### SB1253 Veto

I am a well and landowner in Hays County and am appalled that Governor Abbot would veto SB 1253 without considering the impact on the citizens of Hays County in the excessive waste and overcharging of water usage in our county. The aquifer is already strained to the breaking point and causing some wells, even at the 500 ft level to go dry. AquaTexas must have County oversight and regulation or all in the Edwards Aquifer zone will suffer and necessary water access will be lost due to profligate over pumping, wastage and lack of conservation.

Thank You, Lee Duffield
