has filed a rate change application with the Public Utility Commission of Texas (Commission or PUCT). The application may be reviewed online at [interchange.puc.texas.gov](http://interchange.puc.texas.gov). You may also inspect a copy of the rate change application at your utility's office at the address below or at the Commission's office (1701 N. Congress Ave, Austin, TX 78701). The proposed rates will apply to service received after the effective date provided below, unless modified or suspended by the Commission. If the Commission receives a sufficient number of protests, separately or in a combined protest letter, from at least 7,897 ratepayers (10 percent of the utility's customers over whose rates the Commission has original jurisdiction) or from any affected municipality before the 91st day after the proposed effective date, the matter will be set for hearing. See Protest Form on the next page for instructions on how to protest.

**EFFECTIVE DATE OF PROPOSED INCREASE:** July 25, 2025

(must be at least 35 days after notice is provided to customers and 35 days after application is filed)

(Proposed rates requested by the utility are not final. The Commission may modify the rates and order a refund or credit against future bills all sums collected during the pendency of the rate proceeding in excess of the rate finally ordered plus interest.)

**Reason(s) for Proposed Rate Change:**

The proposed rate change is being requested in order to recover capital investments Aqua Texas has made to maintain and improve its systems since the last rate case(s) and to reflect inflationary increases to Aqua Texas' operating costs.

To whom it may concern,

I am writing to formally protest the proposed rise in the cost per gallon of water distributed by Aqua Texas in the Lake Conroe Forest subdivision. I understand that the intention is to double the price of water, which I find unacceptable.

Our household, consisting of two people, uses approximately 4500 gallons of water per month and we are currently charged \$140.00. We already pay some of the highest costs for water and sewer in the area, and we do not water our yard, aside from a few potted plants.

This annual increase in water costs is particularly frustrating given the subpar quality of the water we receive. It is laden with iron and calcium, necessitating the use of a water filter to remove sediment before it enters our home. Prior to installing a water filter, we were forced to replace our hot water heater every three years due to the sediment buildup.

I urge you to reconsider this proposed rate increase and to address the ongoing issues with water quality in our subdivision.

Sincerely,

Candi Smith
