PUCT Docket No. 58124  
Aqua Water Rate Change Request

I am submitting this protest in response to the attached docket request by Aqua Water Systems for a rate increase for Cedar Point Water System in Polk County Texas.

Based on the data submitted by Aqua Water Systems in the increase request documentation, this could potentially represent a 75% increase in the cost of water and sewer service for my primary residence. There is no economic data that currently exists that justifies this level of increase. Inflation doesn't approach this level, and if the Aqua Water Systems requires this level of increase to maintain viable business operations, then it should be obvious that the business is not being well managed or properly run.

This level of increase should be embarrassing to request and I trust that my Texas Public Utility Commission will protect consumers and deny this outrageous request.
