civitas should have filed its Petition by November 18, 2024. Since the Petition was filed December 13, 2024, Civitas did not comply with the 90-day timeline.²⁷ Therefore, the District requests that the Commission dismiss the Petition for lack of jurisdiction.²⁸

²⁸ 16 TAC § 22.181(d)(1).

B. Civitas was not an “affected person” when the subject rates became effective.

Because Staff and Civitas contend the effective date of the rate change was September 17, 2024, they argue that Civitas was an “affected person” for purposes of its appeal because Civitas gained tax-exempt status as of September 6, 2024.²⁹ The District does not contend Civitas did not become an “affected person” on or after September 6, 2024. But the District maintains the effective date of the rate change was August 20, 2024, and Civitas was not an “affected person” before September 6, 2024. If Civitas had been an “affected person” on September 6, 2024, Civitas might have brought its issues about the new rates to the District Board’s attention at the District’s August 20, 2024 meeting where the complained of rates were approved and became effective. But even if it had taken such steps, Civitas was not affected by the rates at that time and lacked standing to oppose them.³⁰ Civitas entered its transaction on September 6, 2024, with the complained of rates already in place.

More importantly, Staff conflates the District’s knowledge of Civitas pursuing tax exemption status with Civitas being an “affected person.”³¹ Simply because the District knew Civitas may eventually achieve tax exempt status, does not mean that Civitas qualified as an “affected person” at the time the District created the rate class on August 20, 2024, when Civitas was not subject to the new rates. Plus, the District has broad discretion to establish varying rate classes and different charges among those classes, including based on lack of tax revenues from a customer class, under TWC § 49.2122.³² The state of the District’s knowledge on August 20, 2024

²⁹ Staff’s Response at 3.

³⁰ See *WGA Cardiff, LLC and Heritage Cardiff SPE, LLC’s Appeal of the Decision by Northwest Harris County Municipal Utility District No. 36 to Change Rates*, Docket 56636, Order (Oct. 3, 2024) (finding that a ratepayer who had not been moved to a new rate class was not yet “a ratepayer whose rates were changed”).

³¹ See Staff’s Response at 3.

³² TWC § 49.2122 (stating, “Notwithstanding any other law, a district may establish different charges, fees, rentals, or deposits among classes of customers that are based on any factor the district considers appropriate, including [listed reasons that include]. . . (4) the total revenues, including ad valorem tax revenues and connection fees, received by the district from a class of customers relative to the cost of service to the class of customers.; and providing, “A district

is not relevant to whether Civitas was an affected person at the time the District's rates were approved and became effective. Regardless, assuming that fact is relevant, the deadline to appeal after Civitas became an "affected person" was November 18, 2024, and Civitas missed that deadline.

C. The Commission does not have jurisdiction over tax issues.

Civitas' Response affirms it still would have the Commission weigh in on Civitas' bogus Texas Tax Code allegations for which the Commission has no jurisdiction.³³ Inexplicably, Staff appears to side with Civitas for reasons that do not align with Civitas' arguments.³⁴ This, combined with the District's broad authority to establish rate classes like it did, is additional grounds for dismissal.

The specific contention as expressed in Civitas' Response is, "The Amended Rate Order is an attempt by the District to circumvent the Legislature's exclusive authority under the Texas Constitution to exempt certain real property from ad valorem taxation and violates Texas Tax Code Chapter 23."³⁵ Civitas would have the Commission use this unfounded allegation to then also find the complained of District rates are not "just and reasonable" and are "unreasonably prejudicial or discriminatory, insufficient, and not equitable."³⁶ That the Commission cannot do, and the District has taken no action affecting Civitas' ad valorem tax status.

The Commission has authority under TWC § 13.043 to make assessments about whether a district established just and reasonable rates, but the Commission plainly cannot make the types of ancillary Constitutional and Texas Tax Code determinations asserted by Civitas to do it. The

is presumed to have weighed and considered appropriate factors and to have properly established charges, fees, rentals, and deposits absent a showing that the district acted arbitrarily and capriciously.").

³³ Civitas' Response at 2-3 and 8-10.

³⁴ Staff's Response at 4.

³⁵ Civitas' Response at 9.

³⁶ Civitas' Response at 9-10.

Commission's evaluation, if any, could focus on what went into the District's rate setting decision for the complained of rates effective August 20, 2024, using "only the information that was available to the [District] at the time the [District] made its decision. . .,"³⁷ giving due consideration to the standards applicable to District rate-setting set forth in TWC § 49.2122. But Civitas' Appeal arguments appear to have nothing to do with specific rate issues and, instead, focus on the perceived unfairness of Civitas being subject to a special tax-exempt customer class's rate as TWC § 49.2122 permits.³⁸

As Staff's Response highlights,³⁹ districts have broad authority to establish disparate classes "[n]otwithstanding any other law" and in doing so can consider "the total revenues, including ad valorem tax revenues and connection fees, received by the district from a class of customers relative to the cost of service to the class of customers" under TWC § 49.2122.⁴⁰ Further, "A district is presumed to have weighed and considered appropriate factors and to have properly established charges, fees, rentals, and deposits absent a showing that the district acted arbitrarily and capriciously."⁴¹ The Commission appellate rule provides, "To the extent of a conflict between this subsection and TWC § 49.2122, TWC § 49.2122 prevails."⁴²

In the case Staff cites as authority *for* the Commission's ability to consider the tax-exempt status of ratepayers when making rates, the Commission actually determined quite the opposite by deciding in its Preliminary Order that "Whether [the District] may consider ad valorem tax revenue as a factor in establishing different rates among customer classes in accordance with TWC § 49.2122" was not an issue to be determined because clearly districts may do just that under TWC

³⁷ TWC § 13.043(c); 16 TAC § 24.101(c)(5).

³⁸ Civitas' Response at 9-10; *see also* TWC § 49.2122.

³⁹ Staff's Response at 4 (citing TWC § 49.2122).

⁴⁰ TWC § 49.2122(a).

⁴¹ TWC § 49.2122(b).

⁴² 16 TAC § 24.101(i).

§ 49.2122(a) and, specifically (a)(4).⁴³ This was affirmed in a later order from that case discussing at length the relationship between TWC § 13.043(j) and TWC § 49.2122.⁴⁴ Thus, Civitas has shown the bases for its Appeal are outside the Commission's jurisdiction to consider. Neither Civitas nor Staff have cited authority to the contrary.⁴⁵ The District submits that Staff is wrong when it says the "Commission is not being asked to opine on [the District's] taxes," because Civitas' Petition plainly seeks such an opinion by alleging, "the Monthly Property Tax-Exempt Apartment Service Fee is just an ad valorem tax by another name assessed under the Amended Rate Order instead of the Texas Tax Code in a transparent attempt to circumvent the Legislature's exclusive Authority under the Texas Constitution to exempt certain real property from ad valorem taxation," and other contentions using the Texas Tax Code as authority.⁴⁶ The Appeal should be dismissed for lack of jurisdiction.

D. No due process deprivation occurred.

Civitas argues that the District would deprive Civitas of its due process right to challenge the amended rate.⁴⁷ That is simply not the case. The District provided proper public notice of its decision to discuss the proposed 2024 tax rate, and as an existing ratepayer, Civitas was sufficiently alerted that some action would be considered regarding 2024 tax rates and tax calculations even if

⁴³ Staff's Response at 4 (citing *Petition of Ariza Gosling Owner LLC Appealing the Water Rates Established by Northampton Municipal Utility District*, Docket No. 54966 (*Ariza*), Preliminary Order at 8 (Jan. 18, 2024)). That Preliminary Order states, in pertinent part, "Section 49.2122(a)(4) explicitly permits a municipal utility district to consider ad valorem tax revenues received by a customer class relative to the cost of service in establishing different rates among customer classes. Accordingly, whether the District could consider ad valorem tax revenue as a factor when establishing the tax-exempt multi-family residential customer class should not be addressed in this docket."); see also *Ariza*, Preliminary Order at 8.

⁴⁴ *Ariza*, SOAH Order No. 9 Ruling on Burden of Proof at 3-7 and 20-24 (Sept. 11, 2024)).

⁴⁵ Staff cites *Petition of Ariza Gosling Owner LLC Appealing the Water Rates Established by Northampton Municipal Utility District*, Docket No. 54966, Preliminary Order at 8 (Jan. 18, 2024), but that case is distinguishable in that: (1) it was resolved through a settlement; and (2) TWC § 49.2122 issues were referred to SOAH, but that was likely based on other issues related to the specific rate calculation in that case and not the fact that the district established a class for certain tax-exempt customers.

⁴⁶ Civitas' Petition at 5 and 7-8.

⁴⁷ Civitas' Response at 8-9.

it was not yet subject to the complained of rate adopted.⁴⁸ For whatever reason, Civitas did not participate in that District Board meeting even as a concerned member of the public.⁴⁹ Additionally, Civitas was in the process of becoming tax exempt and knew or should have known about the District's new rate class complained of here, but went through with its transaction that made it tax exempt anyway.⁵⁰ Finally, after Civitas found out about the District's new rate class, Civitas did not timely file its Appeal even though it could have.⁵¹ But the fact that Civitas' Petition asserts issues outside the Commission's jurisdiction in an untimely appeal does not mean Civitas was not afforded due process. The Commission should dismiss the Appeal.

E. Administrative completeness is not relevant to Dismissal.

Civitas argues that the presiding ALJ's administrative completeness determination renders issues of standing and jurisdiction moot. That is not so, and the jurisdictional issues asserted in the District's Motion may be raised at any time.⁵² In fact, a determination of administrative completeness just means the parts required for the Petition to appeal the District's rates under TWC § 13.043(b) and 16 TAC § 24.101 were submitted sufficiently to receive further substantive review by the Commission, but it is not a ruling that establishes the Petition was sufficient under all statutory and regulatory requirements.⁵³ For example, here, the ruling of administrative

⁴⁸ **Exhibit A** at Attachment 3, Harris County WCID No. 99 Notice of Public Meeting (Aug. 16, 2024); *see Lower Colorado River Auth. v. City of San Marcos*, 523 S.W.2d 641, 646 (Tex. 1975) (finding that notice complied with the Open Meetings Act because "it would alert a reader to the fact that some action would be considered with respect to charges for electric power sold in San Marcos.").

⁴⁹ *See Exhibit A.*

⁵⁰ *Id.*

⁵¹ *Id.*

⁵² *Sivley v. Sivley*, 972 S.W.2d 850, 855 (Tex. App.—Tyler 1998, no pet.) (finding that subject matter jurisdiction is a prerequisite for court action, that it cannot be waived, and that lack of subject matter jurisdiction may be raised at any time).

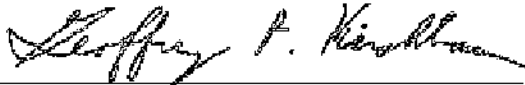

⁵³ *See Application of Aqua Texas, Inc. to Amend its System Improvement Charges Under 16 TAC § 24.76*, PUC Docket No. 55577, SOAH Docket No. 473-24-15740.WS, Order at 2-4 and Conclusions of Law Nos. 8 and 9 (Feb. 6, 2025) (discussing what an administrative completeness determination under 16 TAC § 24.8 means in terms of sufficiency of an application).

completeness was not determinative of whether facts in the Petition are true or whether the Appeal was properly brought to the Commission by Petitioner in the first instance.

III. CONCLUSION AND PRAYER

For the foregoing reasons, Harris County WCID No. 99 respectfully requests that the Commission dismiss the Petition and for lack of jurisdiction with prejudice. Harris County WCID No. 99 also requests the Commission grant any and all other relief to which Harris County WCID No. 99 is justly entitled.

Respectfully submitted,

DOCKET NO. 57439

PETITION OF CIVITAS	§	BEFORE THE PUBLIC UTILITY
CYPRESSWOOD OWNER I, LLC	§	
APPEALING THE DECISION OF	§	COMMISSION OF TEXAS
HARRIS COUNTY WATER CONTROL	§	
AND IMPROVEMENT DISTRICT	§	
NO. 99 TO CHANGE RATES	§	

AFFIDAVIT OF BILLY RAY FRITSCHKE

THE STATE OF TEXAS §
 §
COUNTY OF HARRIS §

BEFORE ME, the undersigned official on this day personally appeared Billy Ray Fritsche, who is personally known to me and first being duly sworn according to law, upon his oath deposed and said:

My name is Billy Ray Fritsche. I am over the age of 18 years and am of sound mind and fully competent to make this affidavit. I have personal knowledge of the facts stated herein, and they are true and correct.

I am the President of the Board of Directors of the Harris County Water Control and Improvement District No. 99 (“Harris County WCID” or “District”), Respondent in the above styled and numbered case, and I am authorized to make this affidavit on behalf of Harris County WCID.

On December 13, 2024, Civitas Cypresswood Owner I, LLC (“Civitas”) filed its petition to review Harris County WCID’s rate change (“Petition”) and request for interim rates with the Public Utility Commission of Texas (“Commission”). Civitas alleges the Commission has jurisdiction because its Petition was filed within 90 days of what Civitas alleges was the effective date—September 17, 2024—of Harris County WCID’s rates. But Civitas is mistaken.

In fact, the rates Civitas complains of in its Petition were effective August 20, 2024. **Attachment 1** includes minutes showing that on August 20, 2024, the Harris County WCID Board of Directors voted in favor of amending Harris County WCID's rate order by adding a new customer class for tax-exempt apartments and establishing rates for the new customer class. The rates became effective by the Board of Directors' vote that same date as shown in Harris County WCID's rate order, **Attachment 2**. Civitas did not appear at Harris County WCID's August 20, 2024, meeting to provide the Harris County WCID Board of Directors with oral comments, nor did Civitas submit any written comments on the District's new rate change decision to the District at any time before filing its Petition. The Harris County WCID Board of Directors' practice is that a matter voted on by the Board of Directors is effective immediately, unless an alternative effective date is specified. As can be seen in the August 20, 2024 minutes, **Attachment 1**, and the District's rate order, **Attachment 2**, an alternative effective date was not specified by the Board of Directors. The District provided proper public notice of its decision to discuss the proposed 2024 tax rate, and as an existing ratepayer, Civitas was sufficiently alerted that some action would be considered regarding 2024 tax rates and tax calculations even if it was not yet subject to the complained of rate the District adopted. *See Attachment 3*.

Additionally, Civitas's apartment complex became tax-exempt on September 6, 2024, as shown in **Attachment 4**, after Harris County WCID established the new class and rates, and **Attachment 5** is a Harris County WCID bill to Civitas that shows the complained of "Tax-Exempt Serv[ice] Fee" rate was in effect for the billing period of August 18, 2024 to September 18, 2024, the billing period for service when the fee took effect. Harris County WCID sent that bill to Civitas on or about September 27, 2024, which means Civitas received it shortly thereafter, but Civitas did not file its Petition until December 13, 2024. At the latest, Civitas knew or should have known that

the Harris County WCID rate change was in effect during the August 18, 2024 to September 18, 2024 billing period upon receipt of that September 27, 2024 bill. The Commission should deny Civitas's request for interim rates.

I am a custodian of records for Harris County WCID No. 99 and am familiar with the manner in which Harris County WCID No. 99's records are created and maintained by virtue of my duties and responsibilities. **Attachments 1, 2, 3, and 5** (described in the preceding paragraphs) are true and correct copies of Harris County WCID No. 99's records that were made at or near the time of each act, event, condition, or opinion set forth in the record, that were made by, or from information transmitted by, persons with knowledge of the matters set forth, and that were kept in the course of regularly conducted business activity. It was the regular practice of Harris County WCID No. 99's business activity to make such records.

Further Affiant sayeth not.

HARRIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 99

MINUTES OF MEETING OF BOARD OF DIRECTORS

AUGUST 20, 2024

The Board of Directors (the "Board" or "Directors") of Harris County Water Control and Improvement District No. 99 (the "District") met in regular session, at 6:30 p.m. at 19423 Lockridge Drive, Spring, Texas 77373, on Tuesday, August 20, 2024, pursuant to notice of said meeting posted in accordance with Chapter 551 of the Texas Government Code; whereupon the roll was called of the members of the Board, to-wit:

Billy Ray Fritsche	President
Thomas Riddle	Vice President
George Galindo	Secretary
Rick Ghinelli	Director
Terry Wright	Director

Attachment

1

All members of the Board were present, thus constituting a quorum. Also attending all or portions of the meeting were: Cathi Wilbanks of ETI Bookkeeping Services, bookkeeper for the District ("ETI"); Debbie Bessire of Equi-Tax, Inc. ("Tax Assessor/Collector"); Zachary A. Petrov, Attorney and Marisa Roberts, Paralegal of Johnson Petrov LLP ("Johnson Petrov" and/or "Attorney"); Mike Plunkett and Doug Jacobson of Eagle Water Management, Inc., operator for the District ("Operator" and/or "Eagle Water"); Sergio Van Dusen, Engineer and Tyler Reeves, EIT of Vogt Engineering, L.P., engineer for the District ("Engineer" and/or "Vogt"); Deputy D. Richardson, Lieutenants Lindley and Flores of the Harris County Constable's Office ("HCCO") and several residents (see sign-in sheet).

The President, after finding that notice of the meeting was posted as required by law and determining that a quorum of the Board was present, called the meeting to order and declared it open for such business as may regularly come before it.

1. Public Comment. Members of the public were given an opportunity to speak at this time.
2. Minutes. The Board reviewed the minutes of the regular meeting of July 16, 2024, a copy of which was previously distributed to the Board.

Upon motion by Director Galindo, seconded by Director Riddle, after full discussion and with all Directors present voting aye, the Board approved minutes of the regular meeting of July 16, 2024, as presented.

3. Constable's Report. Deputy Richardson reviewed the July Constable's Report with the Board. Deputy Richardson responded to questions from the Board.

Upon motion by Director Galindo, seconded by Director Ghinelli, after full discussion and with all Directors present voting aye, the Board approved the Constable's Report.

Next, Director Riddle presented and reviewed an Interlocal Agreement for Law Enforcement Services ("Interlocal Agreement") and a memorandum from the Security

Committee composed of Directors Riddle and Ghinelli (the "Committee"), copies of which are attached hereto as Exhibit "A". Director Riddle notes an increase of 6.6%. The Committee support and recommends the renewal of the Interlocal Agreement. He also recommends increasing the sewer rate for the apartments.

Upon motion by Director Ghinelli, seconded by Director Wright, after full discussion and with all Directors present voting aye, the Board approved the renewal of the Interlocal Agreement.

4. Review of District's Rate Order.

Discussion ensued regarding percentage of officer time spent at the apartment complex compared to the remainder of the District. Director Riddle presented information regarding the time spent responding to calls in the apartments.

Upon motion by Director Wright, seconded by Director Galindo, after full discussion and with all Directors present voting aye, the Board approved increasing the sewer rate by \$3.00 per unit for the apartments to cover pro-rata share of time spent responding to calls at the apartments.

5. Bookkeeper's Report/Investment Report/Energy Usage Report. Ms. Wilbanks presented to and reviewed with the Board the Bookkeeper's Report, Investment Report, and Energy Usage Report for the previous month, copies of which are attached hereto collectively as Exhibit "B."

Ms. Wilbanks reported that TexPool interest rate has increased and is paying 5.3173% interest and the net asset value is 1.00001%.

Upon motion by Director Galindo, seconded by Director Wright, after full discussion and with all Directors present voting aye, the Board: 1) approved the Bookkeeper's Report, with certain revisions, Investment Report, and Energy Usage Report; and 2) authorized the payment of checks numbered 13904 through 13928 from the Operating Account.

6. Tax Assessor-Collector Report. Ms. Bessire reviewed the Tax Assessor-Collector Report with the Board, a copy of which is attached hereto as Exhibits "C".

Ms. Bessire reported that 94.5% of the 2023 taxes have been collected as of July 31, 2024.

Upon motion by Director Galindo, seconded by Director Wright, after full discussion and with all Directors present voting aye, the Board approved the Tax Assessor-Collector Report, including payment of check nos. 2521 thru 2522.

7. Financial Advisor's Report. There was no report presented at this time as the certified values were not finalized to date.

8. Operation's Report. Mr. Plunkett presented the Operations Report, a copy of which is attached hereto as Exhibit "D."

Mr. Plunkett then reported the total monthly pumpage for the month of July was 6,125,000 gallons and the average daily flow at the sewer plant during the previous month was 188,000 GPD, which is 65% of current capacity. Mr. Plunkett also reported the pumped to billed ratio was 78.49% at the water plant. There were no excursions. Mr. Plunkett then stated that the

value on Booster Pump 1 needs to be isolated and therefore they will need to temporarily open up the Interconnect and flush the line.

Mr. Plunkett then reviewed the quotes received for the detention pond maintenance and recommended Storm Water Solutions, a copy of which is attached to the Operations Report.

Mr. Plunkett next presented the Monthly Light Fixture Review, a copy of which is attached to the Operator's Report.

Mr. Plunkett presented and reviewed the disconnection list of sixteen (16) accounts.

Upon motion by Director Ghinelli, seconded by Director Galindo, after full discussion and with all Directors present voting aye, the Board, after confirming with the Operator that notice had been delivered by the Operator to each person on the list notifying them that they could appear before the Board to discuss termination of services and that services could be terminated at any time after this meeting, and determining that no one appeared at the meeting for such purpose, the Board: (1) the termination list and authorized the Operator to terminate service as required by the Rate Order to all customers who remain unpaid; and (2) engage Storm Water Solutions for the detention pond maintenance; and (3) approved the Operations Report.

9. Engineer's Report. The Engineer's Report was presented and reviewed by Mr. Van Dusen, a copy of which is attached as Exhibit "E".

Mr. Van Dusen reviewed the Report with the Board and responded to questions.

Upon motion by Director Galindo, seconded by Director Wright, after full discussion and with all Directors present voting aye, the Board approved the Engineer's Report.

10. New Business.

a. Best Trash – Beryl Responses. Director Fritsche updated the Board regarding the issues with storm debris pick-up.

Mr. Jenkins, a resident of the District who resides on Lemm Rd. 2 reported that he has had issues with getting his garbage picked up. Director Fritsche stated he would contact Best Trash to help resolve the matter.

b. Recycling with Best Trash. Director Riddle spoke in favor of considering recycling, but stated that a majority of residents would also need to be in favor. No action was taken at this time.

c. Review District's Rate Order, amend if necessary. Mr. Petrov spoke to the Board regarding amending the District's rate order by adding a new customer class for property tax-exempt apartments and updating enforcement in the rate order.

Upon motion by Director Galindo, seconded by Director Wright, after full discussion and with all Directors present voting aye, the Board approved amending the District's rate order by adding a new customer class for property tax-exempt apartments and establishing a rate and updating enforcement in the rate order.

11. Old Business.

a. Shrubbery for Fence and repair of service driveway at Water Plant. Director Riddle reported fence staining has been completed. The status of the driveway was covered under the Engineer's Report.

b. Conversion of the District – Powers of a MUD. Discussion ensued regarding the possibility of converting the District to a MUD in order to enforce deed restrictions. No action was taken at this time.

c. Request from Apartments regarding PILOT Agreement.

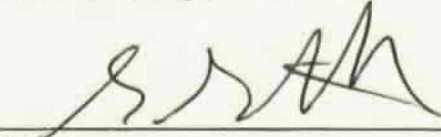

Mr. Petrov updated the Board regarding the Houston Housing Authority.

d. Dunn and Miller Properties. Mr. Petrov reported the Miller property closed and that he anticipates the final comments on the Easement for the Dunn property within the next thirty (30) days.

e. Audit Committee. No updates at this time.

THERE BEING NO FURTHER BUSINESS TO COME BEFORE THE BOARD,
the meeting was adjourned at 8:35 p.m.

PASSED AND APPROVED on the 17th day of September, 2024.

CERTIFICATE OF ORDER

THE STATE OF TEXAS

COUNTY OF HARRIS

HARRIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 99

§
§
§

We, the undersigned officers of the Board of Directors (the "Board") of **HARRIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 99** (the "District"), hereby certify as follows:

The Board convened in regular session, open to the public, on Tuesday, August 20, 2024, at 6:30 p.m. at 19423 Lockridge Drive, Spring, Texas, and the roll was called of the members of the Board, to-wit:

Billy Ray Fritsche	President
Thomas Riddle	Vice President/Treasurer/Investment Officer
George Galindo	Secretary/Operations/Maintenance Officer
Rick Ghinelli	Director
Terry Wright	Director

All members of the Board were present except, the following: R. Ghinelli, thus constituting a quorum. Whereupon other business, the following was transacted at such Meeting: A written

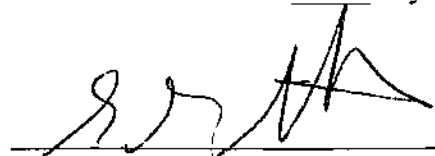

**ORDER AMENDING CONSOLIDATING ORDER
REGARDING WATER AND SEWER CONNECTIONS, RATES AND USE**

was duly introduced for the consideration of the Board. It was then duly moved and seconded that such Order be adopted; and after full discussion, such motion, carrying with it the adoption of such Order prevailed, carried, and became effective by the following vote:

AYES: 4 NOES: 0 ABSTAIN: 1

A true, full and correct copy of the aforesaid Order adopted at the Meeting described in the above and foregoing paragraph is attached to and follows this Certificate; such Order has been duly recorded in the Board's minutes of such Meeting; the above and foregoing paragraph is a true, full, and correct excerpt from the Board's minutes of such Meeting pertaining to the adoption of such Order; the persons named in the above and foregoing paragraph are the duly chosen, qualified, and acting officers and members of the Board as indicated therein; each of the officers and members of the Board are duly and sufficiently notified officially and personally, in advance, of the time, place, and purpose of such Meeting, and that such Order would be introduced and considered for adoption at such meeting, and each of the officers and members consented, in advance, to the holding of such Meeting for such purpose; and such Meeting was open to the public and public notice of the time, place, and purpose of such Meeting was given, all as required by Chapter 551 of the Texas Government Code, and Section 49.063 of the Texas Water Code, as amended.

SIGNED this 17th day of September, 2024.

Secretary, Board of Directors

STATE OF TEXAS	§
COUNTY OF HARRIS	§
HARRIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 99	§

WHEREAS, HARRIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 99 (the "District"), is a political subdivision of the State of Texas created pursuant to Article XVI, Section 59 of the Texas Constitution and operating pursuant to Chapters 49 and 51 of the Texas Water Code; and

WHEREAS, the District owns a water and sewer system designed to serve present and future inhabitants within the District; and

WHEREAS, the District has previously adopted a Consolidating Order Regarding Water and Sewer Connections, Rates and Use (the "Order"); and

WHEREAS, pursuant to the provisions of the Texas Water Code, the Texas Commission on Environmental Quality (the "TCEQ") has jurisdiction over and adopts rules regulating the water supply system of the District; and

WHEREAS, effective September 1, 1995, Senate Bill 626, passed by the 74th Texas Legislature, amended the Texas Water Code to limit district tap fees to three times the district's actual costs and increased the amount a district may charge for violations of its rate order and rules and regulations; and

WHEREAS, the TCEQ has adopted rules requiring districts to limit the use of lead in water supply lines; and

WHEREAS, the District has determined that certain amendments to its rate order are now necessary in order to comply with the new rules of the TCEQ; and

WHEREAS, effective January 1, 1996, the TCEQ has adopted certain amendments to its rules regulating public water supply systems, therefore on April 16, 1996, the District amended the Order by adding provisions for Customer Service Inspections and Certification, and by adding new sections relating to the use of backflow preventers, the prohibition of cross-connections, the installation of sewer sampling wells, and the compliance with state approved plumbing codes; and

WHEREAS, the District has amended the Rate Order on April 18, 2000, to include an imposition of fee for the North Harris County Regional Water Authority (the "NHCRWA"); and

WHEREAS, the District approved an amendment to the Rate Order on November 20, 2001, to create additional security deposits for in-district and out-of-district consumers, update customer service inspection language to comply with TAC 290.46(j), amend water emergency provisions, and further reinstating the NHCRWA fee language in other areas of the Rate Order.

WHEREAS, on September 16, 2003, the Board determined that an increase was necessary in the rates to accommodate the increase in the pumpage fees assessed by the NHCRWA as well as to add language to include meter upgrades;

WHEREAS, on the Board amended the Rate Order on October 19, 2004, to increase the District's water and sewer rates to become effective December 17, 2004; and

WHEREAS, on January 18, 2005, the Board determined that an increase was necessary in the rates to accommodate the increase in the pumpage fees assessed by the NHCRWA; and

WHEREAS, on August 19, 2008, the Board of Directors determined it was necessary to amend the enforcement of rules and regulations and increase the civil penalties for breach of any rule of the District and to amend the Policy on Issuance of Wastewater Utility Reservation Commitment by increasing the security deposits for in-district and out-of-district consumers; and

WHEREAS, on August 17, 2010, the Board of Directors determined it was necessary to amend the Rate Order to address requests for utility services for areas not currently served by utility lines owned by the District; and

WHEREAS, on September 18, 2012, the Board of Directors determined it was necessary to amend the Rate Order to include additional fees for delivering returned check fee notices to customers and for administering the pumpage fee assessed by the NHCRWA; and

WHEREAS, on January 15, 2013, the Board of Directors determined it was necessary to amend the Rate Order to increase deposits for commercial connections and add a rate class for assisted living facilities; and

WHEREAS, on April 15, 2014, the Board of Directors determined it was necessary to amend the Rate Order to address new lead content requirements in plumbing fixtures; and

WHEREAS, on April 17, 2018, the Board of Directors determined it was necessary to amend the Rate Order to increase the District's water and sewer rates and fees, which become effective immediately; and

WHEREAS, on December 18, 2018, the Board of Directors determined it was necessary to amend the Rate Order to increase the District's Monthly Rates for Sewerage Service from \$30.00 to \$48.50 to cover the costs for Trash Collection Services, which becomes effective January 1, 2019; and

WHEREAS, on February 19, 2019, the Board of Directors determined it was necessary to amend the Rate Order to increase the District's Monthly Rates for Sewerage Service from \$48.50 to \$60.50 to cover the costs for Law Enforcement Services, which becomes effective March 1, 2019; and

WHEREAS, on July 24, 2019, the Board of Directors determined it was necessary to amend the Rate Order to increase water and wastewater services rate for Out of-District's Customers, which becomes effective August 1, 2019; and

WHEREAS, on September 17, 2019, the Board of Directors determined it was necessary to amend the Rate Order to add law enforcement service charges to all in-district commercial, residential and tax-exempt accounts in the amount of \$12.00 per month per EFSC by increasing the sewer service charge, which becomes effective October 1, 2019; and

WHEREAS, on August 18, 2020, the Board of Directors determined it was necessary to amend the Rate Order to add service and tap fees and deposits for Apartment Connections; and

WHEREAS, on May 18, 2021, because the District sold bonds and expects to levy a tax and has recent or pending annexations of Spring ISD and DreamLabs properties, the Board of Directors determined it was necessary to amend the Rate Order to update the rates for out-of-district customers, Apartment Connections, and School Connections; and

WHEREAS, on June 15, 2021, the Board of Directors determined it was necessary to amend the Rate Order to update the rates for out-of-district customers, Park Connections; and

WHEREAS, on February 15, 2022, the Board of Directors determined it was necessary to amend the Rate Order regarding the fees for commercial and residential connections; and

WHEREAS, on October 18, 2022, the Board of Directors determined it was necessary to amend the enforcement of rules and regulations and increase the civil penalties for any violation of the District's Rate Order; and

WHEREAS, on August 15, 2023, the Board of Directors determined it was necessary to amend the Rate Order to increase the flat fee for Apartment Connections; and

WHEREAS, on October 17, 2023, the Board of Directors determined it was necessary to amend the Rate Order for Commercial/School Irrigation Connections larger than 2"; and

WHEREAS, on February 20, 2024, the Board of Directors determined it was necessary to amend the Rate Order to increase the flat fee for Apartment Connections to cover the detention pond maintenance costs and grease clean-outs related to the apartments; and

WHEREAS, on August 20, 2024, the Board of Directors determined it was necessary to amend the Rate Order by increasing the sewer rate by \$3.00 per unit for the apartments to cover pro-rata share of increase constable time spent responding to calls at the apartments and to add a new customer class of Property Tax-Exempt Apartment Connections;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF HARRIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 99:

ARTICLE I. DEFINITIONS OF TERMS

FOR PURPOSES OF THIS ORDER, THE FOLLOWING WORDS AND TERMS SHALL HAVE THE FOLLOWING MEANINGS:

A. DEFINITIONS OF TERMS CONCERNED WITH WATER AND SEWER RATES AND CHARGES

1. "Apartment Connections" shall mean all multiplex residential connections which are served by a master meter or individual meters, but shall not include assisted living facilities or Property Tax-Exempt Apartment Connections.

2. "Apartment Units" shall mean the individual dwelling units served through the Apartment Connection's or Property Tax-Exempt Apartment Connection's meter and shall include condominiums and all individual dwelling units served by a meter, whether the unit is occupied or not.

3. "Commercial Connection" shall mean and include any office, building, hotel, motel, retail store, industrial complex, or other establishments which are not Residential Connections, Apartment Connections or School Connections.

4. "Consumer" shall mean the occupant of a residential, commercial or industrial structure or other property within or outside the area of the District, whether the owner, renter or lessee thereof who is or receiving or proposes to receive water and/or sewer service from the District.

5. "Delinquent Bill and/or Security Deposit" shall mean a bill for water and/or sewer service which has not been paid within twenty (20) days after the date of the bill for the preceding month's service.

6. "Operator" shall mean the person, private corporation, municipal corporation or political subdivision with which the District has contracted for operation and maintenance of the plants and lines of the District's system.

7. "Park Connection" shall mean and include any public park not owned by the District which may be utilized by residents of the District.

8. "Property Tax-Exempt Apartment Connection" shall mean all multiplex residential connections, which are served by a master meter or individual meters, and are wholly or partially exempt from ad valorem property taxes or receive tax credits.

9. "Residential Connection" shall mean and include any single-family residence, townhouse or multiplex when such is separately metered.

10. "School Connections" shall mean connection to all facilities supporting an institution where people can gain an education, including a pre-school, elementary school, middle school, high school or university and supporting facilities owned by a school or school district, including but not limited to, transportation facilities, sports fields, stadiums, etc.

11. "Separate Connection" shall mean each residential unit occupied by a separate family or person, including separate apartments within a single building and each business unit occupied by a separate business, including separate establishments within a single building.

12. "Sewage Service Charge" shall mean the monthly charge made on all users of the public sewer system.

13. "Single Family Residential Equivalency" shall mean the equivalent number of Residential Connections for a Commercial Connection or a School Connection as determined by the District Engineer such that the Commercial Connection or School Connection. The term may be used interchangeably with and shall also have the same meaning as "Single Family Equivalent Connections."

14. "System" as used herein shall mean the water and/or sanitary sewer facilities of the District and all extensions and additions thereto, whether now in place or hereafter constructed.

15. "Transient Consumer" shall mean any consumer which is served by the District and service is not delivered to the Consumer through a connection for which a tap fee has not been paid as required by Section II.D.

16. "Water Service Charge" shall mean the monthly charge made on all users of the public water system.

B. DEFINITIONS OF TERMS CONCERNED WITH WATER AND SEWER RULES AND REGULATIONS

1. "District" shall mean the District's Board of Directors, the District's Engineer, or any person authorized by the District's Board of Directors to act for the District in carrying out the provisions of this Order, or their duly authorized deputies, agents or representatives.

2. "B.O.D." shall mean the quantity of oxygen expressed in parts per million by weight, utilized in the bio-chemical oxidation of organic matter under standard laboratory conditions for five (5) days at a temperature of 20 degrees Centigrade. The laboratory determinations shall be made in accordance with procedures set forth in "Standard Methods."

3. "Building Drain" shall mean that part of the lowest horizontal piping of a drainage system which receives the discharge from soil, waste, and other drainage pipes inside the walls of the building and conveys to the building sewer, beginning three (3') feet outside the inner face of the building wall.

4. "Commercial Water Tap" shall mean the connection of a 3/4" or larger Water Service Line to a District Water Line to serve one (1) or more structures other than a single-family residence.

5. "District" shall mean the captioned District or any authorized person acting in its behalf.

6. "Domestic Sewage" shall mean water-borne wastes normally discharging into the sanitary conveniences of dwellings (including apartment houses and hotels), office buildings, factories and institutions, free of storm surface water and industrial wastes.

7. "Garbage" shall mean solid wastes and residue from the preparation, cooking and dispensing of food, and from the handling, storage and sale of food products and produce.

8. "Industrial Waste" shall mean water-borne solids, liquids or gaseous wastes resulting from and discharged, permitted to flow or escaping from any industrial, manufacturing or food processing operation or process from the development of any natural resource, or any mixture of these with water or domestic sewage, as distinct from normal domestic sewage.

9. "Natural Outlet" shall mean any outlet into a watercourse, pond, ditch, lake or other body of surface or ground water.

10. "Normal Domestic Sewage" shall mean normal sewage for the District in which the average concentration of suspended materials and five (5) day B.O.D. is established at 300 parts per million each, by weight, on the basis of the normal contribution of seventeen-hundredths (0.17) pounds per 100 gallons, per capita.

11. "Parts-per-Million" shall mean a weight-to-weight ratio; the parts-per-million value multiplied by the factor 8.345 shall be equivalent to pounds per million gallons of water.
12. "Person," "Establishment," or "Owner," shall mean any and all persons, natural or artificial, including any individual, firm, company, industry, municipal, or private corporation, association, governmental agency, or their agents, servants or employees.
13. "pH" shall mean the logarithm (base 10) of the reciprocal of the hydrogen ion concentration expressed in mols per liter. It shall be determined by one of the procedures outlined in "Standard Methods."
14. "Properly Shredded Garbage" shall mean the wastes from the preparation, cooking and dispensing of food that have been shredded to such degree that particles shall be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half inch ($\frac{1}{2}$ ") in any dimension.
15. "Public Sewer" shall mean a sewer in which all owners of abutting properties shall have equal rights and interest and controlled by public authority.
16. "Residential Water Tap" is defined herein as the connection of either of the following to a District waterline:
 - a. A one inch (1") Water Service Line to serve two (2) single-family residences, which is known as a "Double Tap";
 - b. A three-fourths inch ($\frac{3}{4}$ ") Water Service Line to serve one (1) single-family residence, which is known as a "Single Tap." All Residential Water Taps will be installed by the standard City of Houston "Long" or "Short" Residential Water Service Line connection, including a five-eighths inch ($\frac{5}{8}$ ") x three-fourths inch ($\frac{3}{4}$ ") meter and box, complete in place.
17. "Sanitary Sewer" shall mean a sewer that conveys sewage or industrial wastes or a combination of both, and into which storm, surface and ground waters or unpolluted industrial wastes are not intentionally passed.
18. "Sewage" shall mean a combination of the water-carried waste from residences, business buildings, institutions, and industrial establishments, together with such ground surface and storm water as may be present.
19. "Sewage Treatment Plant" shall mean any District-owned facility, device or structures used for receiving and treating sewage from the District's sanitary sewer system.
20. "Sewage Works" shall mean all facilities for collecting, pumping, treating and disposing of sewage and industrial wastes and would include sewage, as well as the sewage treatment facilities.
21. "Sewer" shall mean a pipe or conduit for carrying sanitary sewage.
22. "Sewerage" shall mean the system of sewers and appurtenances for the collection, transportation and pumping of sewage and industrial wastes.

23. "Sewer Service Line" shall mean the Sewer Line from the foundation of a building, including houses and commercial structures, to the District's Sanitary Sewer System.

24. "Sewer Tap" shall mean the physical connection of a Sewer Service Line to the District's Sanitary Sewer System. Without the written consent of the District's Board of Directors, only one (1) Sewer Tap shall be permitted for each building.

25. "Standard Methods" shall mean the examination and analytical procedures set forth in the latest Edition, at the time of analysis, of "Standard Methods for the Examination of Water and Sewage," as prepared, approved and published jointly by the American Water Works Association and the Federation of Sewage and Industrial Wastes Association.

26. "Storm Sewer or Storm Drain" shall mean a sewer which carries storm and surface waters and drainage, but excludes sewage and polluted industrial wastes.

27. "Storm Water Runoff" shall mean that portion of the rainfall that is drained into the sewers.

28. "Suspended Solids" shall mean solids that either float on the surface of, or are in suspension in water, sewage, or other liquids, and which are removable by a laboratory filtration device. Quantitative determination of suspended solids shall be made in accordance with procedures set forth in "Standard Methods."

29. "Unpolluted Water or Waste" shall mean water or waste containing none of the following:

- a. Emulsified grease or oil
- b. Acids or alkalis
- c. Phenols or other substances imparting taste and odor in receiving water
- d. Toxic or poisonous substances in suspension
- e. Colloidal state or solution and noxious or otherwise obnoxious odorous gases.

It shall contain not more than ten (10) parts per million each of suspended solids and B.O.D. The color shall not exceed fifty (50) parts per million.

30. "Utility Commitment" shall mean a formal written commitment, either permanent or temporary, given by the District, stating that wastewater capacity of a specified volume is available for a defined tract of land.

31. "Watercourse" shall mean a channel in which a flow of water occurs, either continuously or intermittently.

32. "Water Mains" shall mean water distribution pipes located in public right-of-ways or easements and maintained by public authorities.

33. "Water Service Line" shall mean the waterline from the property line of the property to be served with water, to the District's waterworks system.

**ARTICLE II.
COMMITMENTS AND CONNECTIONS**

A. POLICY ON ISSUANCE OF WASTEWATER UTILITY RESERVATION COMMITMENT

This Policy and Procedures for Issuance of Water and Wastewater Utility Commitments (the "Policy") shall apply to any property within the District which has not been platted or which does not currently have service approved by the District available to it and all Property outside the District for which service is requested. For example, no owner of a single-family lot in a platted subdivision to which District service is available shall be required to comply with this policy and may apply directly for a utility connection under Paragraph C. The Board of Directors has adopted the following policy for the purpose of providing water and sewer service for the growth and development within the District in a uniform and nondiscriminatory manner. These policies and procedures shall apply uniformly throughout the District for any new or additional development.

1. Application and Deposit.

- a. Property located within the District requires a completed application along with a deposit in the amount of \$5,500 to cover engineering costs. This shall be submitted to the District's Engineer, Sergio Van Dusen, Vogt Engineering, L.P., 2203 Timberloch, Suite 124, The Woodlands, Texas 77380.
- b. Property located outside the District requires a completed application and a deposit to cover engineering and legal costs. The application shall be completed and submitted to the District's Engineer, who will present it to the Board of Directors. Upon authorization of a feasibility study by the Board of Directors, the applicant shall provide a deposit within ten (10) days of approval to the District's Engineer, and payable to Harris County Water Control and Improvement District No. 99. The deposit shall be submitted to the District's Engineer, Sergio Van Dusen, Vogt Engineering, L.P., 2203 Timberloch, Suite 124, The Woodlands, Texas 77380.
- c. Deposits Required for Property Located Outside the District:
 - (1) Five (5) single-family equivalent connections or less -- \$8,000;
 - (2) More than five (5) single-family equivalent connections -- \$25,000.

2. Processing Application. Upon receipt of the attached, fully completed Application, the Engineer shall present the request to the Board of Directors of the District and obtain authorization for the District's consultants to begin the evaluation of the request. The deposit will be used to cover the expenses incurred by the District for the preliminary evaluation by the consultants as to whether the District's facilities can accommodate your proposed project. The District's Board of Directors shall be under no obligation to authorize an evaluation of an application for property located outside the District.

3. **Additional Deposit.** The Board of Directors reserves the right to request additional deposit monies from the Applicant should the initial deposit not be sufficient to cover anticipated consultant costs during the review. If additional monies are not produced when requested, then all review work will be stopped and this application will become null and void upon ten (10) days' written notice to the Applicant. Upon completion of the review by the District, the remaining position of the deposit, if necessary, will be returned to the Applicant.

4. **Miscellaneous Conditions.**

- a. **Application Required.** Any party requesting service from the District shall be required to submit an Application to the Board of Directors for consideration.
- b. **Term of Commitment.** Commitments shall not be issued for more than one (1) year from the date of issuance.
- c. **Transfer.** Commitments are non-transferable.
- d. **Taxes and Standby Fees.** Application shall not be considered for property with delinquent taxes or standby fees.
- e. **Construction.** No construction may begin on any improvements until all fees required by the District have been paid.
- f. **Construction Deadline.** Construction must begin prior to the expiration date contained in the commitment and diligently pursued thereafter. In the event construction has not commenced on any tract for which a commitment has been issued prior to the expiration of the commitment, the reservation shall lapse without notice and the application procedures must be reinstituted as described herein.
- g. **Progress Reports.** Applicant is required to provide the District with periodic written progress reports (at thirty (30) day intervals) advising the Board of Directors as to the status of progress up to commencement of construction.
- h. **Plats and Approvals.** All tracts of land receiving service must be platted as required by law and the plat and plans must be approved by the City of Houston, Harris County, and other appropriate agencies prior to utility service being provided by the District.
- i. **Extension of Facilities.** Applicant must make arrangements to extend the necessary trunk water, sanitary sewer and drainage facilities to serve its property in areas where such facilities do not exist. All temporary and permanent arrangements for sewer and water service must be worked out in advance of construction with the District's Engineer.
- j. **Easements.** Applicant, at its sole cost, must convey all necessary easements and rights-of-way to the District with all lienholder subordinations.

- k. **Maintenance Responsibility.** All utility lines constructed that are not in permanent acceptable easements, or which lie within private developments (apartments, condominiums, etc.) shall remain the permanent property of the landowner and shall remain such owner's permanent maintenance responsibility.
- l. **Change in Use.** Any change of use from the previously approved use of the property covered by this application must be approved by the District. Any request for change in use must be submitted in writing, describing in detail any change in any information submitted in connection with the original application, together with a \$500 deposit to be applied as described in Paragraph 1-3 hereof.
- m. **Rate Order Governs.** Service shall be extended to a tract in accordance with the then current Order Setting Water and Sewer Tap Fees and Setting Service Rates and Rules and Regulations Governing Waterworks and Sanitary Sewer System.
- n. **Annexation.** In addition to the other referenced prerequisites, including Paragraph B below, the following requirements are applicable to requests for annexation:
 - (1) A feasibility study shall be prepared by the District's Engineer.
 - (2) Applicant shall provide to the District a copy of the deed showing current ownership of the property referenced in the Application.
 - (3) Applicant shall submit to the District a current title commitment.
 - (4) The petition to the City of Houston for its consent to the annexation and the annexation petition to the District shall be prepared by the District's Attorney.
 - (5) All costs of annexation, including attorney's fees, engineering fees, election fees and any and all other fees relating to said annexation, shall be paid by the Applicant.
 - (6) Applicant shall provide to the District a copy of the current survey of the property, including a metes and bounds description.

5. **Requests for Utility Services for Areas not Currently Served by Utility Lines Owned by the District.** Any request for utility services from the District, whether located inside or outside the boundaries of the District, must be located within a plat, duly recorded in the Map Records of Harris County, Texas. If utility lines owned by the District are not presently extended across the unserved property, the applicant must provide easements or a public right-of-way for the extension of utility lines acceptable to the District for the provision of water and sewer service. The extension of such utility lines shall be in accordance with the City of Houston design criteria and approved by the District or the District's Engineer at the sole cost and expense of the applicant. The applicant shall submit a deposit in the amount of \$5,000 to

cover such expenses the District should encounter in determining whether such utility lines are acceptable to the District.

B. ANNEXATION POLICY

The Board of Directors would consider annexation of real property into the District subject to the following conditions:

1. All legal, engineering and other costs associated with the annexation shall be paid by the Applicant.

2. All costs of constructing the water, sanitary sewer and drainage facilities to serve the property shall be paid by the Applicant.

3. The District's existing sewage treatment plant currently is sufficient to serve only the projected development of the land currently located within the District. Applicant shall be required to finance all costs related to whatever expansion to the District's sewage treatment plant is necessary to serve the annexed property. Such costs shall be secured by an irrevocable letter of credit, in form satisfactory to the District, drawn on a bank located in Harris County, Texas. Such letter of credit shall be deposited with the District at the time Applicant begins construction of any utilities to serve its property.

4. The same restrictions and procedures as described in 3 above shall apply to the District's water production facilities, if it is determined that the District does not have sufficient surplus water supply to serve Applicant's proposed development.

5. All utility facilities proposed to be owned and operated by the District shall be designed by and construction and supervised by the District's Engineer.

6. All contracts let for the construction of utilities shall be let in the name of the District and shall be supervised by the Board of Directors. All payments, however, shall be solely the responsibility of the Applicant.

7. In the event the District determines that certain utility lines should be oversized in order to accommodate anticipated development within the District, the Applicant shall fund the oversizing of such lines. The District, however, shall endeavor to recoup such additional costs from the benefiting landowners when they request service from the District.

8. At the time the tract is annexed into the District, Applicant shall waive any special use valuations of the property, including agricultural, open space or business inventory value.

9. The terms and conditions of the annexation agreement shall be recorded at the time of annexation and shall be binding upon any future purchaser and any lender.

10. Whether the Applicant has known use for the annexed tract will impact the Board's decision on whether to annex the tract.

The Board of Directors recognizes that the providing of utility service to a tract may include consideration not specifically addressed herein or that special circumstance may arise that made these conditions inapplicable. The Board of Directors stands ready to address with an Applicant any issues relevant to the policy on issuance of utility commitment and to an

annexation. This policy, however, is written to provide a potential Applicant with the general policy of the District regarding issuance of utility commitment and annexation.

C. APPLICATION FOR UTILITY CONNECTION

Any person desiring connection to the District's System for property located inside the boundaries of the District, after following the requirements of Section A above, if applicable, shall follow the following steps:

1. The applying person should initiate his request for utility connection at the office of the District Operator. The applicant will fill out the form "Application for Water/Sewer Service," Exhibit "B" (copy attached), and present three (3) legible prints of the Site Drawing and Utility Layout for the proposed facility. The applicant's tap fee will be assessed, based on the proposed land use and the provisions set forth in Article II.D hereof. Paying a tap fee on an improved portion of a larger tract of land does not constitute a Utility Commitment on the remaining unimproved portion. A metes and bounds description and a recorded plat of the tract receiving service should accompany the submitted Site Plans.

2. The Operator will then make preliminary determination that utility commitments and availability exists and is committed by the District for the subject tract. On that basis, the Operator will assess the connection fee according to this Order. Operator will request an "Assignment of Commitment" when the Applicant is not the original recipient of the District's Commitment. In absence of such an Assignment, the commitment will be allocated on a prorated acreage basis.

3. The Operator will then forward two (2) copies of the Site Plan to the District Engineer for further and final evaluation of utility commitment and availability and evaluation of any encroachments to District utility easements. The Engineer will then, in writing, confirm any additional requirements to the applicant regarding such encroachments and/or confirm the Utility Connection Agreement. The Engineer will also make record of the description of the tract for which the tap fee is dedicated. A copy of that documentation shall go to the District's Attorney, the Operator, the Bookkeeper, and the District Secretary.

D. CONNECTION AND DISCONNECTION; POLICIES AND FEES AND DEPOSITS

1. Connection to District's System.

- a. **In-District Consumers.** Upon approval of an application for service by the Board of Directors and payment of all applicable fees, each structure within the District may be connected to the District's system as soon as the District has made available to such structure, plant and line capacity to serve same. If both water and sewer services do not become available at the same time, the Consumer may connect to the water system at the time water service becomes available and shall connect to the sewer system at the time sewer service becomes available. No permanent single service shall be available to any Consumer; provided, however, that this requirement shall not apply to lawn watering connections when the Consumer has another Single Family Residential Connection. Customers

may not use private water supply systems or sanitary sewer treatment systems without approval from the Board.

- b. **Out-of-District Consumers.** Upon approval of an application for service by the Board of Directors, and payment of all deposits, tap, inspection and account institution fees, connections may be made to the District's facilities at no cost to the District. No permanent single service shall be available to any Consumer; provided, however, that this requirement shall not apply to any Consumers receiving a single service as of December 20, 1988.

Also, for purposes of this Section, Out-of-District Consumers may not share a common connection on the same property. Violation of this provision will result in the immediate termination of all service as provided in Article V.B hereof.

2. **Verification of Payment of Taxes Prior to Rendering Service.** Prior to providing water and sewer service to a Consumer, whether for new service or for a reconnection, the District's Operator will verify with the District's Tax Collector that all District taxes have been paid on the property for which water and sewer service has been requested. In the event taxes are due and owing on the property for which water and sewer service has been requested, water and sewer service shall not be provided until such time as the taxes which are due and owing, including penalty and interest, if any, are paid.

3. **Deposit To Secure Payment and Service Charge.** A security deposit shall be collected on all new connections. An additional security deposit shall be collected for reconnections after termination for delinquency, if the delinquent amount exceeds the original security deposit on file. Deposits are as follows:

Residential:

In-District Consumers	\$250.00
Out-of-District Consumers	\$350.00
Additional Security Deposit for In-District and Out-of-District Consumers	\$150.00

Commercial, any Apartments and School:

In-District Consumers	Minimum of \$500.00*
Out-of-District Consumers	Minimum of \$750.00*
Additional Security Deposit for In-District and Out-of-District Consumers	\$250.00

*or, for Commercial Connection, Apartments Connection, Property Tax-Exempt Apartment Connections, or School Connection, in an amount equal to two (2) times the average Water and Sewer Service Charge for the preceding two (2) billing periods, if larger. Any determination of a deposit required under this Section based on usage or estimated usage shall be in the discretion of the District. Any previous unused deposit with the District will be credited to the amount of the deposit due by any Consumer.

All deposits shall be prepaid and water and sewer service shall not be provided until such time as payment of the deposit has been received. The deposit shall be refundable when

ownership is transferred, contingent upon providing proof of payment of all bills owed to the District. No interest shall be paid by the District on any deposit.

4. **Discontinuing and/or Connecting Service.**

a. **At request of Consumer.**

- (i) **New Service.** At any time a Consumer wishes to establish an account with the District (which shall be done at any time responsibility for payment is changed), such Consumer shall pay a non-refundable account transfer fee as follows:

Residential:

In-District Consumer	\$100.00
Out-of-District Consumer	\$200.00

Commercial, any Apartment and School:

In-District Consumer	\$200.00
Out-of-District Consumer	\$300.00

provided, however the account transfer fee shall not apply to a new account being established as a result of payment of a tap fee pursuant to Section II.D. hereof.

- (ii) **Existing Service.** At any time a Consumer temporarily or permanently, abandons the structure being served and no longer wishes to be furnished with water, he shall notify the District's Operator at least two (2) days prior to the time he desires such service discontinued. A charge for restoring water service where such service is restored at the request of the Consumer, provided he is not delinquent in the payment of any bills at the time of either request shall be required as follows:

Residential:

In-District Consumer	\$ 50.00
Out-of-District Consumer	\$100.00

Commercial, any Apartment and School:

In-District Consumer	\$100.00
Out-of-District Consumer	\$125.00

b. **Discontinuing Service and Removing Meter For Failure to Pay Bills When Due.**

- (i) The District shall have the right to discontinue service water and/or sewer to a Consumer at any time after his bill becomes delinquent. Service shall not be restored until receipt of the following charges:

- (a) a deposit fee, in accordance with Section II.D(3) hereof,
- (b) a reconnection charge as follows:

Residential:

In-District Consumer	\$100.00
Out-of-District Consumer	\$250.00

Commercial, any Apartment and School:

In-District Consumer	\$150.00
Out-of-District Consumer	\$300.00

- (c) payment of the delinquent bills plus any penalties required by this Order.

A bill shall include charges for any work done by or on behalf of the District which is attributable to (aa) a problem in the Consumer's system or (bb) a problem in the District's system which, in the opinion of the District is caused by a Consumer or a Consumer's system. All payments of such amounts shall be in cash or cash equivalents.

- (ii) In the event a delinquent bill is not paid within seven (7) days after discontinuation of service pursuant to subparagraph (4)(b)(i) above, the District shall have the right to remove the meter from the meter box. Service shall not be restored until receipt of the following charges:

- (a) All amounts required by subparagraph (4)(b)(i) above, plus
- (b) a meter replacement fee as follows:

Residential:

In-District Consumer	\$50.00
Out-of-District Consumer	\$75.00

Commercial, any Apartment and School:

In-District Consumer	\$50.00
Out-of-District Consumer	\$75.00

E. TAP FEES FOR WATER AND SEWER SERVICE

1. **Residential.** Residential connection charges shall be made for every residential connection up to and including a one-inch (1") connection, to the District's water distribution and sewage collection system as follows:

In-District Consumer	\$ 1,200.00
Out-of-District Consumer	\$1,500.00

Charges shall include the meter and meter box and installation thereof. For connections of over one-inch (1"), the District will establish tapping charges by separate order or agreement; however, the connection charge shall not exceed three (3) times the actual and reasonable costs to the District for such work.

2. **Commercial, any Apartment and School.** Commercial Connection, Apartment Connection, Property Tax-Exempt Apartment Connections and School Connection charges for every Commercial Connection, Property Tax-Exempt Apartment Connections, Apartment Connection or School Connection to the District's water distribution and sewer collection system shall be as follows:

In-District Consumer	Three (3) times the actual cost of meter, box and installation plus 20% of such cost
Out-of-District Consumer	By separate Order or Agreement

However, the connection charge shall not exceed three (3) times the actual and reasonable costs to the District for such work.

F. CUSTOMER SERVICE INSPECTIONS AND STAKING FEES

1. A customer service inspection is an examination of the private water distribution facilities for the purpose of providing or denying water service. This inspection is limited to the identification and prevention of cross-connections, potential contaminant hazards and illegal lead materials. The customer service inspector has no authority, and on obligation, beyond the scope of the commission's regulations. A customer service inspection is not a plumbing inspection as defined and regulated by the Texas State Board of Plumbing Examiners (TSBPE). A customer service inspector is not permitted to perform plumbing inspections. State statutes and TSBPE adopted rules require that TSBPE licensed plumbing inspectors perform plumbing inspection of all new plumbing and alterations or additions to existing plumbing within the municipal limits of all cities, towns and villages with 5,000 or more inhabitants or within smaller like entities which have adopted the Plumbing License Law by ordinance. A Customer Service Inspection Certification, as described in Exhibit "C" attached hereto, shall be completed prior to providing continuous water service to any new construction, on any existing service where the District has reason to believe that cross-connections or other potential contaminant hazards exist, and after any material improvement, correction, or addition to private water distribution facilities. Prior to the District initiating continuous service, a Customer shall provide a Customer Service Inspection Certification to the District. The Customer Service Inspection Certification may only be performed by those individuals described in Subsection B of this Section 3.04. For Customer Service Inspection Certifications performed by the District's Operator, the Customer must pay the District the Staking Fee and Customer Service Inspection Fees in the amounts below (\$425.00), prior to the Operator performing staking and inspections.

Locating and Staking Fee. The District's Operator shall be required to locate and stake the point of connection to the District's water distribution or sewer collection system for any water tap or sewer stub out. The fee for this service is \$50.00.

Pre-inspection Fee. When pipes are in place a pre-inspection fee of \$50.00 is assessed prior to the pouring of the slab.

Sewer Inspection. A sewer line inspection fee of \$50.00 is assessed after a sewer tap is made by a plumber and a house line is installed.

Customer Service Inspection (CSI). A fee of \$150.00 is assessed upon an inspection of plumbing and pipes after framing and prior to installing sheetrock.

Final Inspection. A final inspection is required to ensure the builder has not changed plumbing or damaged plumbing, etc. A \$125.00 charge is assessed for this inspection.

Copies of properly completed Customer Service Inspection Certifications shall be kept on file by the District's Operator and made available, upon request, for TCEQ review. Inspection certifications shall be retained for a minimum of ten (10) years. Failure to provide a Customer Service Inspection Certification in accordance with this Section 3.04 shall constitute a violation of these Rules and Regulations and such violation shall be subject to the enforcement provisions set forth in Article X hereof.

2. Individuals with the following credentials shall be recognized as capable of conducting a Customer Service Inspection Certification:

- a. Plumbing Inspectors and Water Supply Protection Specialists licensed by the Texas State Board of Plumbing Examiners (TSBPE); and
- b. Customer service inspectors who have completed a commission approved course, passed an examination administered by the TCEQ or its designated agent and hold current professional certification or endorsement as a customer service inspector.

3. Private plumbing facilities in violation of Article III hereof shall constitute an unacceptable plumbing practice and violation of these Rules and Regulations. If an unacceptable plumbing practice is discovered, the Customer shall eliminate the unacceptable plumbing practice within thirty (30) days from the date of discovery to prevent possible contamination of the District's Water Supply System. The existence of a serious threat to the integrity of the District's Water Supply System shall be considered sufficient grounds for immediate termination of water service. Service can be restored only when the source of potential contamination no longer exists, or when sufficient additional safeguards have been taken, and a Customer Service Inspection Certification confirming correction of unacceptable plumbing practices has been submitted to the District.

4. The Customer Service Inspection Certification shall certify that:

- a. No direct connection between the District's Water Supply System and a potential source of contamination exists. Potential sources of contamination are isolated from the District's Water Supply System by an air gap or an appropriate backflow prevention assembly in accordance with state plumbing regulations. Additionally, all pressure relief valves and thermal expansion devices are in compliance with state plumbing regulations.
- b. No cross-connection between the District's Water Supply System and a private water source exists. Where an actual air gap is not maintained between the District's Water Supply System and a private water supply, an

approved reduced pressure-zone backflow prevention assembly is properly installed and a service agreement exists for annual inspection and testing by a recognized backflow prevention assembly tester.

- c. No connection exists which would allow the return of water used for condensing, cooling or industrial processes back to the District's Water Supply System.
- d. No pipe or pipe fitting which contains more than 0.25% lead exists in private water distribution facilities installed on or after January 31, 2014.
- e. No solder or flux which contains more than 0.2% lead exists in private water distribution facilities installed on or after July 1, 1988.

G. WATER AND SEWER SERVICE LINES OR LEADS

In the case of commercial, unrestricted or unrecorded property which has been subdivided and for which no water or sewer service line or lead exists to or across such subdivided parcel, the Applicant for service shall provide to the District any utility easement deemed necessary by the District and shall pay all costs associated with either the extension of a District's service line to the property and/or any street boring for a cross lead. The size and location of any new line or cross lead shall be determined by the District's Engineer and Operator with final approval required by the District's Board of Directors. No new line extension or cross lead shall be constructed until 1) all necessary easements have been provided by the Applicant to the District, and 2) all costs of design and construction have been paid in advance by the Applicant.

H. MISCELLANEOUS

1. **No Reduced Rates or Free Service.** All Consumers receiving either water or sewer service, or both, from the District shall be subject to the provisions of this Order and shall be charged the rates established in this Order; and no reduced rate or free service shall be furnished to any such Consumer.

2. **No Sales of Unmetered Water.** No water will be delivered to any person or Consumer except on a metered basis, without the express written approval of the District.

3. **No Sales for Purposes of Resale.** No Consumer shall sell or resale water or sewer services to any other person or entity.

4. **Consumers Not Entitled to Specific Quantity or Pressure of Water.** Water consumers are not guaranteed a specific quantity or pressure of water for any purpose whatsoever, and it is understood that the District is only to furnish a connection to its water system, and is in no case liable for failure or refusal to furnish water of any particular amount or pressure of water.

5. **Water Connections Generally.** No person, other than the properly authorized agents of the District, shall be permitted to tap or make any connection with the mains or distributing pipes of the District's water system, or make any repairs and/or additions to or alterations in any tap, pipe, cock or other fixture connected with the water service line.

6. **Meters.** Title to all water meters and appurtenances, including the meter boxes enclosing same, shall vest in the District and shall be set up by employees or agents of the

District. After a meter has been set, the Consumer shall at all times keep the space occupied by the meter and the box free from rubbish or obstructions of any kind. No person other than a duly authorized agent of the District shall open the meter box, tamper with it, or in any way interfere with the meter or box.

7. **Meter Upgrade.** Residential and commercial customers requesting to upgrade their water meter from the standard size to a larger size must get Board of Directors approval. All charges will be paid for by the Customer. This is including, but not limited to, the larger meter, Operator's time, etc.

8. **Penalty For Failure to Pay Bill Before Delinquent.** A bill for water and/or sewer service shall be payable upon receipt and shall be delinquent after twenty (20) days following its date. A charge of ten (10%) percent of the total amount of the consumer's bill shall be added thereto, when such bill becomes delinquent.

9. **Returned Check Fee.** Any account paid with a check returned unpaid shall be charged a returned check fee of \$25.00 in addition to any other charges and penalties. An additional fee of \$40.00 shall be charged in the event it becomes necessary for the Operator to dispatch service personnel for the delivering of a door hanger informing a customer of a returned check.

10. **Penalty For Exceeding Allocated Capacity.** In the event any Consumer utilizes water and sewer capacity in excess of its allocated capacity for any day, month or year, it shall be deemed a violation of this Order for each day such excess usage continues. Upon written notice to the Consumer of such a violation of its allocated capacity, the District reserves the right to terminate water and sewer service to such Consumer until such time as the District is assured that such excess usage will be discontinued. In addition, any violation for exceeding allocated capacity shall be subject to the fines and/or penalties expressed in Section V.B.1 of this Order.

11. **Miscellaneous Services.**

- a. The District, acting through its Operator, will perform other services for persons requesting those services such as contacting general contractors, road contractors and utility service contractors for the purpose of location of water and/or sewer lines for such persons, however, any costs incurred by the District will be billed to such persons at an amount equal to the District's cost plus ten percent (10%). If the District does not have a contract with such person, payment arrangements satisfactory to the Operator or the District should be made in advance; provided, however, this charge shall not apply in the case of a homebuilder attempting to locate the District's facilities for the purpose of installing a tap.
- b. Any person, except for plumbers working on sewer taps, working in the District's easements shall be required to contact the District's Operator and shall be prohibited from working in or around the District's facilities unless and until such person has provided sufficient security to the District to satisfy any potential damages to the District's water or sewer system in an amount determined by the District.

12. **Review.** It shall be the policy of the District to review this Order at least annually and revise same as may be required by the District's financial situation, including taking into consideration projected maintenance, capital projects and other sources of revenue.

**ARTICLE III.
WATER AND SEWER RATES**

A. MONTHLY RATES FOR WATER AND SEWER SERVICE FOR IN-DISTRICT CONSUMERS EXCEPT PROPERTY TAX-EXEMPT APARTMENTS

1. Monthly Rates for Water Service Charge, based on water service meter readings.

a. Single-Family Residential Connections:

0 - 6,000 Gallons	\$28.00
6,001 - 10,000 gallons	\$2.00 per 1,000 gallons
10,001 - 20,000 gallons	\$2.25 per 1,000 gallons
20,001 - 30,000 gallons	\$2.75 per 1,000 gallons
30,001 - 40,000 gallons	\$4.00 per 1,000 gallons
40,001 - 50,000 gallons	\$5.00 per 1,000 gallons
50,001 gallons and over	\$6.50 per 1,000 gallons

Minimum Monthly Charge is \$28.00.

Additional water meters set for a Single-Family Residential Connection for the purpose of outdoor watering only and which does not discharge to the District's Sanitary Sewer shall be billed at the rates set forth above.

b. Apartment Connections

Apartment Units served by individual meters shall be billed as follows:

0 - 6,000 Gallons	\$28.00
For each 1,000 gallons over	\$2.00 per 1,000 gallons

Apartment Units served by a master meter shall be charged as follows: The total number of gallons metered shall be divided by the number of Apartment Units to determine the average usage per Apartment Unit. The average usage per Apartment Unit shall be rounded to the nearest 1,000 gallons for purposes of computing the amount to be charged hereunder. The rates specified above shall be applied to such average usage to determine the charge per Apartment Unit. The charge per Apartment Unit shall then be multiplied by the number of Apartment Units, whether occupied or not, to determine the total amount to be charged. Beginning the first day of the initial connection of the Apartment Connection to the District's water system, the following percentage of Apartment Units planned ultimately to be served by such meter will conclusively be deemed to be completed and habitable and billing will be in accordance with the rates set forth above for Apartment Unit:

<u>Months After Tap:</u>	<u>Percentage Habitable:</u>
0-1	30%
2	50%
3	70%
4	90%
5 and thereafter	100%

c. Commercial Connections -- 1" Meter or Less:

0 - 6,000 Gallons	\$40.00
6,001 - 10,000 gallons	\$2.00 per 1,000 gallons
10,001 - 20,000 gallons	\$2.25 per 1,000 gallons
20,001 - 30,000 gallons	\$2.75 per 1,000 gallons
30,001 - 40,000 gallons	\$4.00 per 1,000 gallons
40,001 - 50,000 gallons	\$5.00 per 1,000 gallons
50,001 gallons and over	\$6.50 per 1,000 gallons

Minimum Monthly Charge is \$40.00.

d. Commercial Connections – 1½" – 2" Meters:

0 - 20,000 Gallons	\$100.00
20,001 - 30,000 gallons	\$2.75 per 1,000 gallons
30,001 - 40,000 gallons	\$4.00 per 1,000 gallons
40,001 - 50,000 gallons	\$5.00 per 1,000 gallons
50,001 -100,000 gallons	\$6.50 per 1,000 gallons
100,001- gallons and over	\$7.50 per 1,000 gallons

Minimum Monthly Charge is \$100.00.

e. Commercial/School Irrigation Connections – Meters Larger than 2":

0-20,000 gallons	\$100
20,001-30,000 gallons	\$2.75 per 1,000 gallons
30,001-40,000 gallons	\$4.00 per 1,000 gallons
40,001-50,000 gallons	\$5.00 per 1,000 gallons
50,001-100,000 gallons	\$6.50 per 1,000 gallons
100,001-gallons and over	\$7.50 per 1,000 gallons

Minimum Monthly Charge is \$100.00.

f. Commercial Connection – Assisted Living Facility 1½" Meter:

0 - 20,000 Gallons	\$100.00
20,001 - 30,000 gallons	\$2.75 per 1,000 gallons
30,001 - 40,000 gallons	\$4.00 per 1,000 gallons
40,001 - 50,000 gallons	\$5.00 per 1,000 gallons
50,001 - 100,000 gallons	\$6.50 per 1,000 gallons
100,001 - gallons and over	\$7.50 per 1,000 gallons

Minimum Monthly Charge is \$100.00.

g. School Connections:

Each School Connection shall be billed a monthly minimum water and gallonage based on the Single Family Residential Equivalency attributed to the School Connection ("SFRE") so that the School Connection bears an equitable burden of the District's fixed operation costs as a Residential

Connection. The charge per SFRE for the School Connection shall be multiplied by the number of SFREs for the School Connection.

0 –6,000 Gallons per SFRE	\$28.00 per SFRE
Next 4,000 gallons per SFRE	\$2.00 per 1,000 gallons
Next 10,000 gallons per SFRE	\$2.25 per 1,000 gallons
Next 10,000 gallons per SFRE	\$2.75 per 1,000 gallons
Next 10,000 gallons per SFRE	\$4.00 per 1,000 gallons
Next 10,000 gallons per SFRE	\$5.00 per 1,000 gallons
Over 50,000 gallons per SFRE	\$6.50 per 1,000 gallons

Minimum Monthly Charge is \$28.00 per SFRE

- h. NHCRWA fee per 1,000 gallons of usage, plus a 10% administrative charge, as set forth in III.D., below.

2. Monthly Rates for Sewage Service Charge shall be as follows.

a. Residential Connections:

A flat fee of \$60.50 per connection; provided, however, that any meter installed for the purpose of outdoor watering only and which does not discharge to the District's Sanitary Sewer shall not be billed a Sewage Service Charge.

b. Apartment Connections:

A flat fee of \$ 62.50 per Apartment Unit, regardless of occupancy. The below schedule of habitability shall apply and billing will be calculated by multiplying the applicable number of Apartment Units times the flat rate for sanitary sewer service.

<u>Months After Tap:</u>	<u>Percentage Habitable:</u>
0-1	30%
2	50%
3	70%
4	90%
5 and thereafter	100%

c. Commercial Connections -- 1" meter or less:

A flat fee of \$57.00 per connection.

d. Commercial Connections -- 1½" – 2" Meters:

A flat fee of \$112.00 per connection.

e. Commercial Connections – Assisted Living Facility 1½" Meter

A flat fee of \$112.00 per connection.

f. School Connections:

Each School Connection shall be billed a monthly sewer rate based on the Single Family Residential Equivalency attributed to the School Connection ("SFRE") so that the School Connection bears an equitable burden of the District's fixed operation costs as a Residential Connection for the services the School Connection receives. The charge per SFRE for the School Connection shall be multiplied by the number of SFREs for the School Connection.

A flat fee of \$30.00 per SFRE per connection.

B. MONTHLY RATES FOR WATER AND SEWER SERVICE FOR OUT-OF-DISTRICT CONSUMERS

In addition to Consumers receiving a charge for the applicable water and sewer rates for the District, as specified below, Consumers that receive out-of-district service shall be billed an out-of-district surcharge, as specified below.

$I + C = \text{Monthly Utility Bill}$

C = Monthly Out-of-District utility surcharge

I = water and/or sewer rates, either Residential or Commercial as appropriate, plus regional water authority fees

1. Monthly Out-of-District Surcharge Calculation.

The out-of-district surcharge is based on the District's tax rate applied to the Consumer's assessed valuation from Harris County Appraisal District ("HCAD") each year. The Consumer shall be charged based on the service that they receive from the District. The charge for water service is equal to forty (40%) percent of the appraised value of the property pursuant to HCAD. The charge for sewer service is equal to sixty (60%) percent of the appraised value of the property pursuant to HCAD. The surcharge calculation shall be as follow and recalculated January 1 of every year:

$$C = \left[\frac{AV}{100} \times T \right] \times (W, S \text{ or } WS) = AS \div 12$$

C = Monthly Out-of-District utility surcharge

AV = Appraisal Value pursuant to HCAD

T = Tax Rate

W = 40%

S = 60%

WS = 100%

AS = Annual Surcharge

2. Monthly Rates for Water Service Charge, based on water service meter readings.

a. Single-Family Residential Connections:

0 - 6,000 Gallons	\$45.00
6,001 - 10,000 gallons	\$3.00 per 1,000 gallons
10,001 - 20,000 gallons	\$3.25 per 1,000 gallons
20,001 - 30,000 gallons	\$3.75 per 1,000 gallons
30,001 - 40,000 gallons	\$5.00 per 1,000 gallons
40,001 - 50,000 gallons	\$6.00 per 1,000 gallons
50,001 gallons and over	\$7.50 per 1,000 gallons

Minimum Monthly Charge is \$45.00; provided, however, if water service is the only service utilized, the Minimum Monthly Charge shall be \$75.00.

b. Commercial Connections – 1-1/2" Meter or Less:

0 - 6,000 Gallons	\$75.00
6,001 - 10,000 gallons	\$3.00 per 1,000 gallons
10,001 - 20,000 gallons	\$3.25 per 1,000 gallons
20,001 - 30,000 gallons	\$3.75 per 1,000 gallons
30,001 - 40,000 gallons	\$5.00 per 1,000 gallons
40,001 - 50,000 gallons	\$6.00 per 1,000 gallons
50,001 gallons and over	\$7.50 per 1,000 gallons

Minimum Monthly Charge is \$75.00; provided, however, if water service is the only service utilized, the Minimum Monthly Charge shall be \$100.00.

c. Commercial Connections – Meters Larger than 1-1/2":

0 - 400,000 gallons	\$1,650.00
400,001 - 700,000 gallons	\$4.25 per 1000 gallons
700,001 - 1,000,000 gallons	\$5.25 per 1000 gallons
1,000,001 gallons and over	\$7.00 per 1000 gallons

Minimum Monthly Charge is \$1,650.00.

d. NHCRWA fee per 1,000 gallons of usage, plus a 10% administrative charge, as set forth in H.D., below.

e. School Connections:

Each School Connection shall be billed a monthly minimum water and gallonage based on the Single Family Residential Equivalency attributed to the School Connection ("SFRE") so that the School Connection bears an equitable burden of the District's fixed operation costs as a Residential Connection. The charge per SFRE for the School Connection shall be multiplied by the number of SFREs for the School Connection.

0 - 6,000 Gallons per SFRE	\$28.00 per SFRE
----------------------------	------------------

Next 4,000 gallons per SFRE	\$2.00 per 1,000 gallons
Next 10,000 gallons per SFRE	\$2.25 per 1,000 gallons
Next 10,000 gallons per SFRE	\$2.75 per 1,000 gallons
Next 10,000 gallons per SFRE	\$4.00 per 1,000 gallons
Next 10,000 gallons per SFRE	\$5.00 per 1,000 gallons
Over 50,000 gallons per SFRE	\$6.50 per 1,000 gallons

Minimum Monthly Charge is \$28.00 SFRE

f. Park Connection:

0 - 6,000 Gallons	\$28.00
6,001 - 10,000 gallons	\$3.00 per 1,000 gallons
10,001 - 20,000 gallons	\$3.25 per 1,000 gallons
20,001 - 30,000 gallons	\$3.75 per 1,000 gallons
30,001 - 40,000 gallons	\$5.00 per 1,000 gallons
40,001 - 50,000 gallons	\$6.00 per 1,000 gallons
50,001 gallons and over	\$7.50 per 1,000 gallons

Minimum Monthly Charge is \$28.00

3. Monthly Rates for Sewage Service Charge shall be as follows.

a. Residential Connections:

A flat fee of \$45.00 per connection; provided, however, if sewer service is the only service utilized, the Minimum Monthly Charge shall be \$75.00.

b. Commercial Connections -- 1-1/2" Meter or Less:

A flat fee of \$75.00 per connection; provided, however, if sewer service is the only service utilized, the Minimum Monthly Charge shall be \$100.00.

c. Commercial Connections – Meters Larger than 1-1/2":

Minimum monthly charge is \$1,800.00 plus an additional \$2.50 per 1,000 gallons based on all water meter reading beginning with zero (0).

d. School Connections:

Each School Connection shall be billed a monthly sewer rate based on the Single Family Residential Equivalency attributed to the School Connection ("SFRE") so that the School Connection bears an equitable burden of the District's fixed operation costs as a Residential Connection for the services the School Connection receives. The charge per SFRE for the School Connection shall be multiplied by the number of SFREs for the School Connection.

A flat fee of \$30.00 per SFRE per connection.

- e. Park Connection:

A flat fee of \$30.00 per connection.

4. In the event any out-of-District Consumer receiving both water and sewer service ceases to accept one service and continues to accept the other service, such Consumer shall, in addition to the monthly Water or Sewer Service Charge for the service being utilized, pay an additional amount equal to the maximum Minimum Monthly Charge for the service no longer being utilized.

C. TRANSIENT CONSUMERS (TEMPORARY)

1. Any person desiring to receive water service from the District and not become a permanent customer of the District shall:

- a. make a written application to the District by contacting the District's Operator and informing the District's Operator of:
 - (i) the proposed location of service;
 - (ii) estimated date or dates of usage;
 - (iii) estimated quantity of water needed; and
 - (iv) an agreement to pay the District's costs and expenses of monitoring such use, as determined by the District.
- b. deposit with the Operator the sum of \$1,000.00 (for estimated usage of up to 100,000) or a deposit set by the District for estimated usage over 100,000 gallons, which deposit shall be for water usage only and shall be independent of any costs associated with a meter, for which arrangements will be required to be made with the District's Operator;
- c. pay for water at the rate of \$7.00 per 1,000 gallons;
- d. pay for Operator's time and charges; and
- e. pay for NHCRWA fee per 1,000 gallons of usage, plus a 10% administrative charge, as set forth in III.D., below.

2. All service shall be monitored by the District's Operator.

D. IMPOSITION OF FEE FOR NORTH HARRIS COUNTY REGIONAL WATER AUTHORITY.

The District shall pay fees to the North Harris County Regional Water Authority ("NHCRWA") as required by law. All Customers receiving water from the District shall be charged an amount as set by the NHCRWA Board of Directors per 1,000 gallons of water usage, plus a 10% administrative charge. This fee is set by the NHCRWA Board of Directors, based on pumpage. The Operator shall list the NHCRWA assessment on the Customer's bill as a separate line item and shall collect the NHCRWA assessment in addition to other charges.

E. MONTHLY RATES FOR WATER AND SEWER SERVICE FOR PROPERTY TAX-EXEMPT APARTMENT CONSUMERS

Consumers of Property Tax-Exempt Apartment Connections shall be billed for water and sewer service, as specified below.

$I + C = \text{Monthly Utility Service Bill}$

$C = \text{Monthly Property Tax-Exempt Apartment Service Fee}$

$I = \text{water and sewer rates, plus regional water authority fees set forth in III.D.}$

1. Monthly Property Tax-Exempt Apartment Service Fee Calculation.

The Property Tax-Exempt Apartment Service Fee is based on the District's tax rate applied to the Consumer's established assessed valuation each year. The initial Appraised Value shall be the greater of: (1) the value of property according to the Harris Central Appraisal District immediately preceding the tax-exemption; or (2) the estimated value of property upon receiving the tax-exemption as asserted or projected by the current or previous owner. The District, at its option, may at any time be provided with an assessed value prepared by an independent, licensed real estate appraiser, who will be selected by the District, to determine the Appraised Value of the property and structures. Should the assessed value as determined by the Independent appraiser differ from the Appraised Value used at the time, the new Appraised Value shall be the greater of the two. The Appraised Value shall automatically increase 10% each year compared to the previous year's Appraised Value on January 1 of each year. The calculation shall be as follow and recalculated January 1 of every year or as the Appraised Value is updated:

$$C = (AS + AC) \div 12$$
$$AS = \frac{(AV * 1.12)}{100} \times T$$

$C = \text{Monthly Property Tax-Exempt Apartment Service Fee}$

$AV = \text{Appraised Value, and annually updated as described above}$

$T = \text{Tax Rate for prior tax year}$

$AS = \text{Annual Property Tax-Exempt Apartment Service Fee}$

$AC = \text{Appraisal Cost, if any}$

2. Monthly Rates for Water Service Rates, based on water service meter readings.

Apartment Units served by individual meters shall be billed as follows:

0 - 6,000 Gallons	\$28.00
For each 1,000 gallons over	\$2.00 per 1,000 gallons

Apartment Units served by a master meter shall be charged as follows: The total number of gallons metered shall be divided by the number of Apartment Units to determine the average usage per Apartment Unit. The average usage per Apartment Unit shall be rounded to the nearest 1,000 gallons for purposes of computing the amount to be charged hereunder. The rates

specified above shall be applied to such average usage to determine the charge per Apartment Unit. The charge per Apartment Unit shall then be multiplied by the number of Apartment Units, whether occupied or not, to determine the total amount to be charged. Beginning the first day of the initial connection to the District's water system, the following percentage of Apartment Units planned ultimately to be served by such meter will conclusively be deemed to be completed and habitable and billing will be in accordance with the rates set forth above for Apartment Unit:

<u>Months After Tap:</u>	<u>Percentage Habitable:</u>
0-1	30%
2	50%
3	70%
4	90%
5 and thereafter	100%

3. Monthly Rates for Sewage Service Rates shall be as follows.

A flat fee of \$ 62.50 per Apartment Unit, regardless of occupancy. The below schedule of habitability shall apply and billing will be calculated by multiplying the applicable number of Apartment Units times the flat rate for sanitary sewer service.

<u>Months After Tap:</u>	<u>Percentage Habitable:</u>
0-1	30%
2	50%
3	70%
4	90%
5 and thereafter	100%

ARTICLE IV. RULES AND REGULATIONS GOVERNING WATER AND SEWER SERVICE

The following Rules and Regulations (the "Rules and Regulations") shall govern the installation of connections or taps to the District's Waterworks and Sanitary Sewer System, the limitations on flow of waste into the Sanitary Sewer System, the protection of all facilities which are part of the District's Waterworks and Sanitary Sewer System, and set performance standards for water fixtures in new construction.

A. WATER SERVICE LINES AND WATER TAPS

1. All connections to the District's Water Mains shall be made by the District's Operator or a Contractor designated by the Operator. The connection shall include the furnishing and installing of the service saddle, water service line, water meter, and water meter vault.

2. The connections to the District's water mains and sanitary sewers may be made at different times.

3. The following materials are allowable for users extension from building to the District's Water Service Line:

- a. Brass curb stops, corp stops, and U-branch and related fittings manufactured by Ford, Hays or Muller
- b. Polyethylen water service pipe, three-fourths inch (3/4") to two inches (2")
- c. Cast iron water service pipe, two inches (2") and larger
- d. Water main pipe of PVC, C-900
- e. Plastic meter box up to one inch (1") meter
- f. Concrete meter box, one inch (1") to two inches (2") meter

4. No connection to the District's water system or initiation of service shall be permitted if the property is not in compliance with applicable County or City permits or has not constructed or maintained drainage systems on the property in compliance with local, state and federal laws.

B. SANITARY SEWER SERVICE LINE

1. Only one (1) service line may be connected to the District's sanitary sewage collection system for each residence or commercial building.

2. Only the following types of pipe and fitting materials are approved for constructing service lines. Pipe and fittings on each individual service line must consist of the same material.

- a. Vitrified clay pipe conforming to ASTM Specifications C700 with joint coupling conforming to ASTM Specifications C245 or C594 and installed according to ASTM C12.
- b. Cast iron soil pipe, standard weight, conforming to ASTM Specification A74 with rubber gasket joint coupling conforming to ASTM Specification C564.
- c. Poly-vinyl-chloride PSM (PVC) pipe conforming to ASTM Specification D3034 and installed according to ASTM D2321.
- d. Ductile-Iron Pipe conforming to ANSI A21.51 with rubber gasket joints, ANSI A21.11, and installed according to manufacturer's recommendations.
- e. Acrylonrile-butadiene-styrene (ABS) pipe, material conforming to ASTM Specification D2751.

3. Minimum sizes of service lines shall be as follows:

- a. Residential 4-inches in diameter
 - b. Commercial 6-inches in diameter
4. Minimum grades for service lines shall be as follows:
 - a. 4-inch pipe one foot drop per hundred feet (1%)
 - b. 6-inch pipe six inches drop per hundred feet (0.5%)
 - c. 8-inch pipe four inches drop per hundred feet (0.33%)
5. Maximum grades for service lines shall be as follows:
 - a. 4-inch pipe two and one-half feet drop per hundred feet (2.5%)
 - b. 6-inch pipe one and one-half feet drop per hundred feet (1.5%)
 - c. 8-inch pipe one foot drop per hundred feet (1%)
6. All service lines must be constructed to true alignment and grade. Warped and sagging service lines will not be permitted.
7. Building tie-on connection must be made directly to the stub-out from the building plumbing at the foundation on all waste outlets.
8. Water-tight adapters of a type compatible with the materials being joined must be used at the point of connection of the service line to the building plumbing. No cement grout materials are permitted.
9. Where the District has provided wyes or stacks on sanitary sewer lines, these existing wyes or stack connections must be utilized for connection of the service line to the sewer main unless an exception is permitted by the District's Operator.
10. In all cases where the District's sanitary sewer line is on the opposite side of the street from the connection, the District has provided cross street runs, generally at alternate lot corners. Connections shall be made to these cross street runs and not at any other location.
11. Fittings and Cleanouts
 - a. No bends or turns at any point will be greater than forty-five (45) degrees.
 - b. Each horizontal service line must be provided with a cleanout at its upper terminal; and each such run of piping which is more than ninety (90') feet in length must be provided with a cleanout for each ninety (90') feet, or fraction thereof, in the length of such piping.
 - c. Each cleanout must be installed so that it opens in a direction opposite to the flow of the waste and, except in the case of wye branch and end-of-the-line cleanouts, cleanouts must be installed vertically above the flow line of the pipe.
 - d. Cleanout must be made with air-tight mechanical plug.

12. All sanitary sewer connections shall be made by a qualified plumbing contractor approved by the District Operator. However, the Operator will make the inspection and must certify on the application form, Exhibit "B" (hereto attached), that the sewer connection was made in accordance with these Rules and Regulations.

13. When the service line is complete, and prior to backfilling the pipe trench, the applicant for sewer service shall request an inspection of the installation. Request for inspections shall be made to the District's Operator at least twenty-four (24) hours in advance of the time such inspection is desired.

14. The physical connection to the District's sewer main must be made by use of an adapter of a type compatible with materials being joined. The connection shall be water-tight. No cement grout materials are permitted.

15. Backfilling of the service line trench must be accomplished within twenty-four (24) hours of inspection and approval. No debris will be permitted in the trench.

16. No connection to the District's sanitary sewer system or initiation of service shall be permitted if the property is not in compliance with applicable County or City permits or has not constructed or maintained drainage systems on the property in compliance with local, state and federal laws.

C. PROTECTION OF DISTRICT'S WATERWORKS AND SANITARY SEWER SYSTEM

1. It shall be unlawful for any person, unless authorized in writing by the District's Operator, to tamper or interfere with, obstruct access to, or as a result of willful action injure, deface, or destroy any facilities that are a part of the District's waterworks and sanitary sewer system, including, with respect to the waterworks system, water plants, flushing valves, valve boxes, and water lines up to the meter box and including meters; provided, however, that duly authorized members of the Fire Department shall have such flushing valves for fire protection purposes.

2. It shall be unlawful for any person to connect any building to the waterworks system without a meter or to have a straight line connection to a building without being metered. It shall also be unlawful to draw water from the waterworks system without being metered, including the unauthorized use of a flushing valve or unmetered water taps. Meter installations shall include backflow prevention devices on all new commercial connections. Additionally, the District reserves the right to require any present or future connections, whether commercial or residential, to install a backflow prevention device. The cost of such devices shall be borne entirely by the customer. Furthermore it shall be unlawful for one property to provide service to a new structure or RV on the property, or service to another property without prior written permission from the District.

3. Any residential, commercial, apartment or non-profit connection which shall have interior fire control or prevention systems, which depend on water from the District shall submit plans and calculations to the District for approval prior to connection of such systems or at any other time as required by the District. Any such private fire protection system shall be metered.

4. No downspouts, yard or street drains, or gutters will be permitted to be connected into the District's sanitary sewage facilities. All clean-outs must be capped. No surface storm water shall be discharged into the District's sanitary sewer system.

5. Swimming pool connections will not be made to the District's sewer system unless approved by the Board of Directors.
6. Review and acceptance of the District shall be obtained prior to the discharge into the public sewers of any wastes and waters having:
 - a. A five (5)-day, 20 degrees Centigrade biochemical-oxygen-demand (B.O.D.) greater than 300 ppm.
 - b. Suspended solids containing greater than 300 ppm.
7. Pre-treatment - Where required, in the opinion of the District, to modify or eliminate wastes that are harmful to the structures, processes or operation of the sewage disposal works, the person shall provide, at his expense, such preliminary treatment or processing facilities as may be determined necessary to render his wastes acceptable for admission to the public sewers.
8. Grease, Oil and Sand Interceptors - Grease, oil and sand interceptors shall be provided for the proper handling of liquid wastes containing grease in excessive amounts or any flammable wastes, sand or other harmful ingredients; except that such interceptors shall not be required for private quarters or dwellings. All interceptors shall be of a type and capacity approved by the District and shall be located as to be readily and easily accessible for easy cleaning and inspection. Grease and oil interceptors shall be constructed of impervious materials capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, water-tight and equipped with easily removable covers which, when bolted in place, shall be gas-tight and water-tight. Where installed, all grease, oil and sand interceptors shall be maintained by the owner, at his expense, in continuously efficient operation at all times.
9. Design calculations, plans, specifications and any other pertinent information relating to proposed preliminary treatment or processing facilities shall be submitted for approval of the District prior to the start of their construction, if the effluent from such facilities is to be discharged into the Public Sewer.
10. Sampling Wells - Sampling wells shall be provided for all new sewer connections serving commercial, unrestricted or unrecorded property. In addition, the District reserves the right to require the addition of a sampling well to any current connection at any time that such connection has a change of use or at any time that such sampling well is determined to be necessary by the District's engineer. Where required, such sampling wells shall be installed and maintained by the owner at his sole expense.
11. No pipe or pipe fitting which contains more than 0.25% lead may be used for the installation or repair of plumbing at any connection which provides water for human use. No solder or flux which contains more than 0.2% lead may be used for the installation or repair of plumbing at any connection which provides water for human use. This requirement may only be waived for lead joints that are necessary for repairs to cast iron pipe.
12. Potable water supply piping, water discharge outlets, backflow prevention devices or similar equipment shall not be located so as to make possible their submergence in any contaminated or polluted liquid or substance.
13. No direct connection between the District's water supply and a potential source of contamination shall be permitted to exist. Potential sources of contamination shall be isolated

from the District's water system by an air gap or an appropriate backflow prevention assembly in accordance with state plumbing regulations. Additionally, all pressure relief valves and thermal expansion devices shall be in compliance with state plumbing codes, and the District may require inspections of any such valve or backflow prevention device on such schedule as deemed appropriate by the Board of Directors.

14. No cross-connection between the District's water supply and a private water system shall be permitted to exist. Where an actual air gap is not maintained between the District's water supply and a private water supply, an approved reduced pressure-zone backflow prevention assembly shall be properly installed and a service agreement shall exist for annual inspection and testing by a certified backflow prevention device tester.

15. No connection to the District's water supply shall be permitted, which would allow the return of water used for condensing, cooling or industrial processes back to the District's water supply.

16. No plumbing fixture shall be installed within the District which is not in compliance with a state approved plumbing code.

D. PROHIBITED DISCHARGES TO SEWAGE WORKS

1. No person shall discharge or cause to be discharged any storm water, ground water, roof run-off, sub-surface drainage, down spouts, yard drains, yard fountain and ponds or lawn sprays into any sanitary sewer. Storm water and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as storm sewers or to a natural outlet approved by the District. Unpolluted processed water may be discharged upon prior written approval of the District to a storm sewer or natural outlet or into the sanitary sewer system by an indirect connection whereby such discharge is cooled, if required, and flows into the sanitary sewer at a rate not in excess of three (3) gallons per minute, provided the waste does not contain materials or substances in suspension or solution in violation of the limits prescribed herein.

2. In cases where, and in the opinion of the District, the character of the sewage from any manufacturer or industrial plant building or other premises is such that it will damage the system or cannot be treated satisfactorily in the system, the District shall have the right to require such user to dispose of such waste otherwise and prevent it from entering the system.

3. No person shall discharge or cause to be discharged, either directly or indirectly, any of the following described substances, materials, waters or waste:

- a. Any liquid having a temperature higher than 150 degrees Fahrenheit (65 degrees Centigrade), except with approval of District.
- b. Any solids, liquids or gases, which by themselves or by interaction with other substances, may cause fire or explosion hazards, or in any other way be injurious to persons, property, or the Operator of the sewage disposal works.
- c. Any solids, slurries or viscous substances of such character as to be capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works, such as ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood,

whole blood, paunch manure, hair and fleshlings, entrails, lime slurry, lime residues, slops, chemical residues, paint residues, or bulk solids.

- d. Any garbage that has not been properly comminuted or shredded. If properly comminuted or shredded, then it may be accepted under provisions established in Article I.B
- e. Any noxious or malodorous substance, which either singly or by interaction with other substances is capable of causing objectionable odors, or hazard to life; or forms solids in concentrations exceeding limits established in Article IV.C, or creates any other condition deleterious to structures of treatment processes; or requires unusual provisions, alteration, or exposure to handle such materials.
- f. Any waters or wastes having a pH lower than 5.5 or higher than 10.5, or having any corrosive property capable of causing damage or hazards to structures, equipment, or personnel of sewage disposal works.
- g. Any wastes or waters containing suspended or dissolved solids of such character and quantity that unusual attention or expense is required to handle such materials at the sewage treatment or in the public sewage works.
- h. Any waters or wastes containing a toxic or poisonous substance such as plating or heat-treating wastes in sufficient quantity to injure or interfere with any sewage treatment process, to constitute a hazard to humans or animals, or to create any hazard in the receiving waters of the sewage treatment plant.
- i. Any radioactive wastes greater than allowable releases as specified by current United States Bureau of Standards Handbooks dealing with the handling and release of radioactivity.

4. Except in quantities, or concentrations, or with provisions as stipulated herein, it shall be unlawful for any person, corporation or individual, to discharge water or wastes to the sanitary sewer containing:

- a. Free or emulsified oil and grease exceeding on analysis an average of 100 parts per million (833 pounds per million gallons) of either or both, or combinations of free or emulsified oil and grease, if, in the opinion of the District it appears probable that such wastes:
 - (1) Can deposit grease or oil in the sewer lines in such manner to clog the sewers;
 - (2) Can overload skimming and grease handling equipment;
 - (3) Are not amenable to bacterial action and will therefore pass to the receiving waters without being affected by normal sewage treatment processes, or;

- (4) Can have deleterious effects on the treatment process due to excessive quantities.
- b. Cyanides or cyanogen compounds capable of liberating hydrocyanic gas on acidification in excess of one-half (0.5) part per million by weight as Cn in the wastes from any outlet into the public sewers.
- c. Materials which exert or cause:
 - Unusual concentrations of solids or composition; as for example, in total suspended solids of inert nature (such as Fuller's Earth) and/or in total dissolved solids (such as sodium chloride, or sodium sulfate);
 - (1) Excessive discoloration;
 - (2) Unusual biochemical oxygen demand or an immediate oxygen demand; high hydrogen sulfide content; or
 - (3) Unusual flow and concentration shall be pretreated to a concentration acceptable to the District, if such wastes can cause damage to collection facilities, impair the process, incur treatment costs exceeding those of normal sewage, or render the water unfit for stream disposal or industrial use. Where discharge of such wastes to the sanitary sewer are not properly pretreated or otherwise corrected, the District may reject the wastes or terminate the service of water and/or sanitary sewer, require control of the quantities and rates of discharge of such wastes, or require payment of surcharges for excessive cost for treatment provided such wastes are amenable to treatment by normal sewage plant facilities operated by the District.

E. POWERS AND AUTHORITY OF ENFORCING AGENTS

The District shall be permitted to gain access to such properties as may be necessary for the purpose of inspection, observation, measurement, sampling and testing, in accordance with provisions of these regulations. Any person found to be violating any provision of this Order shall be served by the District with written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. Any person who shall continue any violation beyond the time limit shall be guilty of violation of this Order and shall be summarily disconnected from the sanitary sewer and/or water service. Such disconnection and reconnection shall be at the total expense of the Consumer.

F. WATER CONSERVATION PROVISIONS

1. All new construction, whether residential or otherwise, shall use plumbing fixtures which meet the following water conservation criteria:

- a. Tank-type toilets - No more than 3.5 gallons per flush
- b. Flush valve toilets - No more than 3.0 gallons per flush

- c. Tank-type urinals - No more 3.0 gallons per flush
- d. Flush valve urinals - No more than 1.0 gallons per flush
- e. Shower heads - No more than 3.0 gallons per minute
- f. Lavatory and kitchen faucets - No more than 2.75 gallons per minute
- g. All hot water lines - Insulated
- h. Swimming pools - New pools must have recirculating filtration equipment
- i. Car Wash - Any commercial automatic auto or vehicle wash must have a recirculating filtration system.

2. The District shall be supplied with a schedule of fixtures to be incorporated in all new construction and manufacturers or laboratory certification that the fixtures meet the conservation criteria set forth herein. All water and sewer utility service to new connections, subsequent to the adoption of this Order, are subject and condition upon compliance with these provisions.

G. WATER EMERGENCY PROVISION

The Board of Directors adopted a Drought Contingency Plan on October 17, 2000 as required by State law. The plan addresses hours of usage allowed, rates, penalties, etc, and is a separate document from the District's Rate Order.

H. GREASE TRAPS

1. Grease Trap Inspections.

- a. The operator or other duly authorized representative of the District shall be authorized, after providing reasonable notice to the landowner in advance, to enter upon any tract within the District to determine the necessity for a grease trap.
- b. Any person who is responsible for a discharge into the District's sanitary sewer system for which, in the sole opinion of the District and its operator, a grease trap is required and who does not have an approved grease trap in place shall have sixty (60) days from the date of notice by the District within which to construct and install the required grease trap and secure necessary approvals thereof.
- c. The Operator or other duly authorized representative of the District shall be authorized to conduct periodic inspections of all grease traps within the District that are subject to this Order to ensure that grease traps are being maintained in effective operating condition, and that all necessary manholes, inspection chambers and related facilities are being maintained and are fully operational.
- d. In the event a grease trap or any related facilities are found in an unserviceable condition or in need of cleaning or maintenance, the operator or other duly authorized representative of the District shall give

written notice to the person responsible for the discharge for which the grease trap is required advising such person of the deficiencies and requesting prompt attention to the matter. The Operator shall conduct such follow-up inspections as may be necessary until the grease trap is in effective operating condition.

- e. The District may invoke the procedure described in Article V of this Order to discontinue water service to a tract or establishment in the event the owner or proprietor of said tract or establishment either (a) refuses to permit an inspection pursuant to this Section, or (b) fails, within seven (7) days after receiving written notice issued by the operator, the Board of Directors or other duly authorized representative of the District, to correct any condition found to be in violation of the District's requirements for installation, maintenance and operation of the grease traps. In addition, the District may assess a fine of \$5,000.00 per day to any party that fails, within seven (7) days after receiving written notice of violation, to correct the condition prompting the notice, in accordance with the provisions of Article V of this Order, and the Board may, at its discretion, take such action as necessary to correct the condition and maintain the grease trap and bill the customer one and a half (1½) times the District's cost of such corrective action.

2. **Grease Trap Inspection Fee.** A periodic charge of \$75.00 may be made against each person responsible for maintenance of a grease trap pursuant to this Order. The charge (grease trap inspection fee) shall defray the District's expenses of periodic inspections of grease traps as provided in this Order.

ARTICLE V. ENFORCEMENT OF THIS ORDER ESTABLISHING WATER AND SEWER RATES, RULES AND REGULATIONS

A. ENFORCEMENT

1. Pursuant to Section 51.128, Texas Water Code, the Rules and Regulations shall be recognized by the Courts of the State of Texas as if they were penal ordinances of a city.

2. Pursuant to Section 49.004, Texas Water Code, enforcement of the Rules and Regulations shall be by complaints filed in the appropriate court of jurisdiction in the county in which the District's principal office is located.

B. PENALTIES

1. **Civil Penalties.** In accordance with Texas Water Code Section 49.004, as amended, the Board hereby imposes the following civil penalties for breach of any rule of the District: The violator shall pay the District a penalty of up to and not to exceed \$20,000 per violation, with each day constituting a separate violation, as set forth in the Texas Government Code Section 27.031, as amended. A penalty under this Section is in addition to any other penalty provided by the laws of this State and may be enforced by complaints filed in the appropriate court of jurisdiction in the county in which the District's principal office or meeting place is located. If the District prevails in any suit to enforce its rules, it may, in the same action, recover any reasonable fees for attorneys, expert witnesses, and other costs incurred by the District before the court. The amount of the attorneys' fees shall be fixed by the court.

2. If any person, firm, or corporation shall violate any of the provisions of this Order, they shall be guilty of a misdemeanor, and upon conviction in a court of competent jurisdiction, shall be punished by a fine not to exceed the jurisdictional limits of the justice court for each offense. Each day of such violation shall be deemed a separate offense.

3. Any person violating any of the provisions of this Order shall become liable to the District for any expense, loss or damage occasioned by the District by reason of such violation or enforcement of such violation, including legal fees incurred by the District.

4. Discontinuance of Service. In addition to the right to terminate service for non-payment of any fees or charges, after hearing and upon finding that a violation of the District's Rate Order and Rules and Regulations have continued for three (3) days following notice to the Customer that the violation has occurred and needs to be corrected, the Board of Directors may order the immediate termination of service to the violator. Notwithstanding the above, the District's operator may immediately terminate service of any illegal connection or theft of service.

C. NOTICE OF VIOLATION

1. Delinquent Accounts. In the event a Consumer shall fail to pay any water and/or sewer bill prior to delinquency, the District's Operator shall deliver notice of such delinquency to the Consumer by regular mail at the address on the District's billing records or by door hanger on the premises where service is received. The notice shall contain the following:

- a. fact, date and amount of delinquency;
- b. the telephone number and address of the Operator to contact in the event questions arise with respect to the delinquency;
- c. a statement that the Operator has the authority to resolve clerical mistakes in the water and/or sewer bill; and
- d. a statement that failure to pay delinquent amount will result in termination of service.

The notice shall be deposited in the mail and a fee of \$15.00 shall be assessed to the Customer or delivered at least three (3) days before the date of the District's meeting.

2. Other Violations. In the event any person shall violate any of the provisions of this Order, the Board shall notify such person in writing at the address on the District's billing records, if any, by certified mail, return receipt requested, and by regular mail of such violation and the notice shall contain the following:

- a. notice of the nature of the violation;
- b. notice of the potential penalty for the violation; and
- c. date, time and location of the District's next Board meeting at which meeting such person will be entitled to present all evidence in his possession with respect to the violation.

The Notice shall be mailed not later than ten (10) days prior to the meeting.

3. The decision of the District shall be final.

D. NON-WAIVER

The failure, on the part of the District, to enforce any section, clause, sentence or provision of this Order shall not constitute a waiver of the right of the District to later enforce any section, clause, sentence or provision of this Order.

E. VALIDITY

1. All provisions of District's orders or regulations in conflict herewith are hereby repealed. The validity of any section, clause, sentence or provision of this order shall not affect the validity of any other part of this Order, which can be given effect without the invalidated part or parts.

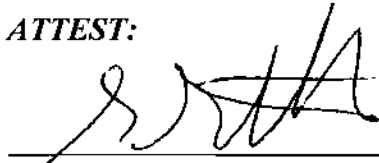

The District's President is authorized to execute and the District's Secretary to attest this Order on behalf of the District.

PASSED, APPROVED AND EFFECTIVE this 17th day of September, 2024.

President, Board of Directors

ATTEST:

Secretary, Board of Directors

PWS I.D. # _____

Location of Service _____

Reason for Inspection: New Construction

Existing service where contaminant hazards are suspected ☐

Major renovation or expansion of distribution facilities ☐

I, _____, upon inspection of the private plumbing facilities connected to the aforementioned public water supply do hereby certify that, to the best of my knowledge:

- | | Compliance | Non-Compliance |
|---|------------|--------------------------|
| (1) No direct connection between the public drinking water supply and a potential source of contamination exists. Potential sources of contamination are isolated from the public water system by an air gap or an appropriate backflow prevention assembly in accordance with state Commission regulations. | | <input type="checkbox"/> |
| (2) No cross-connection between the public drinking water supply and a private water system exists. Where an actual air gap is not maintained between the public water supply and a private water supply, an approved reduced pressure-zone backflow prevention assembly is properly installed and a service agreement exists for annual inspection and testing by a certified backflow prevention device tester. | | |
| (3) No connection exists which would allow the return of water used for condensing, cooling or industrial processes back to the public water supply. | | |
| (4) No pipe or pipe fitting which contains more than 0.25% lead exists in private water distribution facilities installed on or after January 31, 2014. | | |
| (5) No solder or flux which contains more than 0.2% lead exists in private water distribution facilities installed on or after July 1, 1988. | | |

Water service shall not be provided or restored to the private plumbing facilities until the above conditions are determined to be in compliance.

I further certify that the following materials were used in the installation of the water distribution facilities:

Service lines	Lead	<input type="checkbox"/>	Copper	<input type="checkbox"/>	PVC	<input type="checkbox"/>	Other	<input type="checkbox"/>
Solder	Lead	<input type="checkbox"/>	Lead Free	<input type="checkbox"/>	Solvent Weld	<input type="checkbox"/>	Other	<input type="checkbox"/>

I recognize that this document shall become a permanent record of the aforementioned Public Water System and that I am legally responsible for the validity of the information I have provided.

HARRIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 99
NOTICE OF PUBLIC MEETING

Notice is hereby given to all interested members of the public pursuant to Chapter 551 of the Texas Government Code that the Board of Directors of Harris County Water Control and Improvement District No. 99 will meet in regular session, at 19423 Lockridge Drive, Spring, Texas 77373, open to the public on **TUESDAY, AUGUST 20, 2024** at **6:30 P.M.**

The purpose of the meeting will be to consider and act upon the following:

1. Public Comment. (Please limit comments to three (3) minutes per person.
2. Approval of minutes of prior meeting(s).
3. Constable's Report:
 - a. Renewal of Security Contract with the Constable (Riddle).
4. Bookkeeper's Report/Investment Report/Energy Report/Water Usage Report:
 - a. Pay bills.
5. Tax Assessor-Collector's Report.
6. Financial Advisor's Report:
 - a. Discuss proposed 2024 tax rate, authorize publication of effective tax rate calculation, and establish public hearing date regarding 2024 tax rate
7. Operator's Report:
 - a. Review operations, maintenance and delinquencies.
8. Engineer's Report:
 - a. Engineering Report on Wastewater Treatment Plant and Water Plant, District projects, bids, change orders, service applications, and bond application reports.
9. New Business:
 - a. Best Trash – Beryl Responses (Fritsche)
 - b. Recycling with Best Trash (Riddle).
 - c. Review of Rate Order, amend if necessary
10. Old Business:
 - a. Shrubbery for the fence and the repair of the service driveway at Water Plant.
 - b. Conversion of the District to powers of a MUD.
 - c. Request from apartments regarding PILOT Agreement.
 - d. Update on Dunn and Miller properties.
 - e. Audit Committee.

SPECIAL WARRANTY DEED

STATE OF TEXAS §

COUNTY OF HARRIS §

To be effective as of September 6, 2024, **CIVITAS CYPRESSWOOD OWNER I, LLC**, a Delaware limited liability company ("Grantor"), for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged and confirmed, does hereby GRANT, CONVEY, ASSIGN and DELIVER to **HOUSTON HOUSING AUTHORITY**, a Texas municipal housing authority, the following described land in Harris County, Texas:

The real property described on Exhibit A attached hereto and made a part hereof (the "**Land**"), together with all of Grantor's right, title, and interest in and to any and all of the following related to the Land: (a) rights of way, streets, roads, alleys, strips, gores, and/or avenues, open or proposed, abutting the Land, (b) riparian and water rights, (c) air rights, and (d) uses, servitudes, licenses, easements, tenements, hereditaments and appurtenances now or hereafter belonging to or benefiting the Land.

The term "**Land**" as used in this Special Warranty Deed is limited to the items identified in the preceding paragraph and specifically excludes all of Grantor's right, title, and interest in and to any (i) buildings, structures, and other improvements located in, upon, and/or under the Land (hereinafter defined) (collectively, the "**Improvements**"), (ii) fixtures, equipment, furniture, furnishings, appliances, supplies, tools, signs, and other tangible and intangible personal property attached to, appurtenant to, located in or on, and/or used in connection with the Land and/or the Improvements, (iii) licenses, warranties, and permits, and (iv) leases, occupancy agreements, and service contracts.

This conveyance of the Land is made subject to general real estate taxes on the Land and Improvements for the current year and subsequent years, and the exceptions to title listed on Exhibit B, attached hereto and made a part hereof (collectively, the "**Permitted Exceptions**").

SPECIAL WARRANTY DEED (LANDLORD)
CYPRESSWOOD -- PAGE 1

TO HAVE AND TO HOLD the Land, together with all and singular the rights and appurtenances thereto in anywise belonging, unto Grantee and its successors and assigns, forever, and Grantor does hereby bind itself and its successors to forever warrant and defend all and singular the Land unto Grantee and its successors and assigns against every party whomsoever lawfully claiming, or to claim the same, or any part thereof, by, through or under Grantor, but not otherwise; subject, however to the Permitted Exceptions.
