RE: PUCT Project No. 57478 – 2024 Electric System Service Quality Report pursuant to
Substantive Rules §25.52, §25.81, §25.343

Attached is a copy of Oncor Electric Delivery Company LLC's ("Oncor's") Service Quality Report dated February 5, 2025.

Additionally, in satisfaction of the reporting requirement in Substantive Rule § 25.343(g)(3)(C), Oncor notes that in the reporting year of 2024, there was one instance where Oncor provided consignment inventory to a customer. Should the Public Utility Commission of Texas view this instance as the provision of a competitive energy service to a customer, Oncor is reporting it as having been provided in an emergency situation as defined in Substantive Rule § 25.243(g)(1). The material provided to the customer in this instance was part of third-party S&C Electric Company's owned consignment inventory. Oncor had the right to use, but did not own, the material when provided to the customer, and the material was stored at Oncor facilities in Lancaster, Texas. Oncor, however, is reporting this instance out of an abundance of caution.

If you have any questions or require further information, please contact me at 214.486.3512.

Sincerely,

Thomas J. Yamin, P.E.
Director
