From what I can determine from this request, the rate increase request is 48.59%. This seems to be a significant increase to request with only a month's notice. I feel this request should be accompanied by a thorough explanation of the reason(s) and where the additional revenues will be allocated. As a rate payer and user, I feel we are owed very specific details of why warrants this level of increase and what the ramifications to our operator will be if this is not approved.
