										Increase %	264.35%			91.9%	

Above is our actual billing amount for the last 12 months. If the new rates are allowed to go into effect, our water only portion of the bill will increase by 264.35%. The water amount plus the customer charge plus the pass thru will increase our bills past the point of affordability. If the pass thru amount remains the same (uncertain), our bills will increase by 91.9%. Retired, fixed income people can not afford this ridiculous increase.
