has filed a rate change application with the Public Utility Commission of Texas (Commission or PUCT). The application may be reviewed online at [interchange.puc.texas.gov](http://interchange.puc.texas.gov). You may also inspect a copy of the rate change application at your utility's office at the address below or at the Commission's office (1701 N. Congress Ave, Austin, TX 78701). The proposed rates will apply to service received after the effective date provided below, unless modified or suspended by the Commission. If the Commission receives a sufficient number of protests, separately or in a combined protest letter, from at least 7,897 ratepayers (10 percent of the utility's customers over whose rates the Commission has original jurisdiction) or from any affected municipality before the 91st day after the proposed effective date, the matter will be set for hearing. See Protest Form on the next page for instructions on how to protest.

**EFFECTIVE DATE OF PROPOSED INCREASE:**

July 25, 2025

(must be at least 35 days after notice is provided to customers and 35 days after application is filed)

(Proposed rates requested by the utility are not final. The Commission may modify the rates and order a refund or credit against future bills all sums collected during the pendency of the rate proceeding in excess of the rate finally ordered plus interest.)

**Reason(s) for Proposed Rate Change:**

The proposed rate change is being requested in order to recover capital investments Aqua Texas has made to maintain and improve its systems since the last rate case(s) and to reflect inflationary increases to Aqua Texas' operating costs.

Dear Public Utility Commission,

I am writing to file a formal complaint regarding the persistent and unacceptable water infrastructure problems that have plagued our service area for years. Despite numerous reports and temporary fixes, Aqua has failed to address the root causes of these ongoing issues.

- 1) Persistent water leaks
- 2) Service interruptions and low water pressure
- 3) No limits set on new construction for water conservation
- 4) Over pumping
- 5) Lack of communication when water is turned off and when/if we should boil water.

The aging and insufficient pipe system in our area demonstrates Aqua's failure to:

- maintain and upgrade infrastructure
- prepare pipes for weather conditions & normal wear and tear.
- Invest in long-term solutions rather than temporary patches.

And now they want us to pay for their neglect! Our property values and quality of life depend on Aqua's ability to take seriously our situation and actively manage and regulate for our future water security.

Sincerely,

Anne Wernick
