1. Historical five-year reporting period: 2020-2024

What percentage of overhead transmission facilities greater than 60 kilovolts did you inspect for compliance with the National Electric Safety Code (NESC) relating to vertical clearance in the historical five-year reporting period?

Detailed inspections of overhead transmission facilities were performed for a defined 20% of the system each year. Over the five-year reporting period, 100% of the overhead transmission facilities were inspected.

2. Future five-year reporting period: 2025-2029

What percentage of overhead transmission facilities greater than 60 kilovolts do you anticipate you will inspect for compliance with the NESC relating to vertical clearance during the future five-year reporting period beginning on January 1 of the year in which this report is submitted?

Detailed inspections of overhead transmission facilities will be performed for a defined 20% of the system each year. Over the future five-year reporting period, 100% of the overhead transmission facilities will be inspected.

AFFIDAVIT

I swear or affirm that I have personal knowledge of the facts stated in this report or am relying on people with personal knowledge, that I am competent to testify to them, and that I have the authority to submit this report on behalf of the affected entity. I further swear or affirm that all statements made in this report are true, correct, and complete.
