RE: PUC Docket No. 57648 Request to Intervene

Additional comments:

One of the proposed routes will cross my three property segments. The smallest segment of 1.5 acres will most likely become a total loss to me. If the power line goes through my two other segments (4.5 acres each) they may be divided into 4 smaller sections. This would create smaller plots of 1-1.5 acres each, thereby making them less valuable or more difficult for any commercial or non-commercial use. My two larger properties are only 1200ft x 300ft. The power line would have a significant effect on these small pieces of property. I request that alternate routes be chosen to accommodate the power needs of Texas.

Attached is a map of my properties.

Thank you.
