**Objection to Aqua Texas Proposed New Rates
PUCT Docket 58124**

- Sewer Base Rate Facility Charge would increase by 35% from \$71.50 to \$96.93 for unmetered systems. As the sewer system at the Museum is an unmetered system, this scenario applies.
- The FTCC Sewer Credit Rider is eliminated in the proposed rate increase submitted by Aqua and is going to capture this credit into the monthly minimum and gallonage rates. This creates a lack of transparency as to where the credit is assigned to each water system.
- Regulatory assessment and Regional Pass-through fees remain the same with no changes being noted.
- Aqua is asking that the Systems Improvement Charges for all systems be included in the base rate. Doing so would create a lack of transparency to customers, leading them to think that they were paying for their own system improvements rather than paying for improvement in other systems that have been poorly maintained.
