Technical and Managerial Requirements

I. Application

Tenaska Power Services Co seeks to amend REP certificate No. 10035 for customer changes including additions or deletions of customers.

Tenaska stated that they are amending their application to add new customer(s).

II. Sufficiency Analysis

Under 16 TAC § 25.107(c)(1), an application for REP certification “shall be on a form approved by the commission, verified by oath or affirmation, and signed by an executive officer of the applicant.” The applicant submitted its application on a commission-approved form, it was verified by oath or affirmation, an executive officer of the applicant signed it, and it contained all the information required by 16 TAC § 25.107.

Under 16 TAC § 25.107(h)(2)(G), “[a] REP must maintain and update the information required by subsections (d), (e), and (f) of this section, as applicable, on an ongoing basis.” A REP must apply to amend its certification within ten working days from the occurrence of a material change to its

certification. A REP may apply for the commission to approve a material change by filing an application to amend its certification before the material change is anticipated to occur. A material change includes for Option 2 REPs, the addition or removal of customers served by the Option 2 REP.

Tenaska Power Services Co provided the required signed and notarized customer(s) affidavit in a confidential supplemental filing on February 18, 2025. Tenaska stated that the date of material change was February 12, 2025, satisfying the requirement.

Application Requirements

The application instructs the Option 2 applicants that are making customer changes (additions or deletions) are to complete the Title Page (TP), Mandatory Information (MI), Other Information (OI) and part B.

The applicant completed all sections of the application and provided attachments.

III. Conclusion

I have reviewed the application of Tenaska Power Services Co and found that it was submitted on a commission-approved form and that it contains all the information required by 16 TAC § 25.107. Therefore, I recommend that the application be considered sufficient for further review. This recommendation does not address the merits of the application.
