Current Water Rates

The City of Henderson continues to strive for the highest quality water and wastewater service achievable. The expense of maintenance operations continues to increase. Our public utilities and finance departments continuously monitor the maintenance and operations for water and wastewater to ensure a balanced budget within that enterprise fund.

Structure and rate changes were recommended to City Council based upon this data. The adopted structure and rate changes are as follows:

2024-2025 Proposed Water and Wastewater Rates

WATER and SEWER RATES		
<u>Residential Water Rates - Inside City Limits</u>		
Minimum Rate (Includes 0-1900 Gallons)	\$21.00	
2000 - 4900 Gallons	\$4.50 per Thousand
