has filed a rate change application with the Public Utility Commission of Texas (Commission or PUCT). The application may be reviewed online at interchange.puc.texas.gov. You may also inspect a copy of the rate change application at your utility's office at the address below or at the Commission's office (1701 N. Congress Ave, Austin, TX 78701). The proposed rates will apply to service received after the effective date provided below, unless modified or suspended by the Commission. If the Commission receives a sufficient number of protests, separately or in a combined protest letter, from at least 7,897 ratepayers (10 percent of the utility's customers over whose rates the Commission has original jurisdiction) or from any affected municipality before the 91st day after the proposed effective date, the matter will be set for hearing. See Protest Form on the next page for instructions on how to protest.

EFFECTIVE DATE OF PROPOSED INCREASE:

July 25, 2025

(must be at least 35 days after notice is provided to customers and 35 days after application is filed)

(Proposed rates requested by the utility are not final. The Commission may modify the rates and order a refund or credit against future bills all sums collected during the pendency of the rate proceeding in excess of the rate finally ordered plus interest.)

Reason(s) for Proposed Rate Change:

The proposed rate change is being requested in order to recover capital investments Aqua Texas has made to maintain and improve its systems since the last rate case(s) and to reflect inflationary increases to Aqua Texas' operating costs.

We have been told to reduce our water usage by 40% in Woodcreek and 0 outside watering. I have done as asked. That means I shower once a week, wash clothes once a week, run my dishwasher once a week. And disgusting as it sounds, I flush my toilet 4 times a day! My grass is dead and my trees are dying. I catch as much water as I can during my shower and in a dish pan from my kitchen faucet when I wash veggies or wash my hands to haul outside to try to keep anything alive. My home is no longer a home but a shelter. I feel like I'm camping. I'm getting too old to continue this way.

I'm guessing that you need to increase our water rates because your income has decreased because we are using less water. Yet you continued to sell more and more more water hook ups! Where is this water coming from? I thought we were in a drought. Plus you even used the aquifer by over selling our water.

My home is going to be worthless if this continues!
