My name is Christina and I'm a resident of San Marcos, Texas. I strongly oppose the rate hikes proposed by Aqua Texas. Many residents are already barely making ends meet. Things are only going to get worse for the working class and we simply cannot afford these outrageous hikes. We have already fought this and won, and now you're coming right back with even higher rate hikes, and this is unacceptable. It's already been proven that you inflate costs and cite vague expenses. Please stop robbing the people of Texas. What you're doing is villainous.
