QUESTION:

Regarding CenterPoint's capital investment plan in its February 20, 2025, news release found using this link, provide the following in "live" Excel format:

- a. The list of capital projects and the budgeted spend for each project that supports CenterPoint's current ten-year capital investment plan, by year;
- b. For each project in subpart (a), state the capital project category using the categorizations identified in Response to TIEC 1-21(c); and
- c. For each project in subpart (a), state the projects which are transmission-related.

ANSWER:

Please reference capital investments and plant in service from the Houston Electric rate case [Docket 56211] and the subsequent TCOS [Docket 57779] and DCRF [Docket 57775] filings for historical information and the attached file for Houston Electric's projected investments, including the transmission related amounts, from 2025 through 2030.

QUESTION:

Regarding ERCOT's transmission planning process found using this link, provide the following in "live" Excel format:

- a. For each project in this SRP that would solve a transmission issue identified in the ERCOT 2024 Regional Transmission Plan (RTP) Report, please identify the SRP project and cost, as well as the corresponding transmission issue in the report; and
- b. For any portion of the Coastal Resiliency Projects Measure (RM-9) that is not included in the Response to subpart (a), please describe, in detail, why this portion of RM-9 did not qualify for inclusion in the 2024 ERCOT RTP report.

ANSWER:

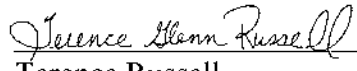

- a. SRP project: Rebuild/Reconductor West Columbia to Str 04612 Cost: 40.3M Corresponding Transmission issue in the report: West Columbia (43384) to Needville (42380) 138-kV Line Upgrades
- b. Please see response to TIEC 1-13 e.
