1. Historical five-year reporting period: 2020-2024

What percentage of overhead transmission facilities greater than 60 kilovolts did you inspect for compliance with the National Electric Safety Code (NESC) relating to vertical clearance in the historical five-year reporting period?

During the 2020-2024 five-year period, CenterPoint Energy inspected 100.0% of its transmission system for compliance with the vertical clearance requirements of the NESC in effect at the time of the survey.

2. Future five-year reporting period: 2025-2029

What percentage of overhead transmission facilities greater than 60 kilovolts do you anticipate you will inspect for compliance with the NESC relating to vertical clearance during the future five-year reporting period beginning on January 1 of the year in which this report is submitted?

Over the next five years (2025-2029), CenterPoint Energy expects to survey 100.0% of its transmission system for compliance with the NESC in effect at the time of the survey.

AFFIDAVIT

I swear or affirm that I have personal knowledge of the facts stated in this report or am relying on people with personal knowledge, that I am competent to testify to them, and that I have the authority to submit this report on behalf of the affected entity. I further swear or affirm that all statements made in this report are true, correct, and complete.
